SUPPLEMENTARY INFORMATION: The Migrant and Seasonal Agricultural Worker Protection Act provides that no individual may perform farm labor contracting activities without a certificate of registration. Form WH-530 is the application form that provides the DOL with the information necessary to issue certificates specifying the farm labor contracting activities authorized. In addition, certain vehicle and safety standards are required of farm labor contractor applicants and such data is

collected via forms WH-514, WH-514a, and WH-515. The DOL currently obtains OMB approval to conduct those transportation related information collections under Control Number 1235-0017. This ICR proposes to combine collections under Control Numbers 1235-0016 and 1235-0017, with 1235-0016 being the survivor. The DOL will request to discontinue Control Number 1235-0017 upon OMB approval of the merger. The WHD also proposes to add and revise the forms to obtain some additional information.

These information collections are subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1235-0016. The current OMB approval for Control Number 1235-0016 is scheduled to expire on June 30, 2012; however, it should be noted that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. Control Number 1235-0017 expires September 30, 2013. New information collection requirements will only take effect on OMB approval. For additional information, see the related notice published in the **Federal Register** on September 29, 2012 (77 FR 12330).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within 30 days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should reference OMB Control Number 1235-0016. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Enhance the quality, utility, and clarity of the information to be collected; and

Long Elevator & Machine Company, Inc., Including Workers Whose Unemployment Insurance (UI) Wages Were Reported Through Kone, Inc., Riverton, IL; Notice of Affirmative Determination Regarding Application for Reconsideration

By application dated April 18, 2012, a worker requested administrative reconsideration of the negative determination regarding workers' eligibility to apply for Trade Adjustment Assistance (TAA) applicable to workers and former workers of Long Elevator & Machine Company, Inc., including workers whose unemployment insurance (UI) wages were reported through KONE Inc., Riverton, Illinois (subject firm). The determination was issued on March 22, 2012, and the Notice of determination was published in the **Federal Register** on April 10, 2012 (77 FR 21590). The subject firm is engaged in activity related to the

production of elevator components and to the supply of elevator repair services (all related to the modernization and repair of elevator).

The initial investigation resulted in a negative determination based on the findings that there was no shift in production of elevator components (or a like or directly competitive article), that neither the subject firm nor its declining customer increased imports, and that the subject firm was neither a supplier nor downstream producer to a TAA-certified firm.

The request for reconsideration stated that the subject firm made not only elevator component parts and repaired elevators but also made complete elevators, and that the workers who produced the elevators are separately identifiable from the workers who supplied elevator repair services.

The Department has carefully reviewed the request for reconsideration and the existing record, and will conduct further investigation to determine if the workers meet the eligibility requirements of the Trade Act of 1974, as amended.

Conclusion

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the U.S. Department of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, DC, this 21st day of May, 2012.

Del Min Amy Chen,

Certifying Officer, Office of Trade Adjustment Assistance.

Phillips-Van Heusen Corporation, Izod Women's Wholesale Division, New York, NY; Notice of Affirmative Determination Regarding Application for Reconsideration

By application dated May 14, 2012, a worker requested administrative reconsideration of the negative determination regarding workers' eligibility to apply for Trade Adjustment Assistance (TAA) applicable to workers and former workers of Phillips-Van Heusen Corporation, Izod Women's Wholesale Division, New York, New York (subject firm). The determination was issued on April 6, 2012. The

Department's Notice of Determination was published in the **Federal Register** on April 19, 2012 (77 FR 23511).

The initial investigation resulted in a negative determination based on the findings that with respect to Section 222(a)(2)(A)(ii) of the Act, imports of services like or directly competitive with the design, sourcing, and sales services supplied by the subject firm has not increased.

With respect to Section 222(a)(2)(B) of the Act, the investigation revealed that the subject firm did not shift the supply of design, sourcing, and sales services to a foreign country (or like or directly competitive services) or acquire the supply of design, sourcing, and sales services (or like or directly competitive services) from a foreign country.

With respect to Section 222(b)(2) of the Act, the investigation revealed that Phillips-Van Heusen Corporation is not a Supplier or Downstream Producer to a firm that employed a group of workers who received a certification of eligibility under Section 222(a) of the Act, 19 U.S.C. 2272(a).

In the request for reconsideration, the petitioner supplied new information regarding the worker group as well as a possible shift in services to a foreign country.

The Department has carefully reviewed the request for reconsideration and the existing record, and will conduct further investigation to determine if the workers meet the eligibility requirements of the Trade Act of 1974, as amended.

Conclusion

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the U.S. Department of Labor's prior decision. The application is, therefore, granted.
