VA is amending the System Name, System Location, Categories of Records in the System, Routine Uses of Records Maintained in the System, Storage, and System Manager and Address. VA is republishing the system notice in its entirety.

FOR FURTHER INFORMATION CONTACT: Veterans Health Administration (VHA) Privacy Act Officer, Department of Veterans Affairs, 810 Vermont Avenue NW., Washington, DC 20420; telephone (704) 245-2492.

SUPPLEMENTARY INFORMATION: The Spinal Cord Injury and Disorders Outcomes—Repository (SCIDO-R) provides a registry of veterans with spinal cord injury and disorders (SCI&D). This repository contains pertinent information on veterans with SCI&D and enables better coordination

of care among VHA staff. The purpose of the repository is to assist clinicians, administrators, and researchers in identifying and tracking services for veterans with spinal cord injuries and disorders resulting from trauma or diseases. The SCIDO-R can also facilitate clinical, administrative, and research reports for medical center use. Regional SCIDO repositories provide aggregate data to the National SCIDO-R database at the Austin Information Technology Center (AITC). This centralized AITC repository is used to provide a VA-wide review of veteran demographics and clinical aspects of injury and disorders for administrative and research purposes. VHA's Spinal Cord Injury and Disorders Services developed the SCIDO-R and these records are maintained exclusively by VA.

VA is renaming the system of records from Spinal Cord Dysfunction Registry—VA to Spinal Cord Injury and Disorders Outcomes—Repository (SCIDO-R)—VA.

The Location has been amended to include that each Spinal Cord Injury Center has a SCIDO application deployment.

The Category of Records in the System is amended to reflect that the SCIDO-R will also store outcome measures of impairment, and a registrant may have multiple outcome entries.

The following routine use disclosure statements are added:

Routine use fourteen (14) states that VA may disclose identifying information, including social security number, concerning veterans, spouses of veterans, and the beneficiaries of veterans to other federal agencies for the purpose of conducting computer matches to obtain information to determine or verify eligibility of veterans receiving VA medical care under Title 38, U.S.C.

Routine use fifteen (15) states that VA may disclose patient identifying information to federal agencies and VA and government-wide third-party insurers responsible for payment of the cost of medical care for the identified patients, in order for VA to seek recovery of the medical care costs. These records may also be disclosed as part of a computer matching program to accomplish this purpose.

The Report of Intent to Amend a System of Records Notice and an advance copy of the system notice have been sent to the appropriate Congressional committees and to the Director of the Office of Management and Budget (OMB) as required by 5 U.S.C. 552a(r) (Privacy Act) and

guidelines issued by OMB (65 FR 77677), December 12, 2000.

Approved: March 20, 2012.

John R. Gingrich,

Chief of Staff, Department of Veterans Affairs.

The purpose of the repository is to assist clinicians, administrators, and researchers in identifying and tracking services for Veterans with spinal cord dysfunction resulting from trauma or diseases. The SCIDO–R can also facilitate clinical, administrative, and research reports for medical center use. Regional SCIDO Repositories provide data extracts to the National SCIDO–Repository database at the AITC. POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tapes/disks and optical discs. Electronic data are maintained on Direct Access Storage Devices at the AITC. The AITC stores registry tapes for disaster backup at a secure, off-site location. Electronic backup files for the regional SCIDO-R applications are stored at the Regional Data Processing

Center (RDPC1) at Denver, CO also for disaster backup at a secure, off-site location.

RETRIEVABILITY:

Records are indexed by name of Veteran, social security number, and unique patient identifiers.

SAFEGUARDS:

1. Data transmissions between VA health care facilities and the VA databases housed at the AITC are accomplished using the Department's wide area network. The SCIDO-Repository program and other programs at the respective facilities automatically flag records or events for transmission based upon functionality requirements. VA health care facilities control access to data by using VHA's VistA security modules. The Department's Telecommunications Support Service has oversight responsibility for planning, security, and management of the wide area network.

2. Access to records at VA health care facilities is only authorized to VA personnel on a "need-to-know" basis. Records are maintained in staffed rooms during working hours. During non-working hours, there is limited access to the building with visitor control by security personnel. Access to the AITC is generally restricted to AITC staff, VA Central Office employees, custodial personnel, Federal Protective Service, and authorized operational personnel through electronic locking devices. All other persons gaining access to the computer rooms are escorted. Backup records stored off-site for both the AITC and VA Central Office are safeguarded in secured storage areas.

3. Strict control measures are enforced to ensure that access to and disclosure from all records including electronic files and Veteran-specific data elements are limited to VHA employees whose official duties warrant access to those files. The automated record system recognizes authorized users by keyboard entry of unique passwords, access, and verify codes.

RETENTION AND DISPOSAL:

Records will be maintained and disposed of in accordance with record disposition authority approved by the Archivist of the United States. Depending on the record medium, records are destroyed by either shredding or degaussing. Optical disks or other electronic media are deleted when no longer required for official duties.

VA has submitted a request for records disposition authority to the National Archives and Records

Administration (NARA) for approval. Upon approval by NARA, VA will publish an amendment to this System of Records. In the interim, no records will be destroyed.
