What information is EPA particularly interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

- i. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- ii. Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- iii. Enhance the quality, utility, and clarity of the information to be collected; and
- iv. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What should I consider when I prepare my comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under **DATES**.
7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What information collection activity or ICR does this apply to?

Affected entities: Entities potentially affected by this action are all recipients of EPA financial assistance agreements,

and any entities receiving identified loans under a financial assistance agreement capitalizing a revolving loan fund.

Title: Participation by Disadvantaged Business Enterprises in Procurement under EPA Financial Assistance Agreements (Reinstatement).

ICR numbers: EPA ICR No. 2047.04, OMB Control No. 2090-0030.

ICR status: This ICR expired on January 31, 2011. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: EPA currently requires an entity to be certified in order to be considered a Minority Business Enterprise (MBE) or Women's Business Enterprise (WBE) under EPA's Disadvantaged Business Enterprise (DBE) Program. EPA currently requires an entity to first attempt to become certified by a federal agency (e.g., the Small Business Administration (SBA), or the Department of Transportation (DOT)), or by a State, locality, Indian Tribe or independent private organization so long as their applicable criteria match those under Section 8(a)(5) and (6) of the Small Business Act and applicable implementing regulations. EPA only certifies firms that are denied certification by one of these entities. To qualify as an MBE or WBE under EPA's programs an entity must establish that it is owned and/or controlled by socially and economically disadvantaged individuals who are of good character and are citizens of the United States. Entities that meet the aforementioned requirements and wish to obtain an EPA DBE certification must submit a DBE Certification Application to the Office of Small Business Programs based on business type: Sole Proprietorship (6100-1a); Limited Liability Company (6100-1b); Partnership (6100-1c); Corporation (6100-1d); Alaska Native Corporation (6100-1e); Tribally Owned Business (6100-1f); Private and Voluntary Organization (6100-1g); Native Hawaiian Organization (6100-1h); or Community Development Corporation (6100-1i).

The EPA DBE Program also includes contract administration requirements designed to prevent unfair practices that adversely affect DBEs. There are three forms associated with these requirements: EPA Form 6100-2 (DBE Subcontractor Participation Form), EPA Form 6100-3 (DBE Subcontractor Performance Form), and EPA Form 6100-4 (DBE Subcontractor Utilization Form). The requirements to complete these forms are intended to prevent any "bait and switch" tactics at the subcontract level by prime contractors which may circumvent the spirit of the DBE Program.

Burden Statement: The combined total annual public reporting and recordkeeping burden for all forms associated with this collection of information is estimated to average three (3) hours and fifteen (15) minutes per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This burden estimate includes the time needed to review instructions, develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

- *Estimated total number of potential respondents:* 3600.
- *Frequency of response:* Certification: Every three years or more often as required. Form 6100-2: As needed, Form 6100-3 and Form 6100-4: At the time of bid or proposal.
- *Estimated total average number of responses for each respondent:* 3600.
- *Estimated total annual burden hours:* 11,700 (three hours and fifteen minutes per respondent).
- *Estimated total annual costs:* \$146,916. This includes an estimated burden cost of \$146,916, and an estimated cost of \$0 for capital investment or maintenance and operational costs.

Are there changes in the estimates from the last approval?

There will be a change in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. The 6100-2, -3, and -4 forms have been revised to include more detailed instructions, which should decrease the amount of time it takes to complete each form.

What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: May 13, 2012.

John Reeder,

Deputy Chief of Staff.
