National Institute of Food and Agriculture

Title: Expanded Food and Nutrition Education Program (EFNEP).

OMB Control Number: 0524-0044.

Summary of Collection: The Department of Agriculture's National Institute of Food and Agriculture (NIFA), Expanded Food and Nutrition Education Program (EFNEP) is a unique program that began in 1969 and is designed to reach limited resource audiences, especially youth and families with young children. EFNEP operates in all 50 states, the District of Columbia and in American Samoa, Guam, Micronesia, Northern Marianas, Puerto Rico, and the Virgin Islands. Extension professionals train and supervise paraprofessionals and volunteers who teach food and nutrition information and skills to limited resources families and youth.

Need and Use of the Information: NIFA will collect information using Nutrition Education Evaluation and Reporting System (NEERS), which is an integrated database system that stores information on: (1) Adult program participants, their family structure and dietary practices; (2) youth group participants; and (3) staff, NEERS consists of separate software sub-systems for the County and the State levels (State also refers to U.S. Territories). Without the information it would be extremely difficult for the national office to compare, assess, and analyze the effectiveness and the impact of EFNEP without the annual collection of data.

Description of Respondents: State, Local or Tribal Government.

Number of Respondents: 75.

Frequency of Responses: Recordkeeping; Reporting: Annually.

Total Burden Hours: 93,225.

SUPPLEMENTARY INFORMATION:

Title: Uniform Grant Application Package for Discretionary Grant Programs.

Form Number: SF-425.

OMB Number: 0584-0512.

Expiration Date: September 30, 2012.

Type of Request: Revision of a currently approved collection.

Abstract: FNS has a number of discretionary grant programs. (Consistent with the definition in 7 CFR part 3016, the term “grant” as used in this notice includes cooperative agreements.) The authorities for these grants vary and will be cited as part of each grant application solicitation. The purpose of the revision to the currently approved collection for the Uniform Grant Application Package for Discretionary Grant Programs is to continue the authority for the established uniform grant application package and to update the number of collection burden hours. The uniform collection package is useable for all of FNS’ discretionary grant programs to collect information from grant applicants that are needed to evaluate and rank applicants and protect the integrity of the grantee selection process. All FNS discretionary grant programs will be eligible, but not required, to use the uniform grant

application package. Before soliciting applications for a discretionary grant program, FNS will decide whether the uniform grant application package will meet the needs of that grant program. If FNS decides to use the uniform grant application package, FNS will note in the grant solicitation that applicants must use the uniform grant application package and that the information collection has already been approved by OMB. If FNS decides not to use the uniform grant application package or determines that it needs grant applicants to provide additional information not contained in the uniform package, then FNS will publish a notice soliciting comments on its proposal to collect different or additional information before making the grant solicitation.

The uniform grant application package will include general information and instructions; a checklist; a requirement for the program narrative statement describing how the grant objectives will be reached; the Standard Form (SF) 424 series that request basic information, including budget information and a disclosure of lobbying activities certification (SF-LLL). In addition, grantees are required to submit the SF-425. The SF-425 is approved by OMB; however, reporting and recordkeeping burden hours associated with this form must be accounted for in each agency’s information request packages.

The proposed information collection covered by this notice is related to the requirements for the program narrative statement. The requirements for the program narrative statement are based on the requirements for program narrative statements described in section 1c(5) of the OMB Circular A-102 and will apply to all types of grantees—State and Local governments, Indian Tribal organizations, Non-Profit organizations, Institutions of Higher Education, and For-Profit organizations.

The information collection burden related to the SF-424 series, and the lobbying certification forms have been separately approved by OMB.

Corrosion-Resistant Carbon Steel Flat Products From Germany and the Republic of Korea: Preliminary Results of Full Sunset Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On January 3, 2012, the Department of Commerce ("the Department") initiated the third sunset reviews of the antidumping duty ("AD") orders on certain corrosion-resistant carbon steel flat products ("CORE") from Germany and the Republic of Korea ("Korea") pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). On April 20, 2012, the Department revised its original adequacy determination and determined to conduct full sunset reviews of the AD orders on CORE from Germany and Korea as provided for in section 751(c)(5)(A) of the Act and in 19 CFR 351.218(e)(2), and extended the deadlines for the preliminary and final results.¹ As a result of its analysis, the Department preliminarily finds that revocation of these AD orders would be likely to lead to continuation or recurrence of dumping at the margins indicated in the "Preliminary Results of Review" section of this notice.

DATES: *Effective Date:* July 27, 2012.

FOR FURTHER INFORMATION CONTACT: Dennis McClure or James Terpstra AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-5973 or (202) 482-3965, respectively.

Skinner, Director, Office 3, on "Sunset Reviews of the Antidumping Duty Orders on Corrosion-Resistant Carbon Steel Flat Products from Germany and South Korea: Adequacy Redetermination Memorandum" and *Corrosion-Resistant Carbon Steel Flat Products From Germany and South Korea: Extension of Time Limits for Preliminary and Final Results of Third Antidumping Duty Sunset Reviews*, 77 FR 25141 (April 27, 2012) ("CORE Extension Notice").

SUPPLEMENTARY INFORMATION:

Background

On January 3, 2012, the Department initiated the third sunset review of the AD orders on CORE from Germany and Korea pursuant to section 751(c) of the Act.² The Department received notices of intent to participate from the following domestic interested parties: United States Steel Corporation ("U.S. Steel"); ArcelorMittal USA LLC ("AMUSA"); and Nucor Corporation ("Nucor"), within the deadline specified in 19 CFR 351.218(d)(1)(i). The domestic interested parties claimed interested party status under section 771(9)(C) of the Act as U.S. producers of the subject merchandise. The Department received complete substantive responses from the domestic interested parties within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i).

The Department did not receive a substantive response from any respondent in either of the sunset reviews of the AD orders on CORE from Germany and Korea. As a result, pursuant to 19 CFR 351.218(e)(1)(ii)(C)(2), the Department determined to conduct expedited reviews of these orders. However, on April 20, 2012, the Department revised its original adequacy determination and determined to conduct full sunset reviews.³ The conversion to full sunset reviews and extension of the deadlines for the preliminary results were done to provide interested parties with an opportunity to comment concerning the implementation of the *Final Modification for Reviews*.⁴

The Department provided interested parties with an opportunity to comment on how the implementation of the *Final Modification for Reviews* applies to the sunset reviews of the AD orders on CORE from Germany and Korea. U.S. Steel, Nucor, and AMUSA submitted comments on June 8, 2012. ThyssenKrupp Steel Europe AG, a German producer and exporter, submitted comments on June 8, 2012. U.S. Steel, Nucor, and AMUSA
