

Revitalization Team, or its equivalent, to participate as an ex-officio member. In the event a member is unable to attend a meeting of a PAC or a meeting of one of its subcommittees/working groups, that member may send a designee, or alternate, to represent him or her at the meeting. The Chairperson of each PAC will alternate annually between the Forest Service representative and the BLM representative in provinces where both agencies administer lands. When the BLM is not represented on the PIEC, the Forest Service representative will serve as Chairperson.

Nominations and Application Information for the PACs

The appointment of members to the PACs will be made by the Secretary of Agriculture. Any individual or organization may nominate one or more qualified persons to represent the vacancies listed above. To be considered for membership, nominees must—

1. Identify what vacancy they would represent and how they are qualified to represent that vacancy;
2. State why they want to serve on the committee and what they can contribute;
3. Show their past experience in working successfully as part of a working group on forest management activities;
4. Complete Form AD-755, you may contact the persons identified above or obtain from the following Web site: http://www.usda.gov/documents/OCIO_AD_755_Master_2012.pdf. All nominations will be vetted, by the Agency.

Equal opportunity practices, in line with USDA policies, will be followed in all appointments to the PACs. To ensure that the recommendations of the PACs have taken into account the needs of the diverse groups served by the Departments, membership should include, to the extent practicable, individuals with demonstrated ability to represent minorities, women, and persons with disabilities.

Dated: August 10, 2012.

Thomas L. Tidwell,
Chief, Forest Service.

SUPPLEMENTARY INFORMATION:

Title: Tuberculosis.
OMB Number: 0579-0146.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA) is authorized, among other things, to prohibit or restrict the interstate movement of animals and animal products to prevent the dissemination within the United States of animal diseases and pests and for conducting programs to detect, control, and eradicate pests and diseases of livestock. In connection with this mission, APHIS participates in the Cooperative State-Federal Bovine Tuberculosis Eradication Program, which is a national program to eliminate bovine tuberculosis from the United States. This program is conducted under various States' authorities supplemented by Federal authorities regulating interstate movement of affected animals.

The tuberculosis regulations contained in 9 CFR part 77 provide several levels of tuberculosis risk classifications to be applied to States and zones within States, and classify States and zones according to their tuberculosis risk. The regulations restrict the interstate movement of cattle, bison, and captive cervids from the various classes of States or zones to prevent the spread of tuberculosis.

These regulations contain information collection activities, including requirements for epidemiological reviews, certificates for animals moved interstate, tuberculosis management plans, submission by States of requests to APHIS for State or zone status, and submission by States of an annual report to APHIS for renewal of State or zone status.

The total burden hours increased due to program changes and adjustments. For example, the certificate of tuberculosis test was separated into two separate burden items and their combined burden was, therefore, increased. The States are also providing more detailed information with the memorandum of understanding resulting in an increased burden. In addition, nine new forms have been added to the collection, including recordkeeping for approved feedlots.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our

information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.4654 hours per response.

Respondents: State animal health officials, producers and owners (including animal and feedlot owners), and accredited veterinarians.

Estimated annual number of respondents: 5,000.

Estimated annual number of responses per respondent: 11.9532.

Estimated annual number of responses: 59,766.

Estimated total annual burden on respondents: 27,818 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 17th day of August 2012.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) of the United States Department of Agriculture is authorized, among other things, to prohibit or restrict the importation and interstate movement of animals and animal products to prevent the introduction

into and dissemination within the United States of livestock diseases and pests. To carry out this mission, APHIS regulates the importation of animals and animal products into the United States. The regulations are contained in title 9, parts 91 through 99, of the Code of Federal Regulations.

The regulations in 9 CFR part 95 (referred to below as the regulations) prohibit or restrict the importation of specified animal products into the United States to prevent the introduction into the U.S. livestock population of certain contagious animal diseases. Section 95.5 of the regulations contains, among other things, specific processing, recordkeeping, and certification requirements for untanned hides and skins and bird trophies.

The regulations require that shipments of hides be accompanied by certificates showing their origin and certifying that the hides are from areas free of certain animal diseases. Shipments of ruminant hides from Mexico must be accompanied by written statements indicating that the hides were frozen for 24 hours and treated for ticks. Shipments of bird trophies must be accompanied by certificates of origin certifying that the trophies are from regions free of exotic Newcastle disease and highly pathogenic avian influenza. These activities help ensure that the products do not harbor disease or ticks.

We have increased the estimated annual burden after reviewing the regulations and current data. When comparing the regulations with the information collection activities, we found that the reporting of certificates for hides and skins from certain regions was omitted from past information collections.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for 3 years.
