Title: Performance Measurement On-Line Tool (PMOTOOL).

OMB No.: New Collection.

Description: The Performance Measurement On-Line Tool (PMOTOOL) was designed by the Children's Bureau to collect data, in an automated format, from specified discretionary grants funded by the

Children's Bureau. The data collected by this instrument will be submitted by individual discretionary grantees funded under the following programs: Abandoned Infants Assistance Program, Infant Adoption Awareness Program, Adoption Opportunities Program, Child Abuse and Neglect Program and the Child Welfare Training Program. Grantees will submit this information on semi-annual basis in conjunction with their semi-annual program progress report.

The purpose of this data collection is to assist the Children's Bureau in responding to the government wide performance effort to collect aggregate data over time to assess program progress on discretionary funded programs. The Performance Measurement ON-Line Tool (PMOTOOL) will focus on quantifiable outcome measures that are directly related to the expected social impact or public benefit of each federal program. These measurable outcomes will serve as evidence that the federally funded programs are making progress toward achieving broad, legislated program goals.

Respondents: Selected clusters of competitive grant program funded by the Children's Bureau.
