Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on September 19, 2011, based on a complaint filed by Renesas Electronics Corporation ("Renesas") of Tokyo, Japan. 76 FR 58041 (Sept. 19, 2011). The complaint alleges violations of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, by reason of infringement of certain claims of U.S. Patent Nos. 7,199,432 and 6,531,400. The complaint further alleges the existence of a domestic industry. The sole respondent named in the Commission's notice of investigation is Vizio of Irvine, California.

On June 4, 2012, complainant Renesas and respondent Vizio filed a joint motion pursuant to Commission Rule 210.21(a)(2) to terminate the investigation on the basis of a settlement agreement ("Settlement Agreement") that resolves their litigation. Public and confidential versions of the Settlement Agreement were attached to the motion. The motion also stated that there are no other agreements, written or oral, express or implied, between the parties concerning the subject matter of this investigation. On June 7, 2012, the Commission investigative attorney filed a response supporting the motion.

On June 11, 2012, the ALJ issued the subject ID granting the motion, finding that no extraordinary circumstances exist that would prevent the requested termination of the investigation in its entirety and that the motion fully complies with Commission Rule 210.21. The ID also found that termination of the investigation based on the

settlement does not impose any undue burden on the public health and welfare, competitive conditions in the U.S. economy or U.S. consumers. No petitions for review were received. The Commission has determined not to review the ID.

This action is taken under the authority of section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and Part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Issued: July 2, 2012.

Lisa R. Barton,

Secretary to the Commission.

This program helps ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Application for Nonimmigrant Workers; Form ETA 9035E—*Labor Condition Application for Nonimmigrants* (electronic version); Form ETA 9035CP—*General Instructions for the 9035 & 9035E*; and Wage and Hour Division (WHD) Form WH-4—*Nonimmigrant Worker Information Form*, which expire on March 31, 2015. In order to meet its statutory responsibilities under the INA, the Department is revising the existing collection of information pertaining to employers seeking to apply for labor condition applications to allow them to bring foreign labor to the U.S. on a temporary basis. The Secretary uses the collected information to determine if employers are meeting their statutory and regulatory obligations.

DATES: Written comments must be submitted to the office listed in the addressees section below on or before September 7, 2012.

ADDRESSES: Submit written comments to William L. Carlson, Ph.D., Administrator, Office of Foreign Labor Certification, Room C-4312, Employment & Training Administration, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, DC 20210. SUPPLEMENTARY INFORMATION:

I. Background

The information collection is required by sections 212(n) and (t) and 214(c) of the Immigration and Nationality Act (INA) (8 U.S.C. 1182(n) and (t) and 1184(c)). The Department and the Department of Homeland Security have promulgated regulations to implement the INA. Specifically for this collection, 20 CFR part 655 Subparts H and I and 8 CFR 214.2(h)(4) are applicable. The INA mandates that no alien may enter the United States (U.S.) for the purpose of performing professional work on a temporary basis unless the U.S. employer has attested to the Secretary of Labor (Secretary) that the working conditions for the alien will not adversely affect the working conditions of similarly employed U.S. workers; that the salary will be at least the prevailing wage for the occupational classification

in the area of employment or the actual wage paid by the employer to all other individuals with similar experience and qualifications to that of the foreign worker for the specific employment in question— whichever is higher; that there is no strike or lockout in the course of a labor dispute in the occupational classification at the place of employment; and that the employer has met all other requirements of the program as specified in the regulations. The Department's review of the attestations is limited to obvious errors and inaccuracies. The Department has revised the information collection instruments included in this information collection request to clarify certain elements of the information collection and enhance the integrity of the labor attestation process. In the past the respondents have been for-profit businesses and not-for-profit institutions. On rare occasions the respondents have been local, State, tribal governments, or the Federal government.

The Department has proposed changes to this collection. As a result of recommendations from both the Government Accountability Office (GAO) and the Department's Office of the Inspector General (OIG), as well as sister agencies, the Department seeks to revise the scope of information collected in the context of H-1B, H-1B1 and E-3 applications in order to enhance its integrity review for obvious errors, omissions and inaccuracies under 20 CFR 655.730(b). The revised collection will allow the Department to improve its integrity review and ensure the accuracy and completeness of the information.

II. Review Focus

The Department is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology,
