

In each of the 20 jurisdictions for the study, local counseling agencies and national counseling intermediaries will be recruited to provide (a) online education and telephone counseling and (b) in-person education and counseling. One national provider will be responsible for the online education and telephone counseling. Local counseling agencies will be recruited to provide the in-person education and counseling. In each case, the counseling agencies will be responsible for documenting the counseling services provided to the 4,026 study participants assigned to receive one of these types of counseling (the remaining 2,975 study participants constitute the control group). Staff of the lenders will be asked to participate in semi-structured interviews that seek to understand the recruitment process and provide the study team a weekly outcome report for recruitment calls. Staff at the counseling agencies will be asked to participate in semi-structured interviews that seek to understand provision of counseling in each jurisdiction and provide the study team information on counseling and education services that study participants receive. The purpose of these data collection activities is to collect the information needed to evaluate the impact of pre-purchase housing counseling.

Agency form numbers, if applicable: None.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: The average time per client for lender staff to conduct a recruitment call is 3 minutes, with recruitment conducted with up to 87,500 potential homebuyers. The average time per client for the 17,500 potential first-time homebuyers to complete an eligibility assessment is 5 minutes. The average time per client for the 7,000 potential study participants to complete the consent form is 5 minutes. The average time per client for the 7,000 enrolled study participants to complete the baseline survey is 25 minutes. The average time per study participant for the 7,000 enrolled study participants to complete each tracking letter is 5 minutes. There will be 9 tracking letters issued over the course of 3 years. The average time per client for the follow-up interviews is 30 minutes. The average time for each study participant's co-borrower to complete the co-borrower consent agreement is 3 minutes. The average time per client for counseling agencies to document the services provided to study participants is 10 minutes, with responses required for

both the educational component and for the counseling services. The average time for counseling agency staff to complete interviews is 60 minutes—up to 8 interviews conducted at up to 40 counseling organizations. The average time for lenders' staff to complete recruitment calls and input the contact information is 3 minutes. The average time for lenders' call center teams to complete the recruitment call outcome report is 30 minutes. These reports will be provided to the study team weekly through the enrollment period. The enrollment period is estimated to last 52 weeks for each lender. The average time for lenders' staff to complete interviews is 60 minutes. Up to 84 staff will be interviewed across 3 lenders. The total burden for the study is 21,056 hours: 14,683 hours for study participants and potential study participants, 105 hours for study participants' co-borrowers, 1,662 hours for counseling agencies, and 4,606 hours for lenders.

Status of the proposed information collection: This is a new collection.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C. chapter 35, as amended.

Dated: August 15, 2012.

Colette Pollard,

*Departmental Reports Management Officer,
Office of the Chief Information Officer.*

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[LLC0956000 L14200000.BJ0000]

Notice of Filing of Plats; Colorado.

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of filing of plats; Colorado.

SUMMARY: The Bureau of Land Management (BLM) Colorado State Office is publishing this notice to inform the public of the intent to officially file the survey plat listed below and afford all affected parties a proper period of time to protest this action prior to the plat filing. During this time, the plat will be available for viewing at <http://www.glorerecords.blm.gov>.

DATES: Unless there are protests of this action, the filing of the plat described in this notice will happen on September 21, 2012.

ADDRESSES: BLM Colorado State Office, Cadastral Survey, 2850 Youngfield Street, Lakewood, Colorado 80215-7093.

FOR FURTHER INFORMATION CONTACT: Randy Bloom, Chief Cadastral Surveyor for Colorado, (303) 239-3856. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 to contact the above individual during normal business hours. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The plat and field notes of the dependent resurvey and survey in Township 35 North, Range 11 West, New Mexico Principal Meridian, Colorado, were accepted on July 23, 2012.

Randy Bloom,

Chief Cadastral Surveyor for Colorado.

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

[OMB Number 1010-0181]

Information Collection: Southern Alaska Sharing Network and Subsistence Study; Proposed Collection for OMB Review; Comment Request

ACTION: 60-day notice.

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), the Bureau of Ocean Energy Management (BOEM) is inviting comments on a collection of information that we will submit to the Office of Management and Budget (OMB) for review and approval. The information collection request (ICR) pertains to conducting a survey in Alaska, "Southern Alaska Sharing Network and Subsistence Study."

DATES: Submit written comments by October 22, 2012.

ADDRESSES: Please send your comments on this ICR to the BOEM Information Collection Clearance Officer, Arlene Bajusz, Bureau of Ocean Energy Management, 381 Elden Street, HM-3127, Herndon, Virginia 20170 (mail); or arlene.bajusz@boem.gov (email); or 703-787-1209 (fax). Please reference ICR 1010-0181 in your comment and include your name and return address.

FOR FURTHER INFORMATION CONTACT: Arlene Bajusz, Office of Policy, Regulations, and Analysis at (703) 787-1025. You may also request a free copy of the study description.

SUPPLEMENTARY INFORMATION: OMB Control Number: 1010–0181.

Title: Southern Alaska Sharing Network and Subsistence Study.

Abstract: The Bureau of Ocean Energy Management (BOEM), under the Department of the Interior (DOI), is the Federal administrative agency that conducts OCS lease sales and monitors and mitigates adverse impacts that might be associated with offshore resource development. Within BOEM, the Environmental Studies Program implements and manages the responsibilities of research. This study will facilitate the meeting of DOI/BOEM information needs on subsistence food harvest and sharing activities in various coastal Alaska areas.

Planning areas for potential resource development in Alaska can include large geographic areas with diverse, abundant, and environmentally sensitive resources. Within these areas, the DOI's Proposed OCS Oil and Gas Leasing Program considers that there will be an oil and gas lease sale in the future. These proposed sale areas or adjacent areas support major productive commercial and subsistence fisheries, provide habitat to numerous marine mammals, and are a significant migration and staging area for internationally important waterfowl. Numerous communities in the State of Alaska rely heavily on subsistence fisheries.

This study assesses the vulnerabilities of several coastal communities in southern Alaska as to the potential effects of offshore oil and gas development on subsistence food harvest and sharing activities. It investigates the resilience of local sharing networks that structure contemporary subsistence-cash economies using research methods that involve the residents of these communities most proximate to the future sale area(s).

The BOEM will use the information collected to gain knowledge about local social systems that will help shape development leasing strategies and serve as an interim baseline for impact monitoring to compare against future research in these areas. Without this data, BOEM will not have sufficient information to make informed leasing and development decisions for these areas.

Survey Instrument: The research will be collected from a survey administered to each head of household in the communities to collect information about the subsistence (harvest data) and sharing networks of the communities. The information under this collection

will be obtained through personal interviews that are voluntary.

Interview Methods: The interviews for each study will be conducted in person in a setting most comfortable for the respondents. This personal method is more expensive and time consuming for the researchers, but these drawbacks are outweighed by improvements in the quality of information obtained and the rapport established. Telephone interviews have not been successful in rural Alaska. Each respondent will be paid an honorarium for taking part in the study. Responses are voluntary and confidential.

Frequency: One-time event for each study.

Description of Respondents: Approximately 128 respondents from Alaska coastal communities.

Estimated Reporting and Recordkeeping Hour Burden: The currently approved annual reporting burden for this collection is 192 hours. We estimate each survey will take about 1.5 hours.

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: We have identified no non-hour cost burdens for this collection.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: We invite comments on: (1) Whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) ways to enhance the quality, usefulness, and clarity of the information to be collected; and (4) ways to minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Availability of Comments: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying

information from public review, we cannot guarantee that we will be able to do so.

Dated: August 16, 2012.

Deanna Meyer-Pietruszka,
Chief, Office of Policy, Regulations, and Analysis.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701–TA–487 (Final) and 731–TA–1197–1198 (Final)]

Steel Wire Garment Hangers From Taiwan and Vietnam; (Corrected Notice) Scheduling of the Final Phase of Countervailing Duty and Antidumping Investigations

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice of the scheduling of the final phase of countervailing duty investigation No. 701–TA–487 (Final) under section 705(b) of the Tariff Act of 1930 (19 U.S.C. 1671d(b)) (the Act) and the final phase of antidumping investigation Nos. 731–TA–1197–1198 (Final) under section 735(b) of the Act (19 U.S.C. 1673d(b)) to determine whether an industry in the United States is materially injured or threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of subsidized imports from Vietnam of steel wire garment hangers and less-than-fair-value imports from Taiwan and Vietnam of steel wire garment hangers, provided for in subheadings 7326.20.00 and 7323.99.90 of the Harmonized Tariff Schedule of the United States.¹

For further information concerning the conduct of this phase of the investigations, hearing procedures, and rules of general application, consult the

¹ For purposes of these investigations, the Department of Commerce has defined the subject merchandise as “Steel wire garment hangers, fabricated from carbon steel wire, whether or not galvanized or painted, whether or not coated with latex or epoxy or similar gripping materials, and whether or not fashioned with paper covers or capes (with or without printing) or nonslip features such as saddles or tubes. These products may also be referred to by a commercial designation, such as shirt, suit, strut, caped or latex (industrial) hangers. Specifically excluded from the scope of the investigation are (a) wooden, plastic, and other garment hangers that are not made of steel wire; (b) steel wire garment hangers with swivel hooks; (c) steel wire garment hangers with clips permanently affixed; and (d) chrome plated steel wire garment hangers with a diameter of 3.4 mm or greater.”
