I. Abstract

The Survey of Manufactured (Mobile) Home Placements collects data on the characteristics of newly manufactured homes placed for residential use including number, sales price, location, and other selected characteristics. HUD uses the statistics to respond to a Congressional mandate in the Housing and Community Development Act of 1980, 42 U.S.C. 5424 note, which requires HUD to collect and report manufactured home sales and price information for the Nation, census regions, states, and selected metropolitan areas and to monitor whether new manufactured homes are being placed on owned rather than rented lots. HUD also used these data to monitor total housing production and its affordability. Furthermore, the Survey of Manufactured (Mobile) Home Placements serves as the basis for HUD's mandated indexing of loan limits. Section 2145(b) of the Housing and Economic Recovery Act (HERA) of 2008 requires HUD to develop a method of indexing to annually adjust Title I manufactured home loan limits. This index is based on manufactured housing price data collected by this survey. Section 2145 of the HERA of 2008 also amends the maximum loan limits for manufactured home loans insured under Title I. HUD implemented the revised loan limits, as shown below, for all manufactured home loans for which applications are received on or after March 3, 2009.

Loan type	Purpose	Old loan limit	New loan limit
MANUFACTURED HOME IMPROVEMENT LOAN.	For financing alterations, repairs and improvements upon or in connection with existing manufactured homes.	\$17,500	\$25,090

Loan type	Purpose	Old loan limit	New loan limit
MANUFACTURED HOME UNIT(S).	To purchase or refinance a Manufactured Home unit(s)	48,600	69,678
LOT LOAN	To purchase and develop a lot on which to place a manufactured home unit.	16,200	23,226
COMBINATION LOAN FOR LOT AND HOME.	To purchase or refinance a manufactured home and lot on which to place the home.	64,800	92,904

II. Method of Collection

The methodology for collecting information on new manufactured homes involves contacting a monthly sample of new manufactured homes shipped by manufacturers. The units are sampled from lists obtained from the Institute for Building Technology and Safety. Dealers that take shipment of the selected homes are mailed a survey form for recording the status of the manufactured home. Each successive month, the dealer is contacted by telephone and provides updated status information about the home. Contact continues until the selected home is placed.
