

viewing at the Air and Radiation Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The EPA/DC Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is 202-566-1744 and the telephone number for the Air and Radiation Docket is 202-566-1742.

Use EPA's electronic docket and comment system at www.regulations.gov to submit or view public comments, access the index listing of the contents of the docket, and access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the Docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at www.regulations.gov as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: Landfill Methane Outreach Program (Renewal).

ICR Numbers: EPA ICR Number 1849.06, OMB Control Number 2060-0446.

ICR Status: This ICR is scheduled to expire on 04/30/2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Landfill Methane Outreach Program (LMOP), created by EPA as part of the Climate Change Action Plan, is a voluntary program designed to encourage and facilitate the development of environmentally and economically sound landfill gas (LFG) energy projects across the United States in order to reduce methane emissions from landfills. LMOP does this by

educating local governments and communities about the benefits of LFG recovery and use; building partnerships between state agencies, industry, energy service providers, local communities, and other stakeholders interested in developing this valuable resource in their community; and providing tools to evaluate LFG energy potential. LMOP signs voluntary Memoranda of Understanding (MOU) with these organizations to enlist their support in promoting cost-effective LFG utilization. The information collection includes completion and submission of the MOU, and annual completion and submission of information forms that include basic information on LFG energy projects with which the organizations are involved as an effort to update the LMOP Landfill and Landfill Gas Energy Project Database. The information collection is to be utilized to maintain up-to-date data and information about LMOP Partners and LFG energy projects with which they are involved. The data will also be used by the public to assess LFG energy project development opportunities in the United States. In addition, the information collection will assist LMOP in evaluating the reduction of methane emissions from landfills. Responses to the information collection are voluntary.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 3 hours for each respondent. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, and disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Landfill owners and operators (both public and private), LFG energy project developers, manufacturers and suppliers of LFG energy equipment, utilities, industries using LFG energy, state agencies involved in energy, air pollution, economic development and solid waste management, and non-profits involved in the solid waste

management, public works, local government and renewable energy sectors.

Estimated Total Number of Potential Respondents: 1,220 existing Partners plus 113 new Partners per year.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 4,216 hours.

Estimated Total Annual Cost: \$334,332, which includes \$334,298 in labor costs and \$34 for operational and maintenance costs.

Changes in the Estimates: There is a decrease of 1,671 hours in the total estimated annual respondent burden compared with the burdens identified in the existing ICR approved by OMB. The existing approved ICR included a one-time, large-scale outreach to 1,000 additional landfill owners and operators. This activity and group of entities are not included in the scope of this ICR renewal, resulting in the overall decreases in total hours and hours per respondent. This change is the result of a program change. However, in the last approved ICR, Energy Partners were not requested to update landfill gas energy project data, and under this renewal, Energy Partners will be requested to provide updates on their involvement in these projects. Also, there has been growth in the number of overall Partners since the last renewal. These changes offset the magnitude of the overall burden decrease. There have been no major changes in how the information forms or MOU are dispersed or collected since the last renewal. LMOP has previously implemented simplifications and other changes to increase the efficiency of its ICR process.

John Moses,

Director, Collection Strategies Division.

FEDERAL COMMUNICATIONS COMMISSION

Information Collections Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: The Federal Communications Commission (FCC), as part of its continuing effort to reduce paperwork burdens, invites the general public and other Federal agencies to take this opportunity to comment on the

following information collection, as required by the Paperwork Reduction Act (PRA) of 1995. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and (e) ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before June 25, 2012. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to the Federal Communications Commission via email to PRA@fcc.gov and Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0489.

Title: Section 73.37, Applications for Broadcast Facilities, Showing Required.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 365 respondents; 365 responses.

Estimated Hours per Response: 1 hour.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 Section 154(i) of the Communications Act of 1934, as amended.

Total Annual Burden: 365 hours.
Total Annual Cost: \$1,331,250.
Privacy Impact Assessment(s): No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality and respondents are not being asked to submit confidential information to the Commission.

Needs and Uses: 47 CFR 73.37(d) requires an applicant for a new AM broadcast station, or for a major change in an authorized AM broadcast station, to make a satisfactory showing that objectionable interference will not result to an authorized AM station as a condition for its acceptance if new or modified nighttime operation by a Class B station is proposed. 47 CFR 73.37(f) requires applicants seeking facilities modification that would result in spacing that fail to meet any of the separation requirements to include a showing that an adjustment has been made to the radiated signal which effectively results in a site-to-site radiation that is equivalent to the radiation of a station with standard Model I facilities. FCC staff use the data to ensure that objectionable interference will not be caused to other authorized AM stations.

OMB Control Number: 3060-0727.

Title: Section 73.213, Grandfathered Short-Spaced Stations.

Form Number(s): Not applicable.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 15 respondents; 15 responses.

Estimated time per response: 0.5 hours—0.83 hours.

Frequency of Response: On occasion reporting requirement; Third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 Section 154(i), 55(c)(1), 302 and 303 of the Communications Act of 1934, as amended.

Total annual burden: 20 hours.

Total annual costs: \$3,750.

Privacy Impact Assessment(s): No impact(s).

Needs and Uses: 47 CFR 73.213 requires licensees of grandfathered short-spaced FM stations seeking to modify or relocate their stations to provide a showing demonstrating that there is no increase in either the total predicted interference area or the associated population (caused or received) with respect to all grandfathered stations or increase the

interference caused to any individual stations. Applicants must demonstrate that any new area predicted to lose service as a result of interference has adequate service remaining. In addition, licensees are required to serve a copy of any application for co-channel or first-adjacent channel stations proposing predicted interference caused in any area where interference is not currently predicted to be caused upon the licensee(s) of the affected short-spaced station(s). Commission staff uses the data to determine if the public interest will be served and that existing levels of interference will not be increased to other licensed stations. Providing copies of application(s) to affected licensee(s) will enable potentially affected parties to examine the proposals and provide them an opportunity to file informal objections against such applications.

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary, Office of Managing Director.
