

validity and quality of dose reconstruction efforts performed for this program; and (c) upon request by the Secretary, HHS, advise the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is reasonable likelihood that such radiation doses may have endangered the health of members of this class. The Subcommittee for Dose Reconstruction Reviews was established to aid the Advisory Board in carrying out its duty to advise the Secretary, HHS, on dose reconstruction.

Matters To Be Discussed: The agenda for the Subcommittee meeting includes: revisiting the Board's dose reconstruction review process; dose reconstruction program quality management and assurance activities, including an overview of contractor quality management system and an update on the results of NIOSH internal dose reconstruction blind reviews; dose reconstruction issues from NIOSH 10-year review, including review of resource impact of possible changes to efficiency process and plans for a NIOSH Division of Compensation Analysis and Support claimant favorability analysis; discussion of dose reconstruction cases under review (sets 8–9, cases with Category A findings from sets 10–13, Savannah River Site cases from sets 10–13); and pre-selection of set 16 dose reconstruction cases to be reviewed by the Board's technical support contractor.

The agenda is subject to change as priorities dictate.

In the event an individual cannot attend, written comments may be submitted. Any written comments received will be provided at the meeting and should be submitted to the contact person below well in advance of the meeting.

Contact Person for More Information: Theodore Katz, Designated Federal Officer, NIOSH, CDC, 1600 Clifton Road, Mailstop E–20, Atlanta, Georgia 30333, Telephone: (513) 533–6800, Toll Free 1 (800) CDC–INFO, Email: ocas@cdc.gov.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** Notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Dated: July 6, 2012.

Elaine L. Baker,

Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.

Proposed Collection; Comment Request: Effectiveness of the NIH Curriculum Supplements Programs

SUMMARY: In compliance with the requirements of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, for opportunity for public comment on proposed data collection projects, the Office of Science Education, the National Institutes of Health (NIH), will publish periodic summaries of proposed projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

Proposed Collection: Title: The Effectiveness of the NIH Curriculum Supplements Programs Survey. *Type of Information Collection Request:* Extension of the previously approved collection (OMB No. 0925-0551, expiration date 06/30/2012). *Need and Use of Information Collection:* The survey will attempt to assess customer demographics and their satisfaction with the NIH curriculum supplements in presenting science in a more engaging and interactive way. The supplements help K-12 educators teach science by featuring the latest NIH research and utilized research-based instructional methods. A typical supplement contains two weeks of student activities on the science behind a health topic, such as cancer, sleep or obesity. Web-based simulations, animations and experiments enhance the “pencil and paper” activities. In addition to developing and distributing the supplements, OSE conducts professional workshops to help teachers successfully implement these lessons with their students. Since January 2000, over 6,000 teachers have attended an OSE workshop. Assessing the effectiveness of the NIH curriculum supplements and teacher workshops is critical to determining if OSE is successfully fulfilling its mission. OSE has the database infrastructure in place to easily collect data from supplement requesters and workshop attendees. At present, we do not have clearance to contact our customers to determine how NIH resources are meeting their educational needs.

BURDEN TABLE

Type of respondent: survey title	Number of respondents	Frequency of response	Average time per response (in hours)	Hour burden per year (in hours)
Supplement requestor	17,500	1	0.17	995
Workshop Teacher: initial survey	2,000	1	0.17	117
Workshop Teacher: in-depth survey	200	1	0.5	34
Totals	19,700	n/a	n/a	1,146

Request for Comments: Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) ways to enhance the quality, utility, and clarity of the information to be collected; and (3) ways to minimize the burden of the collection of information

on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. **FOR FURTHER INFORMATION CONTACT:** To request additional information on the proposed collection of information, contact Lisa Strauss, Office of Science Education, National Institutes of Health, 6100 Executive Boulevard, Suite 3E01, Bethesda, MD 20892-7520, or call non-toll-free at 301-496-8547. You may also

email your request to lisa.strauss@nih.gov.

Comments Due Date: Comments regarding this information collection are best assured of having their full effect if received within 60 days of the date of this publication.

Dated: July 3, 2012.

Lawrence A. Tabak,
Deputy Director, National Institutes of Health.
