

housing associate. The estimate for the average hours per maintenance response is 4 hours. The estimate for the annual hour burden for current housing associates is 272 hours (68 certified housing associates × 1 response per associate × 4 hours).

The estimate for the total annual hour burden is 286 hours (14 hours + 272 hours).

### C. Comment Request

In accordance with 5 CFR 1320.8(d), FHFA published a request for public comments regarding this information collection in the **Federal Register** on April 13, 2012.<sup>6</sup> The 60-day comment period closed on June 12, 2012. FHFA received no public comments.

Written comments are requested on: (1) Whether the collection of information is necessary for the proper performance of FHFA functions, including whether the information has practical utility; (2) the accuracy of the FHFA estimates of the burdens of the collection of information; (3) ways to enhance the quality, utility and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on applicants and housing associates, including through the use of automated collection techniques or other forms of information technology. Comments may be submitted to OMB in writing at the address listed above.

Dated: June 29, 2012.

#### Kevin Winkler,

Chief Information Officer, Federal Housing Finance Agency.

BILLING CODE 8070-01-P

## FEDERAL RESERVE SYSTEM

### Change in Bank Control Notices; Acquisitions of Shares of a Bank or Bank Holding Company

The notificants listed below have applied under the Change in Bank Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire shares of a bank or bank holding company. The factors that are considered in acting on the notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notices are available for immediate inspection at the Federal Reserve Bank indicated. The notices also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank

indicated for that notice or to the offices of the Board of Governors. Comments must be received not later than July 25, 2012.

A. Federal Reserve Bank of Atlanta (Chapelle Davis, Assistant Vice President) 1000 Peachtree Street NE., Atlanta, Georgia 30309:

1. *John Hinton Waters, Madalyn Kathlene Waters, Michael Thomas Waters, John Andrew Waters, Michael Jason Waters, Brittaney Laine McConkey, Charles Hilton Richards, Jr., Ted Rembert Townsend, all of Chatsworth, Georgia, and Jodi Waters Matter, Marietta, Georgia;* to collectively retain voting shares of First Chatsworth Bankshares, Inc., and thereby indirectly retain voting shares of First National Community Bank, both in Chatsworth, Georgia.

2. *The Robert Roschman Revocable Trust, Robert Roschman, trustee; The Lorrie Lei Roschman Revocable Trust, Lorrie Roschman, trustee; The Revocable Trust Created by Jeffrey S. Roschman, Jeffrey Roschman, trustee; CT Foundation, Betty Roschman, Roschman Restaurant Administration, and Kerry Roschman, all of Fort Lauderdale, Florida;* to collectively retain voting shares of Giant Holdings, Inc., and thereby indirectly retain voting shares of Landmark Bank, N.A., both in Fort Lauderdale, Florida.

B. Federal Reserve Bank of Minneapolis (Jacqueline G. King, Community Affairs Officer) 90 Hennepin Avenue, Minneapolis, Minnesota 55480-0291:

1. *Todd J. Zaun, Sartell, Minnesota;* to retain and acquire, and Steven M. Zaun, Marina Del Ray, California, to acquire, voting shares of Eden Valley Bancshares, and thereby indirectly acquire control State Bank in Eden Valley, both in Eden Valley, Minnesota.

C. Federal Reserve Bank of Kansas City (Dennis Denney, Assistant Vice President) 1 Memorial Drive, Kansas City, Missouri 64198-0001:

1. *Kevin D. Postier and J. B. Suddarth, both of York, Nebraska;* to acquire control of Henderson State Company, and thereby indirectly acquire control of Henderson State Bank, both in Henderson, Nebraska.

D. Federal Reserve Bank of San Francisco (Kenneth Binning, Vice President, Applications and Enforcement) 101 Market Street, San Francisco, California 94105-1579:

1. *Harlan D. Douglass, Maxine D. Douglass, and Harlan D. Douglass, Inc., all of Spokane, Washington,* to retain voting shares of Northwest Bancorporation, Inc. and thereby indirectly retain voting shares of Inland

Northwest Bank, both in Spokane, Washington.

Board of Governors of the Federal Reserve System, July 5, 2012.

**Robert deV. Frierson,**

*Deputy Secretary of the Board.*

## FEDERAL TRADE COMMISSION

### Agency Information Collection Activities; Proposed Collection; Comment Request; Extension

**AGENCY:** Federal Trade Commission ("FTC" or "Commission").

**ACTION:** Notice.

**SUMMARY:** The information collection requirements described below will be submitted to the Office of Management and Budget ("OMB") for review, as required by the Paperwork Reduction Act ("PRA"). The FTC is seeking public comments on its proposal to extend through November 30, 2015, the current PRA clearance requirements contained in the FTC Red Flags/Card Issuers/Address Discrepancies Rules<sup>1</sup> ("Red Flags Rule" or "Rule"). The current clearance expires on November 30, 2012.

**DATES:** Comments must be submitted on or before September 10, 2012.

**ADDRESSES:** Interested parties may file a comment online or on paper, by following the instructions in the Request for Comment part of the **SUPPLEMENTARY INFORMATION** section below. Write "Red Flags Rule, PRA Comment, Project No. P095406" on your comment, and file your comment online at <https://ftcpublic.commentworks.com/ftc/RedFlagPRA> by following the instructions on the web-based form. If you prefer to file your comment on paper, mail or deliver your comment to the following address: Federal Trade Commission, Office of the Secretary, Room H-113 (Annex J), 600 Pennsylvania Avenue NW., Washington, DC 20580.

**FOR FURTHER INFORMATION CONTACT:** Steven Toporoff, Attorney, Bureau of Consumer Protection, (202) 326-2252, Federal Trade Commission, 600 Pennsylvania Avenue NW., Washington, DC 20580.

#### SUPPLEMENTARY INFORMATION:

##### I. Overview of the Rule

The Rule implements sections 114 and 315 of the Fair Credit Reporting Act ("FCRA"), 15 U.S.C. 1681 *et seq.*, to

<sup>6</sup> See 77 FR 22316 (April 13, 2012).

<sup>1</sup> 16 CFR 681.1; 16 CFR 681.2; 16 CFR part 641.

require businesses to undertake measures to prevent identity theft and to increase the accuracy of consumer reports.

Specifically, section 114 requires financial institutions and some creditors to develop and implement written Identity Theft Prevention Programs. Section 114 also mandates specific regulations that require credit and debit card issuers to assess the validity of notifications of changes of address under certain circumstances. Section 315 requires regulations that provide guidance on what users of consumer reports must do when they receive a notice of address discrepancy from a nationwide consumer reporting agency (“CRA”).

Since promulgation of the original Rule, President Obama signed the Red Flag Program Clarification Act of 2010 (“Clarification Act”), which narrowed the definition of “creditor” for purposes of section 114 of the FCRA. Specifically, the Clarification Act limits application of the Red Flags Rule to creditors that regularly and in the ordinary course of business: (1) Obtain or use consumer reports, directly or indirectly, in connection with a credit transaction; (2) furnish information to consumer reporting agencies in connection with a credit transaction; or (3) advance funds to or on behalf of a person, based on a person’s obligation to repay the funds or on repayment from specific property pledged by or on the person’s behalf. This third prong does not include a creditor that advances funds on behalf of a person for expenses incidental to a service provided by the creditor to that person.

## II. Description of Collection of Information

### A. FCRA Section 114

The Rule requires financial institutions and covered creditors to develop and implement a written Identity Theft Prevention Program (“Program”) to detect, prevent, and mitigate identity theft in connection with existing accounts or the opening of new accounts. Under the Rule, financial institutions and certain creditors must conduct a periodic risk assessment to determine if they maintain “covered accounts.” The Rule defines that term “covered account” as either: (1) A consumer account that is designed to permit multiple payments or transactions, or (2) any other account for which there is a reasonably foreseeable risk of identity theft. Each financial institution and covered creditor that has covered accounts must create a written Program that contains reasonable

policies and procedures to identify relevant indicators of the possible existence of identity theft (“Red Flags”); detect Red Flags that have been incorporated into the Program; respond appropriately to any Red Flags that are detected to prevent and mitigate identity theft; and update the Program periodically to ensure it reflects change in risks to customers.

The Rule also requires financial institutions and covered creditors to: (1) Obtain approval of the initial written Program by the board of directors; a committee thereof or, if there is no board, an appropriate senior employee; (2) ensure oversight of the development, implementation, and administration of the Program; and (3) train staff, as needed, to implement the Program; and (4) exercise appropriate and effective oversight of service provider arrangements.

In addition, the Rule implements the section 114 requirement that financial institutions or covered creditors that issue debit or credit cards (“card issuers”) generally must assess the validity of change of address notifications. Specifically, if the card issuer receives a notice of change of address for an existing account and, within a short period of time (during at least the first 30 days), receives a request for an additional or replacement card for the same account, the issuer must follow reasonable policies and procedures to assess the validity of the change of address.

### B. FCRA Section 315

The Rule also implements section 315 of the FCRA, requiring each user of consumer reports to have reasonable policies and procedures in place to employ when the user receives a notice of address discrepancy from a CRA. Specifically, each user of consumer reports must develop and implement reasonable policies and procedures to: (1) Enable the user to form a reasonable belief that a consumer report relates to the consumer about whom it has requested the report, when the user receives a notice of address discrepancy; and (2) furnish an address for the consumer that the user has reasonably confirmed is accurate to the CRA from which it receives a notice of address discrepancy, if certain conditions are met.

## III. Burden Estimates

Overall estimated burden hours regarding sections 114 and 315, combined, total 2,629,940 hours and the associated estimated labor costs are \$81,837,080. Staff assumes that affected entities will already have in place,

independent of the Rule, equipment and supplies necessary to carry out the tasks necessary to comply with it.

### A. FCRA Section 114

#### 1. Estimated Hours Burden—Red Flags Rule

As noted above, the Rule requires financial institutions and certain creditors with covered accounts to develop and implement a written Program. Under the FCRA, financial institutions over which the FTC has jurisdiction include state chartered credit unions and certain insurance companies.

Although narrowed by the Clarification Act, the definition of “creditor” still covers a broad array of entities. Moreover, the Clarification Act does not set forth any exemptions from Rule coverage. Rather, application of the Rule depends upon an entity’s course of conduct, not its status as a particular type of business. For these reasons, it is difficult to determine precisely the number of creditors subject to the FTC’s jurisdiction. There are numerous small businesses under the FTC’s jurisdiction that may qualify as “creditors,” and there is no formal way to track them. Nonetheless, FTC staff estimates that the Rule’s requirement to have a written Program affects over 7,025 financial institutions<sup>2</sup> and 160,614 creditors.<sup>3</sup>

To estimate burden hours for the Red Flags Rule under section 114, FTC staff divided affected entities into two categories, based on the nature of their business: (1) Entities that are subject to high risk of identity theft and (2) entities that are subject to a low risk of identity theft, but have covered accounts that

<sup>2</sup> The total number of financial institutions (7,025) is derived from an analysis of state credit unions and insurers within the FTC’s jurisdiction using 2007 Census data (the most recent Census data available) and, where also available, online industry data. The FTC’s 2009 PRA submission estimated that the Rule affects over 57,000 financial institutions. 74 FR 42303, 42304 (Aug. 21, 2009). That figure also included, however, investment companies, broker dealers, and money service businesses. Those financial institutions are now covered by the Commodities Future Trading Commission and Securities and Exchange Commission, and, therefore, have been eliminated from the calculation of financial institutions in this submission, leaving the net amount of 7,025 financial institutions within the FTC’s jurisdiction.

<sup>3</sup> The total number of creditors (160,614) is derived from an analysis of 2007 Census data and industry data for businesses or organizations that market goods and services to consumers or other businesses or organizations subject to the FTC’s jurisdiction, reduced by entities not likely to: (1) Obtain credit reports, report credit transactions, or advance loans; and (2) entities not likely to have covered accounts under the Rule. As a result, the estimated number of covered creditors has decreased from nearly 2 million creditors in the FTC’s 2009 submission to 160,614 creditors currently. See 74 FR at 42304.

will require them to have a written Program.

#### a. High-Risk Entities

FTC staff estimates that high-risk entities<sup>4</sup> will each require 25 hours to create and implement a written Program, with an annual recurring burden of one hour. FTC staff anticipates that these entities will incorporate into their Program policies and procedures that they likely already have in place. Further, FTC staff estimates that preparation for an annual report will require each high-risk entity four hours initially, with an annual recurring burden of one hour. Finally, FTC staff believes that many of the high-risk entities, as part of their usual and customary business practice, already take steps to minimize losses due to fraud, including conducting employee training. Accordingly, only relevant staff need be trained to implement the Program: For example, staff already trained as part of a covered entity's anti-fraud prevention efforts do not need to be re-trained as incrementally needed. FTC staff estimates that training connected with the implementation of a Program of a high-risk entity will require four hours, and annual training thereafter will require one hour.

Thus, estimated hours for high-risk entities are as follows:

- 105,774 high-risk entities subject to the FTC's jurisdiction at an average annual burden of 13 hours per entity [average annual burden over 3-year clearance period for creation and implementation of a Program ((25+1+1)/3), plus average annual burden over 3-year clearance period for staff training ((4+1+1)/3), plus average annual burden over 3-year clearance period for preparing an annual report ((4+1+1)/3)], for a total of 1,375,062 hours.

#### b. Low-Risk Entities

Entities that have a minimal risk of identity theft,<sup>5</sup> but that have covered accounts, must develop a Program; however, they likely will only need a streamlined Program. FTC staff estimates that such entities will require one hour to create such a Program, with an annual recurring burden of five minutes. Training staff of low-risk entities to be attentive to future risks of

<sup>4</sup> High-risk entities include, for example, financial institutions within the FTC's jurisdiction and utilities, motor vehicle dealerships, telecommunications firms, colleges and universities, and hospitals.

<sup>5</sup> Low-risk entities include, for example, public warehouse and storage firms, nursing and residential care facilities, automotive equipment rental and leasing firms, office supplies and stationary stores, fuel dealers, and financial transactions processing firms.

identity theft should require no more than 10 minutes in an initial year, with an annual recurring burden of five minutes. FTC staff further estimates that these entities will require, initially, 10 minutes to prepare an annual report, with an annual recurring burden of five minutes.

Thus, the estimated hours burden for low-risk entities is as follows:

- 61,865 low risk entities that have covered account subject to the FTC's jurisdiction at an average annual burden of approximately 37 minutes per entity [average annual burden over 3-year clearance period for creation and implementation of streamlined Program ((60+5+5)/3), plus average annual burden over 3-year clearance period for staff training ((10+5+5)/3), plus average annual burden over 3-year clearance period for preparing annual report ((10+5+5)/3)], for a total of 38,150 hours.

#### 2. Estimated Hours Burden—Card Issuers Rule

As noted above, section 114 also requires financial institutions and covered creditors that issue credit or debit cards to establish policies and procedures to assess the validity of a change of address request, including notifying the cardholder or using another means of assessing the validity of the change of address. FTC staff estimates that the Rule affects as many as 19,978<sup>6</sup> card issues within the FTC's jurisdiction. FTC staff believes that most of these card issuers already have automated the process of notifying the cardholder or are using another means to assess the validity of the change of address, such that implementation will pose no further burden. Nevertheless, taking a conservative approach, FTC staff estimates that it will take each card issuer 4 hours to develop and implement policy and procedures to assess the validity of a change of address request for a total burden of 71,912 hours.

Thus, the total average annual estimated burden for Section 114 is 1,485,124 hours.

#### 3. Estimated Cost Burden—Red Flags and Card Issuers Rules

The FTC staff estimates labor costs by applying appropriate estimated hourly cost figures to the burden hours described above. It is difficult to calculate with precision the labor costs associated with compliance with the Rule, as they entail varying compensation levels of management

<sup>6</sup> Card issuers within the FTC's jurisdiction include, for example, state credit unions, general retail merchandise stores, colleges and universities, and telecoms.

(e.g., administrative services, computer and information systems, training and development) and/or technical staff (e.g., computer support specialists, systems analysts, network and computer systems administrators) among companies of different sizes. FTC staff assumes that for all entities, professional technical personnel and/or management personnel will create and implement the Program, prepare the annual report, and train employees, at an hourly rate of \$42.<sup>7</sup>

Based on the above estimates and assumptions, the total annual labor costs for all categories of covered entities under the Red Flags and Card Issuers Rules for Section 114 is \$62,375,208 (1,485,124 hours × \$42).

#### B. FCRA Section 315—The Address Discrepancy Rule

As discussed above, the Rule's implementation of Section 315 provides guidance on reasonable policies and procedures that a user of consumer reports must employ when a user receives a notice of address discrepancy from a CRA. Given the broad scope of users of consumer reports, it is difficult to determine with precision the number of users of consumer reports that are subject to the FTC's jurisdiction. As noted above, there are numerous small businesses under the FTC's jurisdiction, and there is no formal way to track them; moreover, as a whole, the entities under the FTC's jurisdiction are so varied that there are no general sources that provide a record of their existence. Nonetheless, FTC staff estimates that the Rule's implementation of section 315 affects approximately 2,449,605 users of consumer reports subject to the FTC's jurisdiction.<sup>8</sup> Commission staff estimates that approximately 10,000 of these users will receive notice of a discrepancy, in the course of their usual and customary business practices, and thereby have to furnish to CRAs an address confirmation.<sup>9</sup>

<sup>7</sup> This estimate is based on mean hourly wages found at [http://www.bls.gov/news.release/archives/ocwage\\_03272012.pdf](http://www.bls.gov/news.release/archives/ocwage_03272012.pdf) ("Occupational Employment and Wages—May 2011," U.S. Department of Labor, released March 2012, Table 1 ("National employment and wage data from the Occupational Employment Statistics survey by occupation, May 2011")) for the various managerial and technical staff support exemplified above.

<sup>8</sup> This estimate is derived from an analysis of Census databases of U.S. businesses based on NAICS codes for businesses in industries that typically use consumer reports from CRAs described in the Rule, which total 2,449,605 users of consumer reports subject to the FTC's jurisdiction.

<sup>9</sup> Report to Congress Under Sections 318 and 319 of the Fair and Accurate Credit Transactions of 2003, Federal Trade Commission, 80 (Dec. 2004) available at <http://www.ftc.gov/reports/facta/041209factrpt.pdf>.

For section 315, FTC staff estimates that the average annual information collection burden during the three-year period for which OMB clearance is sought will be 1,144,816 hours. The estimated associated labor cost is \$19,461,872.

#### 1. Estimated Hours Burden

Prior to enactment of the Address Discrepancy Rule, users of consumer reports could compare the address on a consumer report to the address provided by the consumer and discern for themselves any discrepancy. As a result, FTC staff believes that many users of consumer reports have developed methods of reconciling address discrepancies, and the following estimates represent the incremental amount of time users of consumer reports may require to develop and comply with the policies and procedures for when they receive a notice of address discrepancy.

##### a. Customer Verification

Given the varied nature of the entities under the FTC's jurisdiction, it is difficult to determine precisely the appropriate burden estimates. Nonetheless, FTC staff estimates that it would require an infrequent user of consumer reports no more than 16 minutes to develop and comply with the policies and procedures that it will employ when it receives a notice of address discrepancy, while a frequent user might require one hour. Similarly, FTC staff estimates that, during the remaining two years of clearance, it may take an infrequent user no more than one minute to comply with the policies and procedures it will employ when it receives a notice of address discrepancy, while a frequent user might require 45 minutes. Taking into account these extremes, FTC staff estimates that, during the first year, it will take users of consumer reports under the FTC's jurisdiction an average of 38 minutes [the midrange between 16 minutes and 60 minutes] to develop and comply with the policies and procedures that they will employ when they receive a notice of address discrepancy. FTC staff also estimates that the average recurring burden for users of consumer reports to comply with the Rule will be 23 minutes [the midrange between one minute and 45 minutes].

Thus, for these 2,449,605 entities, the average annual burden for each of them to perform these collective tasks will be 28 minutes  $[(38 + 23 + 23) \div 3]$ ; cumulatively, 1,143,149 hours.

##### b. Address Verification

For the estimated 10,000 users of consumer reports that will additionally have to furnish to CRAs an address confirmation upon notice of a discrepancy, staff estimates that these entities will require, initially, 30 minutes to develop related policies and procedures. But, these 10,000 affected entities likely will have automated the process of furnishing the correct address in the first year of a three-year PRA clearance cycle. Thus, allowing for 30 minutes in the first year, with no annual recurring burden in the second and third years of clearance, yields an average annual burden of 10 minutes per entity to furnish a correct address to a CRA, for a total of 1,667 hours.

#### 2. Estimated Cost Burden

FTC staff assumes that the policies and procedures for compliance with the address discrepancy part of the Rule will be set up by administrative support personnel at an hourly rate of \$17.<sup>10</sup> Based on the above estimates and assumptions, the total annual labor cost for the two categories of burden under section 315 is \$19,461,872.

#### C. Burden Totals for FCRA Sections 114 and 315

Cumulatively, then, estimated burden is 2,629,940 hours (1,485,124 hours for section 114 and 1,144,816 hours for section 315) and \$81,837,080 (\$62,375,208 and \$19,461,872) in associated labor costs.

#### IV. Request for Comment

You can file a comment online or on paper. For the Commission to consider your comment, we must receive it on or before September 10, 2012. Write "Red Flags Rule, PRA Comment, Project No. P095406" on your comment. Your comment—including your name and your state—will be placed on the public record of this proceeding, including to the extent practicable, on the public Commission Web site, at <http://www.ftc.gov/os/publiccomments.shtm>. As a matter of discretion, the Commission tries to remove individuals' home contact information from comments before placing them on the Commission Web site.

Because your comment will be made public, you are solely responsible for

<sup>10</sup> This estimate is based on mean hourly wages found at [http://www.bls.gov/news.release/archives/ocwage\\_03272012.pdf](http://www.bls.gov/news.release/archives/ocwage_03272012.pdf) ("Occupational Employment and Wages—May 2011," U.S. Department of Labor, released March 2012, Table 1 ("National employment and wage data from the Occupational Employment Statistics survey by occupation, May 2011")) for administrative support staff (computer operators, data entry, word processors and typists).

making sure that your comment does not include any sensitive personal information, like anyone's Social Security number, date of birth, driver's license number or other state identification number or foreign country equivalent, passport number, financial account number, or credit or debit card number. You are also solely responsible for making sure that your comment does not include any sensitive health information, like medical records or other individually identifiable health information. In addition, do not include any "[t]rade secret or any commercial or financial information which is obtained from any person and which is privileged or confidential" as provided in Section 6(f) of the FTC Act, 15 U.S.C. 46(f), and FTC Rule 4.10(a)(2), 16 CFR 4.10(a)(2). In particular, do not include competitively sensitive information such as costs, sales statistics, inventories, formulas, patterns, devices, manufacturing processes, or customer names.

If you want the Commission to give your comment confidential treatment, you must file it in paper form, with a request for confidential treatment, and you have to follow the procedure explained in FTC Rule 4.9(c).<sup>11</sup> Your comment will be kept confidential only if the FTC General Counsel, in his or her sole discretion, grants your request in accordance with the law and the public interest.

Postal mail addressed to the Commission is subject to delay due to heightened security screening. As a result, we encourage you to submit your comments online. To make sure that the Commission considers your online comment, you must file it at <https://ftcpublic.commentworks.com/ftc/RedFlagPRA>, by following the instructions on the web-based form. If this Notice appears at <http://www.regulations.gov/#/home>, you also may file a comment through that Web site.

If you file your comment on paper, write "Red Flags Rule, PRA Comment, Project No. P095406" on your comment and on the envelope, and mail or deliver it to the following address: Federal Trade Commission, Office of the Secretary, Room H-113 (Annex J), 600 Pennsylvania Avenue NW., Washington, DC 20580. If possible, submit your paper comment to the Commission by courier or overnight service.

<sup>11</sup> In particular, the written request for confidential treatment that accompanies the comment must include the factual and legal basis for the request, and must identify the specific portions of the comment to be withheld from the public record. See FTC Rule 4.9(c), 16 CFR 4.9(c).

Visit the Commission Web site at to read this Notice and the news release describing it. The FTC Act and other laws that the Commission administers permit the collection of public comments to consider and use in this proceeding as appropriate. The Commission will consider all timely and responsive public comments that it receives on or before September 10, 2012. You can find more information, including routine uses permitted by the Privacy Act, in the Commission's privacy policy, at <http://www.ftc.gov/ftc/privacy.htm>.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Announcement of Requirements and Registration for "SMART-Indivo Challenge"

**AGENCY:** Office of the National Coordinator for Health Information Technology, HHS.

*Award Approving Official:* Farzad Mostashari, National Coordinator for Health Information Technology.

**ACTION:** Notice.

**SUMMARY:** A health care system adapting to the effects of an aging population, growing expenditures, and a diminishing primary care workforce needs the support of a flexible information infrastructure that facilitates innovation in wellness, health care, and public health. Flexibility is critical, since the system will have to function under new policies and in the service of new health care delivery mechanisms, and it will need to incorporate emerging information technologies on an ongoing basis.

SMART (Substitutable Medical Apps, Reusable Technologies, one of four Strategic Health IT Advanced Research Projects funded by the Office of the National Coordinator for Health Information Technology) capacitates innovation in health care by providing common APIs and standards for electronic medical records and personally controlled health records, enabling them to act as iPhone-like platforms; users can download or delete substitutable apps. Indivo enables individuals to own and manage a complete, secure, digital copy of their health and wellness information, integrated across sites of care and over time.

The "SMART-Indivo Challenge" is a call to developers to build an Indivo app that provides value to patients using data delivered through the SMART API and its Indivo-specific extensions.

The statutory authority for this challenge competition is Section 105 of the America COMPETES Reauthorization Act of 2010 (Pub. L. 111-358).

**DATES:** Effective on July 9, 2012. Challenge submission period ends September 28, 2012, 11:59 p.m. et.

**FOR FURTHER INFORMATION CONTACT:** Adam Wong, 202-720-2866; Wil Yu, 202-690-5920.

#### SUPPLEMENTARY INFORMATION:

#### Subject of Challenge Competition

SMART <<http://www.smartplatforms.org>> (Substitutable Medical Apps, Reusable Technologies) is one of four Strategic Health IT Advanced Research Projects (SHARP) funded by the Office of the National Coordinator for Health Information Technology <http://healthit.hhs.gov/portal/server.pt?open=512&objID=1806&mode=2>

A health care system adapting to the effects of an aging population, growing expenditures, and a diminishing primary care workforce needs the support of a flexible information infrastructure that facilitates innovation in wellness, health care, and public health. Flexibility is critical, since the system will have to function under new policies and in the service of new health care delivery mechanisms, and it will need to incorporate emerging information technologies on an ongoing basis. SMART capacitates innovation in health care by providing common APIs and standards for electronic medical records and personally controlled health records, enabling them to act as iPhone-like platforms; users can download or delete substitutable apps. Each app is entirely modular, and can thus be readily substituted with new apps that provide improved functionality and usability. Continuous innovation is the result.

Indivo <<http://indivohealth.org>> enables individuals to own and manage a complete, secure, digital copy of their health and wellness information, integrated across sites of care and over time. Indivo is entirely free and open-source, and is designed as a platform for apps: Built to be extended and customized. Using the SMART API and standards, augmented by functionality like sharing, developers can create powerful patient-facing applications. Its objective is to lower the barriers to creating apps for health, leaving

developers to be able to focus on their ideas.

The "SMART-Indivo Challenge" is a call to developers to build an Indivo app that provides value to patients using data delivered through the SMART API and its Indivo-specific extensions. The app will be either an HTML5 Web app or an iOS app that runs against the Indivo Developer Sandbox, where it can access patient demographics, medications, laboratory tests, and diagnoses using Web standards. Developers could, for example, build a medication manager, a health risk detector, a patient-friendly laboratory visualization tool, or an app that integrates external data sources (see <http://www.healthdata.gov/>) with patient records in real time.

More information about SMART and Indivo APIs can be found at <http://indivohealth.org/smart-indivo/>.

Mobile HTML5 web app submissions are welcome, as are native applications built on SMART's iOS Framework.

#### Eligibility Rules for Participating in the Competition

To be eligible to win a prize under this challenge, an individual or entity—

(1) Shall have registered to participate in the competition under the rules promulgated by the Office of the National Coordinator for Health Information Technology.

(2) Shall have complied with all the requirements under this section.

(3) In the case of a private entity, shall be incorporated in and maintain a primary place of business in the United States, and in the case of an individual, whether participating singly or in a group, shall be a citizen or permanent resident of the United States.

(4) May not be a Federal entity or Federal employee acting within the scope of their employment.

(5) Shall not be an HHS employee working on their applications or submissions during assigned duty hours.

(6) Shall not be an employee of Office of the National Coordinator for Health IT.

(7) Federal grantees may not use Federal funds to develop COMPETES Act challenge applications unless consistent with the purpose of their grant award.

(8) Federal contractors may not use Federal funds from a contract to develop COMPETES Act challenge applications or to fund efforts in support of a COMPETES Act challenge submission.

(9) Personnel of the SHARP program and their students are not eligible to compete for the prize.
