

*Example 19.* Assume the same facts as stated in *Example 18*, except that instead of making a deposit of \$h into B, Y enters into a guarantee agreement with B. The guarantee agreement provides that if X defaults on the loan, Y will repay the balance due on the loan to B. B was unwilling to make the loan to X in the absence of Y's guarantee. X must use the proceeds from the loan to construct the new child care facility. At the same time, X and Y enter into a reimbursement agreement whereby X agrees to reimburse Y for any and all amounts paid to B under the guarantee agreement. The signed guarantee and reimbursement agreements together constitute a "guarantee and reimbursement arrangement." Y's primary purpose in entering into the guarantee and reimbursement arrangement is to further Y's educational purposes. No significant purpose of the guarantee and reimbursement arrangement involves the production of income or the appreciation of property. The guarantee and reimbursement arrangement significantly furthers the accomplishment of Y's exempt activities and would not have been made but for such relationship between the guarantee and reimbursement arrangement and Y's exempt activities. Accordingly, the guarantee and reimbursement arrangement is a program-related investment.

**Executive Summary**

**Why We Need To Publish a Proposed Rule**

In response to litigation against the Service challenging our December 16, 2008 final 4(d) special rule for the polar bear, the District Court for the District of Columbia (Court) found that although the final 4(d) special rule for the polar bear was consistent with the ESA, the Service violated the National Environmental Policy Act (NEPA) and the Administrative Procedure Act by failing to conduct a NEPA analysis when it promulgated the final 4(d)
