

Information Collection Costs: The Commission staff seeks comments on the costs to comply with the proposed revisions to the Plan and Procedures. The total estimated annual cost burden to prepare new or modified information collections based on the proposed Plan and Procedure revisions is \$17,459.43 (253 hours/2,080 hours⁶ per year, times \$143,540⁷).

We expect the estimated burden would reduce in subsequent years, as companies adjust to the modified information collections and have trained their personnel to collect information per the revised Plan and Procedures.

Interested persons may obtain additional information on the OMB process and information collection statement by contacting Ellen Brown, Office of the Executive Director, via email at DataClearance@ferc.gov; by phone (202) 502-8663, or facsimile (202) 273-0973.

Central Arizona Project-Rate Order No. WAPA-158

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of Proposed Extension of Transmission Formula Rates.

SUMMARY: The Western Area Power Administration (Western), a power marketing administration with the Department of Energy (DOE), is proposing to extend the existing formula rates for Central Arizona Project (CAP) transmission services on the CAP 115-kilovolt (kV) and 230-kV transmission facilities through December 31, 2015. The existing Transmission Service Formula Rate Schedules CAP-FT2, CAP-NFT2, and CAP-NITS2, expire December 31, 2012. This notice of proposed extension of rates is issued pursuant to 10 CFR 903.23(a). Publication of this **Federal Register** notice begins the formal process for the proposed extension of the CAP Transmission Formula Rates.

DATES: The consultation and comment period will end on September 6, 2012.

⁶ Estimated number of hours an employee works each year.

⁷ Estimated average annual cost (salary plus benefits) per employee.

Western will accept oral and written comments any time during the consultation and comment period. In accordance with 10 CFR 903.23(a), Western has determined it is not necessary to hold a public information or public comment forum.

ADDRESSES: Send written comments to: Deborah Emler, Acting Regional Manager, Desert Southwest Customer Service Regional Office, Western Area Power Administration, P.O. Box 6457, Phoenix, AZ 85005-6457, email EMLER@wapa.gov. Written comments may also be faxed to (602) 605-2490, attention: Jack Murray. Western will post official comments received via letter, fax and email to its Web site at <http://www.wapa.gov/dsw/pwrnkt/CAPTRP/CAPTRP.htm> after the close of the comment period. Western must receive written comments by the end of the consultation and comment period to ensure they are considered in Western's decision process.

FOR FURTHER INFORMATION CONTACT: Mr. Jack Murray, Rates Manager, Desert Southwest Customer Service Regional Office, Western Area Power Administration, P.O. Box 6457, Phoenix, AZ 85005-6457, (602) 605-2442, email jmurray@wapa.gov.

SUPPLEMENTARY INFORMATION: By Delegation Order No. 00-037.00, effective December 6, 2001, the Secretary of Energy delegated: (1) The authority to develop power and transmission rates to the Administrator of Western; (2) the authority to confirm, approve, and place such rates into effect on an interim basis to the Deputy Secretary of Energy; and (3) the authority to confirm, approve, and place into effect on a final basis, to remand, or to disapprove such rates to the Federal Energy Regulatory Commission (FERC).

The existing Rate Schedules consist of separate transmission service rates for firm point-to-point transmission service, non-firm point-to-point transmission service, and Network Integration Transmission Service (NITS) on the CAP 115-kV and 230-kV transmission system. Rate Schedules CAP-FT2, CAP-NFT2, CAP-NITS2, Rate Order No. WAPA-124,¹ were approved for a 5-year period beginning on January 1, 2006, and ending December 31, 2010. Rate Order No. WAPA-153² extended these rate schedules for a 2-year period,

¹ FERC confirmed and approved Rate Order No. WAPA-124 on June 29, 2006, in Docket No. EF06-5111-000. See *Order Confirming and Approving Rate Schedules on a Final Basis*, 115 FERC ¶ 62,326.

² 76 FR 548 (January 5, 2011).

beginning January 1, 2011, and ending December 31, 2012.

The existing formula transmission service rates provide adequate revenue to pay all annual costs, including interest expense, and to repay investment on the CAP 115-kV and 230-kV transmission facilities within the allowable periods. The rates are updated annually using updated financial and transmission reservation data. Western is proposing no change at this time to the rate formula, and based on preliminary financial and contractual information available, it is expected the rate will remain at its current level through calendar year 2013. Since no changes are anticipated to the formula rate, and the existing rate provides sufficient revenue to recover all appropriate costs, Western proposes to extend the current rate schedules pursuant to 10 CFR 903.23(a).

All documents made or kept by Western for developing the proposed extension for the Transmission Service Rate Schedules are available for inspection and copying at the Desert Southwest Customer Service Regional Office, Western Area Power Administration, 615 South 43rd Avenue, Phoenix, AZ 85005-6457. These documents are also available on Western's Web site at: <http://www.wapa.gov/dsw/pwrnkt/CAPTRP/CAPTRP.htm>.

After review of public comments, Western will take further action on the proposed extension of rates consistent with 10 CFR part 903.

Dated: July 31, 2012.

Anthony H. Montoya,
Acting Administrator.

II. Summary of Permit Actions

A. Issuance of 2012 CGP for Additional States and Tribes

On February 16, 2012, EPA issued the 2012 CGP for most of the areas where EPA is the permitting authority. Because EPA had not yet received Clean Water Act Section 401 certifications from certain states and tribes, EPA was not able to issue the final CGP in these areas. The following states and tribes were affected:

- The State of Idaho;

- Federal operators in Washington;
- The Fond Du Lac Band and Grand Portage Band of Lake Superior Chippewa in Minnesota; and
- The Bad River, Lac Du Flambeau, and Sokaogon Chippewa (Mole Lake) Community in Wisconsin.

Now that EPA has received the required Clean Water Act 401 certifications, the Agency has issued the final 2012 CGP for these areas, except for the Sokaogon Chippewa (Mole Lake) Community in Wisconsin, who denied certification of the permit. Pursuant to CWA section 401(d), the limitations and requirements contained in these certifications are now conditions of the 2012 CGP and are included in Part 9 of the permit. See Parts 9.3, 9.7.1, and 9.7.3.

The complete text of the updated 2012 CGP as well as additional information on Webcasts, Guidance, and Other Implementation Assistance can be obtained through EPA's Web site at <http://www.epa.gov/npdes/stormwater/cgp>.

B. Correction of Typographical Errors in New Mexico Requirements

Following the issuance of the 2012 CGP on February 16, 2012, EPA discovered that a few of the requirements in Part 9.4.1 were incorrectly transcribed from the State of New Mexico's Section 401 certification conditions. The errors related to EPA's misinterpretation of a few of the state's site stabilization conditions. Additionally, EPA learned that the permit's list of New Mexico waterbodies designated by the state as Tier 2 or Tier 3 for antidegradation purposes (Appendix F) was inaccurate. As a result of the errors, Appendix F did not properly inform construction operators of which waters are designated by the state as Tier 2; construction sites discharging to Tier 2-designated waters are subject to stricter stabilization and inspection requirements. See Part 3.3.2. In consultation with the state, EPA has corrected the errors and included updated requirements in Part 9.4.1 and Appendix F of the permit.

C. Correction to Omission of Idaho's List of Sensitive Waters

Subsequent to permit issuance, EPA also discovered that it had erroneously omitted Idaho's list of state Tier 2 and 3 waters (Appendix F). In consultation with the state, EPA has corrected the omission, and has updated the Appendix F list to include instructions on how to determine if particular waters are designated as Tier 2 or 3.

III. Compliance With Other Statutes

EPA summarized the Agency's compliance with the National Environmental Policy Act (NEPA), Executive Orders 12866 and 13563, Executive Order 12898, and Executive Order 13175 in the February 29, 2012 **Federal Register** notice. See 77 FR 12292 for more information.
