Two comments were received regarding this petition. One comment was from a trade association with international membership; and one comment was from a trade association in the U.S. representing over 8,000 citrus growers. Both comments were in support of the petition to remove the maximum limit for "free and suspended pulp" from the U.S. Standards for Grades of Grapefruit Juice.

AMS sought public comments a second time on the petition (see 77 FR 6773). One comment was received regarding this petition from a trade association with international membership in support of the petition to remove the maximum limit for "free and suspended pulp" from the U.S. Standards for Grades of Grapefruit Juice.

This revision of the U.S. Standards for Grades of Grapefruit Juice better reflects the current industry processing technology for grapefruit juice.

Expiration Date of Approval: February 28, 2014.

Type of Request: Revision and extension of a currently approved information collection.

Abstract: FSA's Farm Loan Programs provide loans to family farmers to buy real estate and equipment, and finance agricultural production. Direct Loan Making, as specified in 7 CFR part 764, provides the requirements associated with direct loans. FSA is required to actively supervise its borrowers and provide credit counseling, management advice, and financial guidance. Additionally, FSA must document that credit is not available to the borrower from commercial credit sources in order to maintain eligibility for assistance. Direct loan making information collection requirements include financial and production records of the operation to ensure that cash flow projections are based on actual production history, a loan is adequately secured, the applicant meets established eligibility requirements, and assignments on income and sales can be obtained when appropriate.

FSA is adding a new form to this information collection request. The new form is the FSA–2314 Streamlined Request for Direct OL Assistance. The new form is a streamlined version of a current form that will be used by some

respondents. The burden hours have decreased due to lower number of responses by the current participants.

Estimate of Respondent Burden: Public reporting burden for this collection of information is estimated to average 48 minutes per response. The average travel time, which is included in the total burden, is estimated to be 1 hour per respondent.

Respondents: Producers.

Estimated Number of Respondents: 181,922.

Estimated Annual Number of Forms per Person: 3.6.

Estimated Total Annual Responses: 667,543.

Estimated Total Annual Burden Hours: 320,891.

We are requesting comments on all aspects of this information collection to help us to:

(1) Determine whether the continued collection of information is still necessary for the proper performance of the functions of the FSA, including whether the information will have practical utility;

(2) Assess the accuracy of the FSA's estimate of burden including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for the Office of Management and Budget approval.

Signed on August 7, 2012.
