SUMMARY: Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), and as authorized by 42 U.S.C. 2286b, notice is hereby given of the Defense Nuclear Facilities Safety Board's (Board) public meeting and hearing described below. The Board invites interested persons or groups to present comments, technical information, or data concerning safety issues related to the matters to be considered.

TIME AND DATE OF MEETING: Session I: 1 p.m.—5 p.m., October 2, 2012; Session II: 6:30 p.m.—9 p.m., October 2, 2012.

PLACE: Knoxville Convention Center, 701 Henley Street, Knoxville, Tennessee 37902.

STATUS Open. While the Government in the Sunshine Act does not require that the scheduled discussion be conducted in a meeting, the Board has determined that an open meeting in this specific case furthers the public interests underlying both the Sunshine Act and the Board's enabling legislation.

MATTERS TO BE CONSIDERED: In Session I of this public meeting and hearing, the Board will examine the National Nuclear Security Administration's (NNSA) efforts to mitigate risks to public and worker safety posed by aging defense nuclear facilities at the Y-12 National Security Complex. The Board will receive testimony from NNSA and its contractors concerning the operations at existing Y-12 defense nuclear facilities, including Building 9212, Building 9204-2E, and Building 9215. The Board is interested in actions taken to address recent issues with conduct of operations, maintenance, and work planning; the contractor's processes for identifying and resolving safety issues; and the effectiveness of NNSA's oversight for nuclear operations. The Board will also examine the status of emergency preparedness at Y-12 and will receive testimony concerning how well NNSA and its contractor are prepared to respond to severe events and site emergencies. The Board is interested in lessons learned from the events at the Fukushima Daiichi complex and the actions taken to incorporate these lessons learned at the site-wide level and in defense nuclear facility operations. During Session II, the Board will receive testimony regarding factors that could affect the timely execution and safety of the Uranium Processing Facility (UPF) project. These factors include the federal project team's strategy for identifying and resolving safety issues in a timely manner. The Board is also interested in exploring the potential safety impacts of NNSA's decision to accelerate the acquisition of select processing capabilities and defer others to a later date, as well as the potential for weaknesses in technology development to impact safety. The public hearing portion of this proceeding is authorized by 42 U.S.C. 2286b.

Title of Collection: 2013–2014 Federal Student Aid Application.

OMB Control Number: 1845–0001.

Type of Review: Revision.

Total Estimated Number of Annual Responses: 46,099,008.

Total Estimated Number of Annual Burden Hours: 25,959,853.

Abstract: Section 483 of the Higher Education Act of 1965, as amended (HEA), mandates that the Secretary of Education “* * * shall produce,

distribute, and process free of charge common financial reporting forms as described in this subsection to be used for application and reapplication to determine the need and eligibility of a student for financial assistance * * *”.

The determination of need and eligibility are for the following Title IV, HEA, federal student financial assistance programs: the Federal Pell Grant Program; the Campus-Based programs (Federal Supplemental Educational Opportunity Grant, Federal Work-Study, and the Federal Perkins Loan Program); the William D. Ford Federal Direct Loan Program; the Teacher Education Assistance for College and Higher Education Grant; and the Iraq and Afghanistan Service Grant.

Federal Student Aid, an office of the U.S. Department of Education (hereafter “the Department”), subsequently developed an application process to collect and process the data necessary to determine a student’s eligibility to receive Title IV, HEA program assistance. The application process involves an applicant’s submission of the *Free Application for Federal Student Aid* (FAFSA). After submission of the FAFSA, an applicant receives a *Student Aid Report* (SAR), which is a summary of the data they submitted on the FAFSA. The applicant reviews the SAR, and, if necessary, will make corrections or updates to their submitted FAFSA.

The Department seeks OMB approval of all application components as a single “collection of information”. The aggregate burden will be accounted for under OMB Control Number 1845–0001. The specific application components, descriptions and submission methods for each are listed in Table 1.

SAR Acknowledgment	This is the condensed paper SAR that is mailed to applicants who applied electronically but did not provide an e-mail address and do not meet the criteria for a full paper SAR.	

This information collection also documents an estimate of the annual public burden as it relates to the application process for federal student aid. The Applicant Burden Model (ABM), measures applicant burden through an assessment of the activities each applicant conducts in conjunction with other applicant characteristics and in terms of burden, the average applicant's experience. Key determinants of the ABM include:

- The total number of applicants that will potentially apply for federal student aid;
 - How the applicant chooses to complete and submit the FAFSA (e.g., by paper or electronically via FOTW);
 - How the applicant chooses to submit any corrections and/or updates (e.g., the paper SAR or electronically via FOTW Corrections);
 - The type of SAR document the applicant receives (eSAR, SAR acknowledgment, or paper SAR);
 - The formula applied to determine the applicant's expected family contribution (full need analysis formula, Simplified Needs Test or Automatic Zero); and
 - The average amount of time involved in preparing to complete the application.
- The ABM is largely driven by the number of potential applicants for the application cycle. The total application projection for 2013–2014 is based upon two factors—estimates of the total enrollment in all degree-granting

institutions and the percentage change in FAFSA submissions for the last completed or almost completed application cycle. The ABM is also based on the application options available to students and parents. The Department accounts for each application component based on web trending tools, survey information, and other Department data sources.

For 2013–2014, the Department is reporting a net burden reduction of 3,398,000 hours. The reduction is a reflection of the effects of simplifying FAFSA on the Web, which is utilized by the majority of applicants who apply for aid. Simplification of the application is demonstrated by (1) the average completion times for initial submissions and; (2) fewer corrections being made to the application.

The projected average completion times for initial submissions has

decreased by 11 minutes for 2013–14. In data reported in the 2012–2013 supporting statement, first-time filers using FOTW would take approximately 1.30 hours (78 minutes) to submit an application. The data from 2011–12 indicate that the same user would be able to submit their application in 1.12 hours (67 minutes), reducing their burden by .18 hours (11 minutes).

Corrections are also projected to decrease by 760,696 responses for 2013–14. Fewer corrections mean that more comprehensive and accurate data was captured in the initial submission of the application.

Updated completion times were calculated for each component and have been used to estimate the burden, excluding the change in the applicant volume. The results demonstrate that the burden for all applicants would have decreased by almost 13 percent or

3,758,702 hours, if the application volume had remained constant.

If the Department had not simplified the application process, thus reducing the time required to complete the FAFSA, the new burden estimates would only need to account for the change in applicants. The 1.43% increase in applicants would result in an increase in burden of 347,945 hours.

Accounting for both the increase in total applicants and the decrease in individual applicant burden, the net change is an overall decrease of almost 12 percent or 3,398,000 hours. The following Table shows the net burden change and total cost for applicants. The change in total annual responses is also listed in the Table. Total annual responses include the original FAFSA submission and corrections.

TABLE 2—NET BURDEN CHANGE

	2012–2013	2013–2014	Change	% Change	Burden disposition
Accounting for change in applicant burden and change in applicants.					
Total Applicants	24,705,864	25,053,809	+347,945	+1.41	Net decrease in burden. The 1.41% increase in applicants is offset by the results of the simplification changes implemented by the Department. This has resulted in an overall decrease in burden of 11.57% or 3,397,545 hours.
Total Applicant Burden	29,357,853	25,959,853	– 3,398,000	– 11.6	
Total Annual Responses	46,447,024	46,099,007	– 348,017	– .75	
Cost for All Applicants	\$234,804.24	\$190,224.76	\$44,579.48	– 18.99	

The Department takes pride in the continued efforts to simplify the FAFSA submission process and the continued decrease in burden associated with the application process, even as the Department serves more students each year. The results confirm the significant improvements that have been made to the application process. The Department believes that these changes will lead to more students completing the FAFSA and will assist more students with their pursuit of postsecondary education through access to Title IV, HEA program assistance.

The Secretary is publishing this request for comment under the Provisions of the Paperwork Reduction Act of 1995, 44 U.S.C. 3501 *et seq.* Under that Act, the Department must obtain the review and approval of the Office of Management and Budget (OMB) before it may use a form to collect information. However, under procedure for obtaining approval from OMB, the Department must first obtain public comment of the proposed form, and to obtain that comment, the Department must publish this notice in

the **Federal Register**. In addition to comments requested above, to accommodate the requirements of the Paperwork Reduction Act, the Secretary is interested in receiving comments with regard to the following matters: (1) Is this collection necessary to the proper functions of the Department, (2) will this information be processed and used in a timely manner, (3) is the estimate of burden accurate, (4) how might the Department enhance the quality, utility, and clarity of the information to be collected, and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.
