**SUPPLEMENTARY INFORMATION:** The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

The applicant requests a five-year permit to study the diving behavior and foraging ecology of baleen whales. The purposes of the research are to: (1) Characterize diving and foraging behavior in the context of the oceanographic and acoustic environment to support improved management of baleen whales, (2) elucidate day-night cycles of foraging behavior, (3) study the environmental factors that influence diving behavior of all demographic groups, and (4) identify preferred prey species, but also the

oceanographic conditions that help to concentrate prey to develop a predictive model of baleen whale distribution. Research would occur in: The northwest Atlantic from Maine to Florida; Canadian waters of the Gulf of Maine, Labrador Sea, Davis Strait, Baffin Bay, and Hudson Bay; waters off the U.S. North Pacific (California to Washington); and the Arctic Ocean including Bering, Chukchi and Beaufort Seas. The applicant requests takes of humpback, fin, blue, sei, bowhead, North Atlantic right and North Pacific right, and Eastern North Pacific gray whales. See the application for specific take numbers by location and species/stock. Activities would include vessel surveys for passive acoustic recording, dermal and suction cup tagging, behavioral observations, photo-id, and tracking.

A draft environmental assessment (EA) has been prepared in compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), to examine whether significant environmental impacts could result from issuance of the proposed scientific research permit. The draft EA is available for review and comment simultaneous with the scientific research permit application.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.
