

list) or do both. If a member has received a CRA rating of “outstanding,” it need not complete section II of the form. A copy of Form 60 is available at <http://www.fhfa.gov/webfiles/2924/FHFAForm060.pdf>.

Section 1290.5 describes the circumstances under which FHFA will restrict a member’s access to long-term Bank advances for failure to meet the community support requirements. It also permits Bank members whose access to long-term advances has been restricted to apply directly to FHFA to remove the restriction under certain circumstances.

The information collection contained in Form 60 and part 1290 are necessary to enable and are used by FHFA to determine whether Bank members satisfy the statutory and regulatory community support requirements. Only Bank members that meet these requirements may maintain continued access to long-term Bank advances. See 12 U.S.C. 1430(g).

The OMB number for the information collection is 2590–0005. The OMB clearance for the information collection expires on October 31, 2012. The likely respondents are institutions that are Bank members.

#### B. Burden Estimate

The FHFA estimates the total annual average number of respondents that must complete Form 60 at 3,900 Bank members (half of all Bank members each year), with one response per member and an average burden per response of one hour. In addition, FHFA estimates the total annual average number of Bank members whose access to long-term advances has been restricted that will apply to FHFA to remove the restriction at 14 Bank members, with one response per member and an average burden per response of one hour. Thus, the estimate for the total annual hour burden is 3,914 hours.

#### C. Comment Request

Written comments are requested on the following: (1) Whether the collection of information is necessary for the proper performance of FHFA functions, including whether the information has practical utility; (2) the accuracy of the FHFA estimates of the burdens of the collection of information; (3) ways to enhance the quality, utility and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.
