SUPPLEMENTARY INFORMATION: Prohibited Transaction Class Exemption 2004-07 permits an individual account pension plan sponsored by a real estate investment trust (REIT) that is organized as a business trust under State law (Trust REIT), or by its affiliates, to purchase, hold and sell publicly traded shares of beneficial interest in the Trust REIT. The relief also covers contributions in kind of REIT shares. Employee Retirement Income Security Act of 1974 section 406 and Internal Revenue Code of 1986 section 4975 would otherwise prohibit such purchases, holdings, and sales.

The class exemption requires, among other conditions, that the Trust REIT (or its agent) provide the person who has authority to direct acquisition or sale of REIT shares with the most recent prospectus, quarterly report, and annual report concerning the Trust REIT immediately before an initial investment in the Trust REIT. The person with such authority may be, under the terms of the plan, either an independent fiduciary or a participant exercising investment rights pertaining to his or her individual account under the plan. Updated versions of the reports must be provided to the directing person as subsequently published. The exemption further requires the plan to maintain records concerning investments in a Trust REIT, subject to appropriate confidentiality procedures, for a period of six years and make them available to interested persons including the Department and participants and beneficiaries. The confidentiality procedures must be designed to protect against the possibility that an employer may exert undue influence on participants regarding share-related transactions, and the participants and beneficiaries of the plan must be provided with a statement describing the confidentiality procedures in place and the fiduciary responsible for monitoring these procedures.
