These data collections efforts may include, but may not be limited to electronic methodologies, empirical studies, video and audio collections, interviews, and questionnaires. For example, data collection efforts may include the evaluation of the Electronic Health Records (HER) for use by the medical community. NIST will limit its inquiries to data collections that solicit strictly voluntary opinions or responses and will not collect information that is required or regulated. The results of the data collected will be used to guide NIST research. Steps will be taken to ensure anonymity of respondents in each activity covered under this request.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for revision and extension of a currently approved information collection.

In 1972, in response to intense pressure on United States (U.S) coastal resources, and because of the importance of U.S. coastal areas, the U.S. Congress passed the Coastal Zone Management Act of 1972 (CZMA), 16 U.S.C. 1451 et seq. The CZMA authorized a federal program to encourage coastal states and territories to develop comprehensive coastal management programs. The CZMA has been reauthorized on several occasions, most recently with the enactment of the Coastal Zone Protection Act of 1996. (CZMA as amended). The program is administered by the Secretary of Commerce, who in turn has delegated this responsibility to the National Oceanic and Atmospheric Administration's (NOAA) National Ocean Services (NOS).

The coastal zone management grants provide funds to states and territories to implement federally approved coastal management programs; complete information for the Coastal Zone Management Program (CZMP) Performance Management System; revise assessment document and multi-year strategy; submit documentation as described in the CZMA Section 306a on the approved coastal zone management programs; submit request to approve amendments or program changes; and report on the states' coastal nonpoint source pollution programs (CNPSP).

Revision: There is new competitive grant funding under CZMA Section 309a, so that funding stream and required documentation will now be part of this information collection.

II. Method of Collection

Respondents have a choice of electronic or paper formats for submitting program plans, assessment and strategy documents, project applications, performance reports and other required materials. Project applications may be submitted electronically via Grants.gov or by mail in paper form. Methods of submittal for plans, performance reports or other required materials include electronic submittal via email or NOAA Grants Online, mail and facsimile transmission of paper forms, or submittal of electronic files on compact disc.
