I. Background

In July 2011, the Postal Service introduced a re-designed usps.com Web site with the first launch of multilingual functionality in October 2011 and added translated content in January 2012.

Additionally, in June 2012 the Postal Service made additional management and organizational changes.

II. Rationale for Changes to USPS Privacy Act Systems of Records

The Customer Experience Improvement Project enables a broader audience to successfully interact with the Postal Service in the customer’s preferred language. As a result, these updates will allow customers to permanently select which language they want to use when receiving emails from the Postal Service and when visiting usps.com.

Also, in regards to the system manager title update, there is a continuing need to reflect changes in the identity or title of responsible officials.

III. Description of Changes to Systems of Records

The Postal Service is modifying one system of records listed below. Pursuant to 5 U.S.C. 552a(e)(11), interested persons are invited to submit written data, views, or arguments on this proposal. A report of the proposed modifications has been sent to Congress and to the Office of Management and Budget for their evaluation. The Postal Service does not expect this amended notice to have any adverse effect on individual privacy rights. The affected system is as follows:
