Proposed Amendment of Class E Airspace; Boise, ID

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Supplemental notice of proposed rulemaking (SNPRM).

SUMMARY: The FAA is issuing a SNPRM for the notice of proposed rulemaking (NPRM) published on February 7, 2012, in order to elicit comments regarding removing reference to the navigation aid in the legal description of the Class E airspace area designated as an extension at Boise Air Terminal (Gowen Field), Boise, ID. The NPRM only proposed an amendment of Class E airspace extending upward from 700 feet above the surface at the airport, as well as adjusting the geographic coordinates of the airport. The FAA is proposing this amendment to enhance safety in the Boise, ID, airspace area.

DATES: Comments must be received on or before August 13, 2012.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590; telephone (202) 366-9826. You must identify FAA Docket No. FAA-2011-1181; Airspace Docket No. 11-ANM-20, at the beginning of your comments. You may also submit comments through the Internet at <http://www.regulations.gov>.

SUPPLEMENTARY INFORMATION:

History

On February 7, 2012, the FAA published a NPRM to amend Class E airspace, extending upward from 700 feet or more above the surface, at Boise Air Terminal (Gowen Field), Boise, ID, UT (77 FR 6026). The comment period closed March 23, 2012. No comments were received. Subsequent to publication, it was discovered by National Aeronautical Navigation Services (NANS) that the legal description for the Boise, ID, Class E airspace area designated as an extension needed editing to better describe the airspace. The FAA seeks comments on this SNPRM.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (FAA Docket No. FAA 2011-1181 and Airspace Docket No. 11-ANM-20) and be submitted in triplicate to the Docket Management System (see **ADDRESSES** section for address and phone number). You may also submit comments through the Internet at <http://www.regulations.gov>.

Commenters wishing the FAA to acknowledge receipt of their comments on this action must submit with those comments a self-addressed stamped postcard on which the following statement is made: "Comments to FAA Docket No. FAA-2011-1181 and Airspace Docket No. 11-ANM-20." The postcard will be date/time stamped and returned to the commenter.

Persons interested in being placed on a mailing list for future NPRMs should contact the FAA's Office of Rulemaking, (202) 267-9677, for a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Supplemental Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by amending the Class E airspace area designated as an extension, at Boise Air Terminal (Gowen Field), Boise, ID. The legal description would be rewritten to better describe the airspace area by removing reference to the Boise VHF-Omnidirectional Radio Range Tactical Air Navigational Aid (VORTAC). Class E airspace extending upward from 700 feet above the surface would be reconfigured due to the decommissioning of the Donnelly Tactical Air Navigational Aid (TACAN). The geographic coordinates of the airport would be adjusted in accordance with the FAA's aeronautical database. This action would enhance the safety and management of IFR operations at the airport.

Class E airspace designations are published in paragraph 6003 and 6005, respectively, of FAA Order 7400.9V, dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR part 71.1. The Class E airspace designation listed in this document will

be published subsequently in this Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation; (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority for the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would propose controlled airspace at Boise Air Terminal (Gowen Field), Boise, ID.

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

Proposed Modification to Regulation Concerning the Use of Market Economy Input Prices in Nonmarket Economy Proceedings

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: The Department of Commerce (“Department”) proposes to modify its regulation which states that the Department normally will use the price that a nonmarket economy (“NME”) producer pays to a market economy supplier when a factor of production is purchased from a market economy supplier and paid for in market economy currency, in the calculation of normal value (“NV”) in antidumping proceedings involving NME countries. The rule, if adopted, would establish (1) a requirement that the input at issue be produced in one or more market economy countries, and (2) a revised threshold requiring that “substantially all” of an input be purchased from one or more market economy suppliers before the Department would use the purchase price paid to value the entire factor of production. Through this proposed modification, the Department is announcing its proposed definition of “substantially all” to be 85 percent of the total purchased volume of the particular input. The Department invites public comment on this proposed change.
