SUPPLEMENTARY INFORMATION: The regulation concerning plan assets and participant contributions provides guidance for fiduciaries, participants, and beneficiaries of employee benefit plans regarding how participant contributions to pension plans must be handled when they are either paid to the employer by the participant or directly withheld by the employer from the employee's wages for transmission to the pension plan. In particular, the regulation sets standards for the timely delivery of such participant

contributions, including an outside time limit for the employer's holding of participant contributions. In addition, for those employers who may have difficulty meeting the regulation's outside deadlines for transmitting participant contribution, the regulation (29 CFR 2510.3-102(d)) provides the opportunity for the employer to obtain an extension of the time limit by providing participants and the Department with a notice that contains specified information.
