j. On April 7, 2010, Copper Valley filed a Notice of Intent to file an application for an original license and requested to use the Commission's Alternative Licensing Process, which was granted on June 7, 2010. On April 13, 2010, Copper Valley filed a Pre-Application Document including a Preliminary Draft Environmental Assessment for the project. Copper Valley filed their license application on August 29, 2011. On December 9, 2011, the Commission issued a notice of application accepted for filing and solicited comments and final terms and conditions. In January and February of 2012, several resources agencies filed for extensions of time to file comments and terms and conditions. The Commission granted these requests on February 4, 2012.

k. This application has been accepted for filing and is now ready for environmental analysis (EA).

l. At this time, we anticipate the need to prepare a draft and final EA. The draft EA will be sent to all persons and entities on the Commission's service and mailing lists for the project. The EA will include our recommendations for operating procedures, as well as environmental protection and enhancement measures that should be part of any license issued by the Commission. All recipients will then have 30 days to review the EA and file written comments with the Commission. All comments on the draft EA filed with the Commission will be

considered in preparation of the final EA.

The major milestones, including those for preparing the EA, are as follows:

Major milestone	Date
License Application Filed	August 30, 2011.
Ready for Environmental Analysis Notice Issued	December 9, 2011.
Deadline for Filing Comments, Recommendations and Agency Terms and Conditions/Prescriptions—extended	April 6, 2012.
Draft EA Issued	September 2012.
Comments on draft EA Due	October 2012.
Final EA Issued	December 2012.

Dated: July 13, 2012.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: Submission of Protocols and Study Reports for Environmental Research Involving Human Subjects.

ICR numbers: EPA ICR No. 2195.04, OMB Control No. 2070-0169.

ICR Status: OMB approval of this ICR is currently scheduled to expire on August 31, 2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable.

Abstract: EPA is responsible for the regulation of pesticides under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Federal Food, Drug, and Cosmetic Act (FFDCA). As revised in 2006, EPA regulations at 40 CFR part 26 protect subjects of "third-party" human research (i.e., research that is not conducted or supported by EPA). In addition to other protections, the regulations require affected entities to submit information to EPA and an Institutional Review Board (IRB) prior to initiating, and to EPA upon the completion of, certain studies that involve human research participants. The information collection activity consists of activity-driven reporting and recordkeeping requirements for those who intend to conduct research for submission to EPA under the pesticide laws. If such research involves intentional dosing of human subjects, these individuals (respondents) are required to submit study protocols to EPA and a cognizant local Human Subjects IRB before such research is initiated so that the scientific design and ethical standards that will be employed during the proposed study
