

nature of those products, and the currently limited selection of providers to customers of those products.

Paragraphs III.C. and III.D. of the Order provide certain protections to Respondents' current and future customers so that they are free to avail themselves of their rights and opportunities post-acquisition. Paragraph III.C. prohibits Respondents from intentionally disrupting or limiting service to customers except in specific, enumerated circumstances. This provision ensures that Respondents' customers are protected in their ability to conduct their day-to-day business by designating inappropriate suspension of service as a retaliatory act punishable under Paragraph III.H. of the Order. In order to address the possible chilling effects of the industry's historically litigious reputation, Paragraph III.D. grants Respondents' current and future customers the right to resolve any disputes with Respondents through arbitration.

C. Compliance and Notification Requirements

Paragraph V. of the Order requires Respondents to provide notice to the Federal Trade Commission thirty (30) days prior to any planned acquisition of any firm that gathers, markets, or sells CRE listings or CRE information in the United States for a period of five (5) years. For an additional five years thereafter, the Order requires Respondents to provide prior notice of planned acquisitions of any such firms with revenues of \$15 million or greater.

Paragraph VI. of the Order appoints Guy Dorey as Monitor to assure Respondents' ongoing compliance with their obligations and responsibilities under the Order. Among other responsibilities, Paragraph VI. empowers the Monitor, at Respondents' expense, to review and audit compliance with Order provisions relating to the divestitures of assets and information and to customers' rights to support Xceligent.

To assure that Respondents fully comply with the obligations of Paragraph II. of the Order, Paragraph VII. of the Order allows the Commission to appoint a Divestiture Trustee to assign, grant, license, divest, transfer, deliver, or otherwise convey the relevant assets and information.

Paragraph VIII. of the Order requires Respondents to submit periodic reports of compliance. The Order requires reporting every sixty (60) days for two (2) years following the Order date, and annually thereafter until the Order terminates in ten (10) years.

Paragraph IX. of the Order requires Respondents to give the Commission prior notice of certain events that might affect compliance obligations arising from the Order.

D. Additional Provisions

Paragraph X. of the Order provides that the Order shall terminate after ten (10) years.

The purpose of this analysis is to aid public comment on the proposed order. It is not intended to constitute an official interpretation of the complaint or proposed order, or to modify in any way the proposed order's terms.

By direction of the Commission, Commissioner Ohlhausen not participating.

Donald S. Clark,

Secretary.

BILLING CODE 6750-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Meeting of the Presidential Commission for the Study of Bioethical Issues

AGENCY: Presidential Commission for the Study of Bioethical Issues, Office of the Assistant Secretary for Health, Office of the Secretary, Department of Health and Human Services.

ACTION: Notice of meeting.

SUMMARY: The Presidential Commission for the Study of Bioethical Issues will conduct its ninth meeting in May. At this meeting, the Commission will discuss topics related to the ethical issues associated with the development of medical countermeasures for children as well as access to, and privacy of, human genome sequence data.

DATES: The meeting will take place on Thursday, May 17, 2012, from 9 a.m. to approximately 5:30 p.m.

ADDRESSES: The Embassy Row Hotel, 2015 Massachusetts Ave. NW., Washington, DC 20036. Telephone: (202) 265-1600.

FOR FURTHER INFORMATION CONTACT: Hillary Wicai Viers, Communications Director, Presidential Commission for the Study of Bioethical Issues, 1425 New York Ave. NW., Suite C-100, Washington, DC 20005. Telephone: (202) 233-3960. Email: Hillary.Viers@bioethics.gov. Additional information may be obtained at www.bioethics.gov.

SUPPLEMENTARY INFORMATION: Pursuant to the Federal Advisory Committee Act of 1972, Public Law 92-463, 5 U.S.C. app. 2, notice is hereby given of the

ninth meeting of the Presidential Commission for the Study of Bioethical Issues (the Commission). The meeting will be open to the public with attendance limited to available space. The meeting will also be webcast at <http://www.bioethics.gov>.

Under authority of Executive Order 13521, dated November 24, 2009, the President established the Commission. The Commission is an advisory panel of the nation's leaders in medicine, science, ethics, religion, law, and engineering. The Commission advises the President on bioethical issues arising from advances in biomedicine and related areas of science and technology. The Commission seeks to identify and promote policies and practices that ensure scientific research, health care delivery, and technological innovation are conducted in a socially and ethically responsible manner.

The main agenda items for the Commission's ninth meeting are, first, to discuss the ethical issues associated with the development of medical countermeasures for children, and second, to discuss issues of privacy of, and access to, human genome sequence data.

The draft meeting agenda and other information about the Commission, including information about access to the webcast, will be available at <http://www.bioethics.gov>.

The Commission welcomes input from anyone wishing to provide public comment on any issue before it. Respectful debate of opposing views and active participation by citizens in public exchange of ideas enhances overall public understanding of the issues at hand and conclusions reached by the Commission. The Commission is particularly interested in receiving comments and questions during the meeting that are responsive to specific sessions. Written comments will be accepted at the registration desk and comment forms will be provided to members of the public in order to write down questions and comments for the Commission as they arise. To accommodate as many individuals as possible, the time for each question or comment may be limited. If the number of individuals wishing to pose a question or make a comment is greater than can reasonably be accommodated during the scheduled meeting, the Commission may make a random selection.

Anyone planning to attend the meeting who needs special assistance, such as sign language interpretation or other reasonable accommodations, should notify Esther Yoo by telephone at (202) 233-3960, or email at

Esther.Yoo@bioethics.gov in advance of the meeting. The Commission will make every effort to accommodate persons who need special assistance.

Written comments will also be accepted in advance of the meeting and are especially welcome. Please address written comments by email to *info@bioethics.gov*, or by mail to the following address: Public Commentary, Presidential Commission for the Study of Bioethical Issues, 1425 New York Ave. NW., Suite C-100, Washington, DC 20005. Comments will be publicly available, including any personally identifiable or confidential business information that they contain. Trade secrets should not be submitted.

Dated: April 23, 2012.

Lisa M. Lee,

Executive Director, Presidential Commission for the Study of Bioethical Issues.

BILLING CODE 4154-06-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Request for Information on Guidance for the Specification of a Secure, Online Reporting System for Streamlining Programmatic, Fiscal, and Other Data From DHHS-Funded HIV Prevention, Treatment, and Care Services Grantees

AGENCY: Office of the Assistant Secretary for Health, Office of the Secretary, Department of Health and Human Services.

ACTION: Notice.

SUMMARY: The Department of Health and Human Services (DHHS) is seeking to identify interest and obtain information relevant to the design, deployment, operations, maintenance, and future enhancement of a centralized, secure, flexible data reporting system to streamline the collection, processing, and sharing of programmatic, funding, and other data reported to DHHS Operating Divisions (OpDivs) by grantees funded to provide HIV prevention, treatment, and care services.

DATES: To be assured consideration, comments must be received at one of the addresses provided below, no later than 5 p.m. EST on May 17, 2012.

ADDRESSES: Electronic responses are strongly preferred and may be addressed to [*HIVOpenData@hhs.gov*]. Written responses should be addressed to: U.S. Department of Health and Human Services, Room 443-H, 200 Independence Ave. SW., Washington, DC 20201. Attention: HIV Open Data Project.

FOR FURTHER INFORMATION CONTACT:

Andrew D. Forsyth Ph.D. or Vera Yakovchenko, MPH, Office of HIV/AIDS and Infectious Disease Policy (OHAIDP), (202) 205-6606.

SUPPLEMENTARY INFORMATION:

In July 2010, the White House released the National HIV/AIDS Strategy (NHAS) for the United States that outlined four key goals: (1) Reduce the number of people who become infected with HIV; (2) increase access to care and optimize health outcomes for people living with HIV; (3) reduce HIV-related health disparities; and (4) achieve a more coordinated national response to the HIV epidemic in the United States.¹ Central to the latter goal were two related directives. The first was to develop improved mechanisms to monitor, evaluate, and report on progress toward achieving national goals. And the second was to simplify grant administration activities by standardizing data collection and reducing undue grantee reporting requirements for federal HIV programs.

In December 2009, the White House also released its Open Government Directive,² which seeks to improve access to government data in a manner that enhances transparency, fosters participation through the public's contribution of ideas and expertise to decision-making, and enhances collaboration through new partnerships within the federal government and between public and private institutions. Notwithstanding existing clearance requirements or legitimate reasons to protect information, the Directive highlighted the need for the following: (1) Timely and accessible online publication of government information; (2) improved quality of government information; (3) creation of a culture of open government; and (4) establishment of a policy framework for Open Government. The release of the Directive was followed shortly thereafter by the DHHS Open Government Plan,³ which seeks to build upon the White House's emphasis on transparency, collaboration, and collaboration to ensure that the government works better for all Americans.

An important contribution of the DHHS Open Government Plan is its reference to new technological developments that make it possible to streamline the collection, sharing, and

processing of programmatic and fiscal data in a manner that facilitates greater transparency, participation, and collaboration, even in such critical and sensitive areas as the DHHS investment in HIV prevention, treatment, and care services. At present, DHHS OpDivs that fund these services use a mixture of non-interoperable information processing systems to collect programmatic, fiscal, and other data from grantees. Moreover, these systems often utilize different indicators to monitor the progress of HIV/AIDS programs that vary in their specifications (*e.g.*, numerators, denominators, time frames) and other key parameters. As a result, many required HIV/AIDS data elements are inconsistent, impede evaluation and monitoring of all relevant DHHS-funded services, and add undue burden to HIV services grantees charged with reporting obligations often from multiple DHHS OpDivs.

Under consideration at DHHS is the design, deployment, operations, maintenance, and future enhancement of a centralized, secure, flexible data reporting information system to compile programmatic, funding, and other data reported to DHHS OpDivs by grantees funded to provide HIV prevention, treatment, and care services. In effect, DHHS is exploring the possibility of establishing a single data reporting tool for funders, grantees, and sub-grantees that builds upon or shares many of the features of the Health Resources and Services Administration's (HRSA) Ryan White HIV/AIDS Services Report (RSR), which is a secure, online, data collection system for programmatic and fiscal data. Similarly, such a system might share features central to the National Institutes of Health's Electronic Research Administration (ERA), which offers a one-stop solution "to manage the receipt, processing, review, award and monitoring of over \$30 billion in research and non-research grants" (see <http://era.nih.gov>). Moreover, such a system would offer a secure data solution that permits internal and external access to data, eliminates paper-based reporting, and streamlines the process of data collection and sharing in a manner that advances the DHHS Open Government Plan.

The HIV Open Data Project envisioned might offer several benefits, such as: (1) Improve mechanisms to monitor, evaluate, and report on progress toward achieving NHAS goals; (2) ensure more coordinated program administration; (3) utilize a common protocol for establishing patient identifiers to protect confidentiality and de-identify client data; (4) reduce
