SUPPLEMENTARY INFORMATION: On November 3, 2011, notice was published in the **Federal Register** (76 FR 213) that a request for permits to conduct research on marine mammals had been submitted by the above-named applicants. The requested permits have been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

File No. 16163: Authorizes take of forty-two species of marine mammals in all U.S. and international waters in the

Pacific Ocean, including waters of Alaska, Washington, Oregon, California, and Hawaii. Harassment of all species of cetaceans will occur through vessel approach for sighting surveys, photographic identification, behavioral research, opportunistic sampling (breath, sloughed skin, fecal material, and prey remains), acoustic imaging with echosounders, and aerial surveys. Twenty seven cetacean species and unidentified mesoplodon species will be biopsied, dart, and/or suction-cup tagged. Ultrasound sampling will be directed at killer whales including the Southern Resident stock. Active acoustic playback studies will be directed at Southern Resident killer whales. Import and export of marine mammal prey specimens, skin and blubber, sloughed skin, fecal and breath samples obtained is authorized. The permit is valid until June 6, 2017.

File No. 16160: Authorizes take of eight species of cetaceans in the inland waters of Washington State. Harassment of all species will occur through close vessel approach for photo-identification, behavioral observation, and monitoring. The permit is valid until June 6, 2017.

The permit is valid until June 6, 2017.

An environmental assessment (EA) was prepared analyzing the effects of the permitted activities on the human environment in compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*). Based on the analyses in the EA, NMFS determined that issuance of the permits will not significantly impact the quality of the human environment and that preparation of an environmental impact statement was not required. That determination is documented in a Finding of No Significant Impact (FONSI), signed on June 4, 2012.

As required by the ESA, issuance of these permits was based on a finding that such permits: (1) Were applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) are consistent with the purposes and policies set forth in section 2 of the ESA.

Title: Generic Clearance for Collection of Information on Compliance Costs and Other Effects of Regulations.

OMB Control Number: 3170-XXXX.

Abstract: Under the Dodd-Frank Act, the Bureau has the responsibility for rulemaking, supervision, and enforcement with respect to various Federal consumer financial protection laws. Among other things, the Dodd-Frank Act directs the Bureau to promulgate rules regulating various aspects of consumer financial protection and establishing supervisory authority over certain non-depository providers of consumer financial products and services. For many of these directives there is a corresponding statutory deadline for a proposed or final rule.

A number of Federal laws require agencies to consider the benefits, costs, and impacts of rulemaking actions, including the Regulatory Flexibility Act and the Paperwork Reduction Act. Furthermore, Section 1022(b)(2)(A) of the Dodd-Frank Act calls for the Bureau to consider the potential benefits and costs of certain rules to consumers and “covered persons,” including depository and non-depository providers of consumer financial
