

information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of demolition and renovation of facilities; the disposal of asbestos waste; asbestos milling, manufacturing and fabricating; the use of asbestos on roadways; asbestos waste conversion facilities; and the use of asbestos insulation and sprayed-on materials.

Estimated Number of Respondents: 9,517.

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden: 226,407.

Estimated Total Annual Cost: \$21,694,083, which includes \$21,694,083 in labor costs exclusively; there are neither capital/startup nor operation and maintenance (O&M) costs.

Changes in the Estimates: There is an adjustment decrease in the total estimated labor hours from the most recently approved ICR. The decrease is due to a mathematical correction in the previously approved ICR, which overestimated the burden for the respondents. However, there is an overall increase in labor costs to the respondents due to an increase in labor rates.

There is an increase in Agency hours and costs from the most recently approved ICR. The increase is due to a growth in the respondent universe in the past three years, and labor rate increases. This ICR uses updated labor rates for each of the three labor categories when estimating burden costs.

FEDERAL COMMUNICATIONS COMMISSION

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: The Federal Communications Commission (FCC), as part of its continuing effort to reduce paperwork burdens, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as

required by the Paperwork Reduction Act (PRA) of 1995. Comments are requested concerning whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before July 13, 2012. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to the Federal Communications Commission via email to PRA@fcc.gov and Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0010.

Title: Ownership Report for Commercial Broadcast Stations, FCC Form 323.

Form Number: FCC Form 323.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for profit entities; not-for-profit institutions; State, Local or Tribal Governments.

Number of Respondents/Responses: 9,250 respondents; 9,250 responses.

Estimated Time per Response: 2.5 hours to 4.5 hours.

Frequency of Response: Recordkeeping requirement; on occasion reporting requirement; biennially reporting requirement.

Total Annual Burden: 38,125 hours.

Total Annual Costs: \$26,940,000.

Nature of Response: Required to obtain or retain benefits. Statutory authority for this collection of

information is contained in Sections 154(i), 303, 310 and 533 of the Communications Act of 1934, as amended.

Nature and Extent of Confidentiality: Form 323 collects two types of information from respondents: personal information in the form of names, addresses, job titles and demographic information; and FCC Registration Numbers (FRNs).

The FCC is in the process of publishing a system of records notice (SORN), FCC/MB-1, "Ownership Report for Commercial Broadcast Stations," to cover the collection, purposes(s), storage, safeguards, and disposal of the PII that individual respondents may submit on FCC Form 323. FCC Form 323 will include a privacy statement to inform applicants (respondents) of the Commission's need to obtain the information and the protections that the FCC has in place to protect the PII. This privacy statement will be finalized and included with the form instructions after the Commission has published the SORN for the collection.

FRNs are assigned to applicants who complete FCC Form 160 (OMB Control No. 3060-0917). Form 160 requires applicants for FRNs to provide their Taxpayer Information Number (TIN) and/or Social Security Number (SSN). The FCC's electronic CORES Registration System then provides each registrant with a FCC Registration Number (FRN), which identifies the registrant in his/her subsequent dealings with the FCC. This is done to protect the individual's privacy. The Commission maintains a SORN, FCC/OMB-9, "Commission Registration System (CORES)" to cover the collection, purpose(s), storage, safeguards, and disposal of the PII that individual respondents may submit on FCC Form 160. FCC Form 160 includes a privacy statement to inform applicants (respondents) of the Commission's need to obtain the information and the protections that the FCC has in place to protect the PII.

Privacy Act Impact Assessment: The FCC is in the process of publishing a system of records notice (SORN), FCC/MB-1, "Ownership Report for Commercial Broadcast Stations," to cover the collection, purposes(s), storage, safeguards, and disposal of the PII that individual respondents may submit on FCC Form 323. The FCC will publish the SORN in the **Federal Register**. Going forward, if the FCC makes substantive changes to Form 323 after its SORN is published, the Commission will conduct a full Privacy Impact Assessment of FCC/MB-1 SORN, publish a Notice in the **Federal**

Register, and post both documents on the FCC Web page, as required by the Office of Management and Budget (OMB) Memorandum, M-03-22 (September 22, 2003).

Needs and Uses: Licensees of commercial AM, FM, and full power television broadcast stations, as well as licensees of Class A and Low Power Television stations must file FCC Form 323 every two years. Ownership Reports shall provide information accurate as of October 1 of the year in which the Report is filed. Thereafter, the Form shall be filed biennially beginning November 1, 2011, and every two years thereafter.

Also, Licensees and Permittees of commercial AM, FM, or full power television stations must file Form 323 following the consummation of a transfer of control or an assignment of a commercial AM, FM, or full power television station license or construction permit; a Permittee of a new commercial AM, FM or full power television broadcast station must file Form 323 within 30 days after the grant of the construction permit; and a Permittee of a new commercial AM, FM, or full power television broadcast station must file Form 323 to update the initial report or to certify the continuing accuracy and completeness of the previously filed report on the date that the Permittee applies for a license to cover the construction permit.

In the case of organizational structures that include holding companies or other forms of indirect ownership, a separate FCC Form 323 must be filed for each entity in the organizational structure that has an attributable interest in the Licensee if the filing is a nonbiennial filing or a reportable interest in the Licensee if the filing is a biennial filing.

Privacy Impact Assessment: Yes. The Commission maintains a system of records notice (SORN), FCC/WTB-1, "Wireless Services Licensing Records," that covers this collection, purpose(s), storage, safeguards and disposal of the Personally Identifiable Information (PII) that marine VHF radio licensees maintain under 47 CFR section 80.103.

Nature and Extent of Confidentiality: There is a need for confidentiality with respect to all owners of Marine VHF radios with Digital Selective Calling (DSC) capability in this collection. Pursuant to section 208(b) of the E-Government Act of 2002, 44 U.S.C. section 3501, in conformance with the Privacy Act of 1974, 5 U.S.C. 552(a), the Wireless Telecommunications Bureau (WTB or Bureau) instructs licensees to use the FCC's Universal Licensing System (ULS), Antenna Structure Registration (ASR), Commission Registration System (CORES) and related systems and subsystems to submit information. CORES is used to receive an FCC Registration Number (FRN) and password, after which one must register all current call signs and ASR numbers associated with a FRN within the Bureau's system of records (ULS database). Although ULS stores all information pertaining to the individual license via the FRN, confidential information is accessible only by persons or entities that hold the password for each account, and the Bureau's Licensing Division staff. Upon the request of a FRN, the individual licensee is consenting to make publicly available, via the ULS database, all information that is not confidential in nature.

Information on the marine VHF radios with DSC capability is maintained in the Commission's system of records, FCC/WTB-1, "Wireless Services Licensing Records." The licensee records will be publicly available and routinely used in accordance with subsection (b) of the Privacy Act. FRN numbers and material which is afforded confidential treatment pursuant to a request made under 47 CFR section 0.459 of the Commission's rules, will not be made available for public inspection. Any PII that individual applicants provide is covered by a
