Title: 30 CFR Parts 1202, 1206, and 1207, Indian Oil and Gas Valuation.

OMB Control Number: 1012-0002.

Bureau Form Number: Forms MMS-4109, MMS-4110, MMS-4295, MMS-4410, and MMS-4411.

Abstract: The Secretary of the United States Department of the Interior is responsible for mineral resource development on Federal and Indian lands and the Outer Continental Shelf (OCS). Various laws require the Secretary to manage mineral resource production from Federal and Indian lands and the OCS, collect the royalties and other mineral revenues due, and distribute the collected funds in accordance with applicable laws. The Secretary also has a trust responsibility to manage Indian lands and seek advice and information from Indian beneficiaries. ONRR performs the minerals revenue management functions for the Secretary and assists the Secretary in carrying out the Department's trust responsibility for Indian lands. Public laws pertaining to mineral leases on Federal and Indian lands are available at http://www.onrr.gov/Laws_R_D/PublicLawsAMR.htm.

Information collections that we cover in this ICR are available at 30 CFR part 1202, subparts C and J, which pertain to royalties; part 1206, subparts B and E, which govern the valuation of produced oil and gas from leases on Indian lands; and part 1207, which pertains to recordkeeping. Indian Tribes and individual Indian mineral owners receive all royalties that generate from

their lands. Determining product valuation is essential to ensure that Indian Tribes and individual Indian mineral owners receive payment on the full value of the minerals that lessees remove from their lands. Failure to collect the data that we describe in this ICR could result in the undervaluation of leased minerals on Indian lands. All reported data is subject to subsequent audit and adjustment.

Indian Oil

Regulations at 30 CFR part 1206, subpart B, govern the valuation, for royalty purposes, of all oil that Indian oil and gas leases (tribal and allotted) produce, except leases on the Osage Indian Reservation, and are consistent with mineral leasing laws, other applicable laws, and lease terms. Generally, the regulations provide that lessees determine the value of oil based upon the higher of (1) the gross proceeds under an arm's-length contract; or (2) major portion analysis. The value that a lessee determines may be eligible for a transportation allowance.

From information collected on Form MMS-4110, Oil Transportation Allowance Report, ONRR and tribal audit personnel evaluate (1) whether lessee-reported transportation allowances are within regulatory allowance limitations and calculated in accordance with applicable regulations; and (2) whether the lessees reported and paid the proper amount of royalties.

Indian Gas

Regulations at 30 CFR part 1206, subpart E, govern the valuation, for royalty purposes, of natural gas that Indian oil and gas leases (tribal and allotted) produce. The regulations apply to all gas production from Indian oil and gas leases, except leases on the Osage Indian Reservation.

Most Indian leases contain the requirement to perform accounting for comparison (dual accounting) for produced gas from the lease. Lessees must elect to perform actual dual accounting, as we define in 30 CFR 1206.176, or alternative dual accounting, as we define in 30 CFR 1206.173. Lessees use Form MMS-4410, Accounting for Comparison [Dual Accounting], to certify that dual accounting is not an ONRR requirement on an Indian lease or to make an election for actual or alternative dual accounting for Indian leases.

The regulations require lessees to submit Form MMS-4411, Safety Net Report, when they sell gas production from an Indian oil or gas lease beyond the first index pricing point. The safety

net calculation establishes the minimum value, for royalty purposes, of natural gas production from Indian oil and gas leases. This reporting requirement ensures that Indian lessors receive all royalties due and aids ONRR compliance efforts.

From information collected on Form MMS-4295, Gas Transportation Allowance Report, ONRR and tribal audit personnel evaluate (1) whether lessee-reported transportation allowances are within regulatory allowance limitations and calculated in accordance with applicable regulations; and (2) whether the lessees reported and paid the proper amount of royalties.

From information collected on Form MMS-4109, Gas Processing Allowance Summary Report, ONRR and tribal audit personnel evaluate (1) whether lessee-reported processing allowances are within regulatory allowance limitations and calculated in accordance with applicable regulations; and (2) whether the lessees reported and paid the proper amount of royalty.

Indian Oil and Gas

Lessees must use Form MMS-4393, Request to Exceed Regulatory Allowance Limitation, for both Federal and Indian leases. Most of the burden hours occur on Federal leases; therefore, this is an ONRR-approved form under ICR 1012-0005, pertaining to Federal oil and gas leases. However, we include a discussion of the form in this ICR, as well as the burden hours for Indian leases. To request permission to exceed a regulatory allowance limit, lessees must (1) submit a letter to ONRR explaining why a higher allowance limit is necessary; and (2) provide supporting documentation, including a completed Form MMS-4393. This form provides ONRR with the data necessary to make a decision whether to approve or deny the request and track deductions on royalty reports.

Summary

We are requesting OMB's approval to continue to collect this information. Not collecting this information would limit the Secretary's ability to discharge fiduciary duties and may also result in the inability to confirm the accurate royalty value to Indian Tribes and individual Indian mineral owners. ONRR protects proprietary information that it receives and does not collect items of a sensitive nature. The requirement to report is mandatory for Form MMS-4410, Accounting for Comparison [Dual Accounting], and for Form MMS-4411, Safety Net Report, under certain circumstances. For all other forms in this collection, the

requirement to report is mandatory in order to obtain a benefit.
Frequency of Response: Annually and on occasion.
Estimated Number and Description of Respondents: 148 Indian lessees.

Estimated Annual Reporting and Recordkeeping "Hour" Burden: 2,269 hours.
 We have not included in our estimates certain requirements that occur in the normal course of business

and that we consider usual and customary. The following chart shows the estimated burden hours by CFR section and paragraph:
