duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This notice is issued and published in accordance with section 777(i)(1) of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4).

Dated: May 14, 2012.

#### Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

# Clad Steel Plate from Japan: Final Results of the Expedited Third Sunset Review of the Antidumping Duty Order

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce. **SUMMARY:** On February 1, 2012, the Department of Commerce (the Department) initiated the third sunset review of the antidumping duty order on clad steel plate from Japan, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). On the basis of a notice of intent to participate on behalf of the domestic interested party, and no response from respondent interested parties, the Department conducted an expedited (120-day) sunset review for this order pursuant to 19 CFR 351.218(e)(1)(ii)(C)(2). As a result of this sunset review, the Department finds that revocation of the antidumping duty order would be likely to lead to the continuation or recurrence of dumping.

**DATES:** Effective Date: May 30, 2012. **FOR FURTHER INFORMATION CONTACT:** David Crespo, AD/CVD Operations, Office 2, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–3693.

# SUPPLEMENTARY INFORMATION:

#### **Background**

On February 1, 2012, the Department published the notice of initiation of the third sunset review of the antidumping duty order on clad steel plate from Japan pursuant to section 751(c) of the Act. See Initiation of Five-Year (Sunset) Review, 77 FR 4995 (Feb. 1, 2012) (Notice of Initiation).

On February 15, 2012, the Department received a notice of intent to participate from ArcelorMittal USA, LLC (AMUSA), a domestic interested party, within the deadline specified in 19 CFR 351.218(d)(1)(i). The company claimed interested party status under section 771(9)(C) of the Act as a U.S. producer of clad steel plate in the United States.

The Department received an adequate substantive response to the notice of initiation from AMUSA within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i). We received no substantive responses from respondent interested parties with respect to the order covered by this sunset review. As a result, pursuant to 19 CFR 351.218(e)(1)(ii)(C)(2), the Department conducted an expedited (120-day) sunset review of the antidumping duty order on clad steel plate from Japan.

# Scope of the Order

The scope of the order is all clad <sup>1</sup> steel plate of a width of 600 millimeters (mm) or more and a composite thickness of 4.5 mm or more. Clad steel plate is a rectangular finished steel mill product consisting of a layer of cladding material (usually stainless steel or nickel) which is metallurgically bonded to a base or backing of ferrous metal (usually carbon or low alloy steel) where the latter predominates by weight.

Stainless clad steel plate is manufactured to American Society for Testing and Materials (ASTM) specifications A263 (400 series stainless types) and A264 (300 series stainless types). Nickel and nickel-base alloy clad steel plate is manufactured to ASTM specification A265. These specifications are illustrative but not necessarily allinclusive.

Clad steel plate within the scope of the order is classifiable under the Harmonized Tariff Schedule of the United States (HTSUS) 7210.90.10.00. Although the HTSUS subheading is provided for convenience and customs purposes, our written description of the scope of the order is dispositive.

# **Analysis of Comments Received**

All issues raised in this review are addressed in the Memorandum from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Paul Piquado, Assistant Secretary for Import Administration, entitled, "Issues and Decision Memorandum for the Expedited Third Sunset Review of the Antidumping Duty Order on Clad Steel Plate from Japan," dated May 31, 2012 (Decision Memo), which is hereby adopted by this notice. The issues discussed in the Decision Memo include the likelihood of continuation or recurrence of dumping and the magnitude of the dumping margin likely to prevail if the order were revoked. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum which is on file electronically via IA ACCESS in the Central Records Unit, Room 7046, of the main Department of Commerce building.

In addition, a complete version of the Decision Memo can be accessed directly on the Web at http://ia.ita.doc.gov/frn.
The paper copy and electronic versions of the Decision Memo are identical in content.

# **Final Results of Review**

We determine that revocation of the antidumping duty order on clad steel plate from Japan would be likely to lead to the continuation or recurrence of dumping at the following weighted-average dumping margins: <sup>2</sup>

<sup>&</sup>lt;sup>1</sup> Cladding is the association of layers of metals of different colors or natures by molecular interpenetration of the surfaces in contact. This limited diffusion is characteristic of clad products and differentiates them from products metalized in other manners (e.g., by normal electroplating). The various cladding processes include pouring molten cladding metal onto the basic metal followed by rolling; simple hot-rolling of the cladding metal to ensure efficient welding to the basic metal; any other method of deposition of superimposing of the cladding metal followed by any mechanical or thermal process to ensure welding (e.g., electrocladding), in which the cladding metal (nickel, chromium, etc.) is applied to the basic metal by electroplating, molecular interpenetration of the surfaces in contact then being obtained by heat treatment at the appropriate temperature with subsequent cold rolling. See Harmonized Commodity Description and Coding System Explanatory Notes, Chapter 72, General Note (IV)(C)(2)(e).

<sup>&</sup>lt;sup>2</sup> The Department assigned this margin of 118.53 percent in the less than fair value investigation on the basis of total adverse facts available using the rate contained in the petition. See Notice of Final Determination of Sales at Less Than Fair Value: Clad Steel Plate From Japan, 61 FR 21158, 21159 (May 9, 1996).

Manufacturers/Exporters/Producers	Weighted-av- erage dumping margin (percent)
The Japan Steel Company All Others	118.53 118.53

This notice also serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305.

Timely notification of the return or destruction of APO materials or conversion to judicial protective orders is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing the results and notice in accordance with sections 751(c), 752(c), and 777(i)(1) of the Act.

Dated: May 22, 2012.

### National Oceanic and Atmospheric Administration

RIN 0648-XB158

#### Marine Mammals; File No. 16580

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; receipt of application.

**SUMMARY:** Notice is hereby given that Shannon Atkinson, Ph.D., University of Alaska Fairbanks, 17101 Pt. Lena Loop Road, Juneau, AK 99801 has applied in due form for a permit to import, export, and receive marine mammal parts for scientific research.

**DATES:** Written, telefaxed, or email comments must be received on or before June 29, 2012.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the Features box on the Applications and Permits for Protected Species (APPS) home page, https://apps.nmfs.noaa.gov, and then selecting File No. 16580 from the list of available applications.

These documents are also available upon written request or by appointment in the following offices:

Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)427–8401; fax (301)713–0376; and

Alaska Region, NMFS, P.O. Box 21668, Juneau, AK 99802–1668; phone (907)586–7221; fax (907)586–7249.

Written comments on this application should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301)713–0376, or by email to NMFS.Pr1Comments@noaa.gov. Please include the File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on these applications would be appropriate.

**FOR FURTHER INFORMATION CONTACT:** Laura Morse or Jennifer Skidmore, (301)427–8401.

supplementary information: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 et seq.), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 et seq.), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222–226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 et seq.).

seq.). The objectives of the proposed research are to examine reproductive, nutritional and stress physiology, and morphology in marine mammals. The applicant is requesting to receive and export samples of marine mammals taken by Alaskan Native subsistence hunters, and receive, and import/export specimens from foreign scientists in academic, federal, and state institutions involved in legally authorized marine mammal research. The applicant requests parts for all marine mammal species under NMFS jurisdiction. Marine mammal parts will be used incidentally for educational purposes. Import/export activities would occur world-wide. No live animals would be harassed or taken, lethally or otherwise, under the requested permit. The requested duration of the permit is 5 vears.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activities proposed are categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding a copy of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: May 23, 2012.

## Tammy C. Adams,

Acting Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

# National Oceanic and Atmospheric Administration

RIN 0648-XC049

# Endangered and Threatened Species; Take of Anadromous Fish

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; availability of tribal harvest plan evaluation and request for comment.

**SUMMARY:** Notice is hereby given that the Shoshone-Bannock Tribes have submitted a Tribal Resource Management Plan (Tribal Plan) to NMFS pursuant to the limitation on take prohibitions for actions conducted under Tribal Plans promulgated under the Endangered Species Act (ESA). The Tribal Plan specifies the management of ceremonial and subsistence fisheries in the Salmon River basin in the State of Idaho that potentially affect Snake River salmon and steelhead listed as threatened under the ESA. This document serves to notify the public of the availability for comment of the proposed evaluation of the Secretary of Commerce (Secretary) as to whether implementation of the Tribal Plan will appreciably reduce the likelihood of survival and recovery of Snake River salmon and steelhead.

This notice further advises the public of the availability for review of an Environmental Assessment of the effects of the NMFS determination on the subject Tribal Plan.

**DATES:** Comments must be received at the appropriate address or fax number (see **ADDRESSES**) no later than 5 p.m. Pacific time on June 29, 2012.
