SUPPLEMENTARY INFORMATION:

Background

The Commercial Motor Vehicle Safety Act of 1986 (CMVSA) (49 U.S.C. 31301 *et seq.*) established the commercial driver's license (CDL) program and directed the Federal Highway Administration (FHWA), FMCSA's predecessor agency, to establish minimum qualifications for issuance of a CDL. After public notice and an opportunity for comment, the FHWA established standards for the knowledge and skills which a CDL applicant must satisfy.

In 1985, the FHWA published "Model Curriculum for Training Tractor-Trailer Drivers." The FHWA did not mandate driver training at that time. It believed the cost of developing a comprehensive driver-training program was too high in terms of agency resources. This was especially so, FHWA believed, in light of its reasonable expectation that the level of safety of entry level drivers would soon be elevated because (1) the deadline for States to adopt the new mandatory CDL-licensing standards for driver knowledge and skills was still in the future, and (2) many truck driving schools had updated their curricula in light of the new model curriculum ("Truck Safety: Information on Driver Training," Report of the U.S. General Accounting Office, GAO/RCED-89-163, August 1989, pages 4 and 5).

In 1991, the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) (Pub. L. 102-240, December 18, 1991) directed the FHWA to "commence a rulemaking proceeding on the need to require training of all entry-level drivers of commercial motor vehicles (CMVs)" (Section 4007(a)(2)). On June 21, 1993, the FHWA issued an advance notice of proposed rulemaking entitled, "Commercial Motor Vehicles: Training for All Entry Level Drivers" (58 FR 33874). The Agency also began a study of the effectiveness of the driver training currently being received by entry-level CMV drivers. The results of the study were published in 1997 under the title "Adequacy of Commercial Motor Vehicle Driver Training." The study is available under FMCSA Docket 1997-2199 at the *Federal eRulemaking Portal* (www.regulations.gov) described above. The study found that three segments of the trucking industry were not receiving adequate entry-level training: heavy truck, motor coach, and school bus.

On August 15, 2003, FMCSA published a notice of proposed
