Title: General Administrative Requirements for Assistance Programs (Renewal).

ICR numbers: EPA ICR No. 0938.18, OMB Control Number 2030-0020.

ICR Status: This ICR is scheduled to expire on April 30, 2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The information is collected from applicants/recipients of EPA assistance to monitor adherence to the programmatic and administrative

requirements of the Agency's financial assistance program. It is used to make awards, pay recipients, and collect information on how Federal funds are being spent. EPA needs this information to meet its Federal stewardship responsibilities. This ICR renewal requests authorization for the collection of information under EPA's General Regulation for Assistance Programs, which establishes minimum management requirements for all recipients of EPA grants or cooperative agreements (assistance agreements). Recipients must respond to these information requests to obtain and/or retain a benefit (Federal funds). 40 CFR part 30, "Grants and Agreements with Institutions of Higher Education, Hospitals and Other Non-profit Organizations," includes the management requirements for potential grantees from non-profit organizations. 40 CFR part 31, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments," includes the management responsibilities for potential State and local government grantees. These regulations include only those provisions mandated by statute, required by OMB Circulars, or added by EPA to ensure sound and effective financial assistance management. This renewal request also incorporates reporting and audit requirements associated with assistance programs funded under the American Recovery and Reinvestment Act (ARRA) of 2009 (previously approved under Emergency ICR Number 2351.01). This ICR combines all of these requirements under OMB Control Number 2030-0020. The information required by these regulations will be used by EPA award officials to make assistance awards and assistance payments and to verify that the recipient is using Federal funds appropriately to comply with OMB Circulars A-21, A-87, A-102, A-110, A-122, and A-133, which set forth the pre-award, post-award, and after-the-grant requirements.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 24 hours per respondent. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and

disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Applicants and recipients of EPA assistance agreements.

Estimated Number of Respondents: 8,391.

Frequency of Response: On occasion, quarterly or semiannually, and annually.

Estimated Total Annual Hour Burden: 205,365.

Estimated Total Annual Cost: \$11,071,840. This includes an estimated labor cost of \$11,071,840 and \$0 for annualized capital or O&M costs.

Changes in the Estimates: There is an increase of 70,768 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase resulted from the incorporation of reporting and audit requirements for program areas under which grants were funded for the ARRA, addition and elimination of some grant forms as well as updates to the estimated number of respondents, the annual submissions per respondent, and the burden hours for completion of the grant forms under the ICR.

Director, Collection Strategies Division.
