

SUPPLEMENTARY INFORMATION:**Discussion**

Notice is hereby given that the NRC has issued renewed facility operating license No. DPR-35 to Entergy Operations Inc., the operator of the PNPS. Renewed facility operating license No. DPR-35 authorizes operation of PNPS by the licensee at reactor core power levels not in excess of 2,028 megawatts thermal in accordance with the provisions of the PNPS renewed license and its technical specifications.

The notice also serves as the record of decision for the renewal of facility operating license No. DPR-35, consistent with Title 10 of the *Code of Federal Regulations* (10 CFR) 51.103. As discussed in the final supplemental environmental impact statement (FSEIS) for PNPS, Supplement 47 to NUREG-1437, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants Regarding Pilgrim Nuclear Power Station," dated July 2007 (ADAMS Accession Nos. ML071990020 and ML071990027), the Commission has considered a range of reasonable alternatives that included fossil fuel generation, renewable energy sources, demand-side measures such as energy conservation, and the no-action alternative. The factors considered in the record of decision can be found in the FSEIS for PNPS.

PNPS is a boiling water reactor located 4 miles southeast of Plymouth, Massachusetts. The application for the renewed license, "Pilgrim Nuclear Power Station License Renewal Application," dated January 25, 2006 (ADAMS Accession No. ML060300028), complied with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. As required by the Act and the Commission's regulations in 10 CFR Chapter 1, the Commission has made appropriate findings, which are set forth in the license. Prior public notice of the action involving the proposed issuance of the renewed license and of an opportunity for a hearing regarding the proposed issuance of the renewed license was published in the **Federal Register** on March 27, 2006 (71 FR 15222).

For further details with respect to this action, see: (1) Entergy Nuclear Operation, Inc., license renewal application for Pilgrim Nuclear Power Station dated January 25, 2006, as supplemented by letters dated through April 24, 2012; (2) the Commission's safety evaluation report (NUREG-1891), published in November 2007, as supplemented (ADAMS Accession Nos.

ML073241016, ML072210478, and ML11147A036); (3) the licensee's Final Safety Analysis Report; and (4) the Commission's FSEIS (NUREG-1437, Supplement 29), for the Pilgrim Nuclear Power Station, published in July 2007.

Dated at Rockville, Maryland, this 29th day of May, 2012.

For the Nuclear Regulatory Commission.

Dennis Morey,

Chief, Projects Branch 1, Division of License Renewal, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION
Advisory Committee on Reactor Safeguards (ACRS); Meeting of the ACRS Subcommittee on Power Upgrades; Notice of Meeting

The ACRS Subcommittee on Power Upgrades will hold a meeting on June 22, 2012, Room T-2B1, 11545 Rockville Pike, Rockville, Maryland.

The meeting will be open to public attendance, with the exception of portions that may be closed to protect information that is proprietary pursuant to 5 U.S.C. 552b(c)(4).

The agenda for the subject meeting shall be as follows:

Friday, June 22, 2012—8:30 a.m. Until 5:00 p.m.

The Subcommittee will review the Safety Evaluation (SER) associated with the St. Lucie 2 extended power uprate application. The Subcommittee will hear presentations by and hold discussions with the NRC staff, Florida Power and Light Company, and other interested persons regarding this matter. The Subcommittee will gather information, analyze relevant issues and facts, and formulate proposed positions and actions, as appropriate, for deliberation by the Full Committee.

Members of the public desiring to provide oral statements and/or written comments should notify the Designated Federal Official (DFO), Weidong Wang (Telephone 301-415-6279 or Email: Weidong.Wang@nrc.gov) five days prior to the meeting, if possible, so that appropriate arrangements can be made. Thirty-five hard copies of each presentation or handout should be provided to the DFO thirty minutes before the meeting. In addition, one electronic copy of each presentation should be emailed to the DFO one day before the meeting. If an electronic copy cannot be provided within this timeframe, presenters should provide

the DFO with a CD containing each presentation at least thirty minutes before the meeting. Electronic recordings will be permitted only during those portions of the meeting that are open to the public. Detailed procedures for the conduct of and participation in ACRS meetings were published in the **Federal Register** on October 17, 2011, (76 FR 64126-64127).

Detailed meeting agendas and meeting transcripts are available on the NRC Web site at <http://www.nrc.gov/reading-rm/doc-collections/acrs>. Information regarding topics to be discussed, changes to the agenda, whether the meeting has been canceled or rescheduled, and the time allotted to present oral statements can be obtained from the Web site cited above or by contacting the identified DFO. Moreover, in view of the possibility that the schedule for ACRS meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with these references if such rescheduling would result in a major inconvenience.

If attending this meeting, please enter through the One White Flint North Building, 11555 Rockville Pike, Rockville, MD. After registering with security, please contact Mr. Theron Brown (Telephone 240-888-9835) to be escorted to the meeting room.

Dated: June 4, 2012.

Antonio Dias,

Technical Advisor, Advisory Committee on Reactor Safeguards.
