Requests for additional information should be directed to David Doyle, Chief Geodetic Surveyor, National Geodetic Survey (N/NGS2), 1315 East-West Highway, #8815, Silver Spring, MD, 20910; Phone: (301) 713-3178.

SUPPLEMENTARY INFORMATION:

The National Ocean Service (NOS), National Geodetic Survey (NGS), has completed the definition and implementation of PRVD02. PRVD02 supersedes all previously published height systems determined by other Federal surveying and mapping agencies on Puerto Rico, Culebra, Vieques and Mona, with the exception of those specifically related to tidal datums and/or military applications. PRVD02 heights are the result of a mathematical least squares general adjustment of the vertical control portion of the National Spatial Reference System (NSRS) and are derived from approximately 700 km of Double-Run, 1st-Order, Class II geodetic leveling observations (650 km on Puerto Rico, 5 km on Culebra and 45 km on Vieques) undertaken specifically for this project. The basis for all PRVD02 heights is Local Mean Sea Level, for the National Tidal Datum Epoch 1983-2001, as determined by the NOS Center for Operational Oceanographic Products and Services (CO-OPS), and published as part of the National Water Level Observation Network (NWLON) for bench marks designated 975 5371 A TIDAL (PID TV1513) (1.334 meters), located at La Puntilla, San Juan Puerto Rico, 975 2235 D (PID DN8624) (0.973 meters), located on Culebra Island, 975 2695 A (PID DN8535) (1.962 meters), located at Esperanza, Vieques Island, and 975 9938 A (1.158 meters) (PID DN8596) on Mona Island. No leveling is planned for Mona Island; however this value serves as the datum definition for any further geodetic surveying that may be conducted there.

PRVD02 height information for individual geodetic control monuments is available in digital form, from the NGS Web site: <http://www.ngs.noaa.gov/cgi-bin/datasheet.pl>.

Wasendorf, Sr., alleging fraud by misappropriating customer funds, violations of customer fund segregation laws, and making false statements in financial statements filed with the Commission. The filing of the complaint was triggered by a National Futures Association (NFA) audit conducted earlier this month which revealed that despite PFG's representations that it

held in excess of \$220 million of customer funds, in fact, PFG held approximately \$5.1 million.

This meeting will focus on technological solutions to providing the CFTC, self-regulatory organizations, and futures commission merchant customers direct access to customer segregated account information in order to help eliminate the possibility of theft and misappropriation of customer funds.
