Animal and Plant Health Inspection Service

Title: Importation of Pork-Filled Pasta.
OMB Control Number: 0579-0214.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, and eradicate pests or diseases of livestock or poultry. The Animal and Plant Health Inspection Service (APHIS) is responsible for protecting the health of our Nation's livestock and poultry populations by preventing the introduction and interstate spread of serious diseases and pests of livestock and for eradicating such diseases from the United States when feasible.

Need and use of the Information: A certificate must be completed and signed by the issuing official, and contains such information as the origin of the meat used in the product, the name and location of the facility that processed the product, and the product's intended destination. Without the information, it would significantly cripple APHIS' ability to ensure that pork-filled pasta from certain regions pose a minimal risk of introducing swine vesicular disease into the United States.

Description of Respondents: Business or other for-profit; Federal Government.

Animal and Plant Health Inspection Service

Title: Standards for Privately Owned Quarantine Facilities for Ruminants.

OMB Control Number: 0579-0232.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. The Secretary may also prohibit or restrict import or export of any animal or related material to prevent the spread of any livestock or poultry pest or disease. The Animal and Plant Health Inspection Service (APHIS) provides standards for the approval, operation, and oversight of privately owned quarantine facilities for imported ruminants prior to their release into the United States.

Need and use of the Information: APHIS uses the following information activities with its efforts to maintain a system whereby private individuals can operate (with APHIS oversight) their own facilities for the quarantine of imported ruminants: (1) Application Letter; (2) Compliance Agreement; (3) Daily Log; and (4) Request for Variance.

Without the information, APHIS would be forced to discontinue its program of allowing the operation of privately owned quarantine facilities for ruminants, a development that would hamper U.S. animal import activities.

Description of Respondents: Business or other for-profit.

Number of Respondents: 3.

Frequency of Responses:

Recordkeeping: Reporting: On occasion.

Total Burden Hours: 76.

Animal and Plant Health Inspection Service

Title: Importation of Swine and Swine Products from the European Union.

OMB Control Number: 0579-0265.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. In connection with the disease prevention mission, the Animal and Plant Health Inspection Service (APHIS) regulates the importation of animals and animal products into the United States to guard against the introduction of animal diseases not currently present or prevalent in the United States.

Need and Use of the Information: To help APHIS ensure that classical swine fever (CSF) is not introduced into the United States, the regulations allow, under specified conditions, the importation of pork, pork products, and swine from the APHIS-defined European Union (EU) CSF region. These requirements necessitate the use of several information collection activities, including certification statements from the importation of pork, pork products, and swine. Failing to collect this information would increase the chances of CSF being introduced into the United States.

Description of Respondents: Federal Government.

Number of Respondents: 15.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 6,846.
