

Frequency of collection: Occasionally, 1–2 annually.

Average total cost: \$747,000.

There are no capital costs or operating and maintenance costs associated with this collection. The Commission believes that, as part of customary and usual business practices, most respondents already create and store book-out agreements in either a written or electronic format.

The Commission invites comments on:

- Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;
- The accuracy of the Commission's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and

- Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology; *e.g.*, permitting electronic submission of responses.

Dated: August 13, 2012.

Sauntia Warfield,

Assistant Secretary of the Commission.

Defense Services Proposed to be Sold: None

(viii) *Date Report Delivered to Congress:* 31 July 2012

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

United Arab Emirates—F117-PW-100 Engines

The Government of the United Arab Emirates (UAE) has requested a proposed sale of 2 spare F117-PW-100

engines in support of the UAE C-17 GLOBEMASTER III aircraft. The estimated cost is \$35 million.

The proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will improve the UAE's readiness and capability to meet current and future strategic airlift requirements. The UAE will use its C-17s to provide humanitarian aid in the Middle East and Africa region and to support its troops in coalition operations. The C-17 will provide a heavy airlift capability and complement day-to-day operations of the UAE's existing C-130H fleet.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Pratt and Whitney in East Hartford, Connecticut. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the UAE.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
