SUPPLEMENTARY INFORMATION: On July 3, 2012 (77 FR 39385), the NRC published in the **Federal Register** a direct final rule amending its regulations in parts 2 and 171 of Title 10 of the Code of Federal Regulations. The direct final rule amended the size standard that the NRC uses to qualify an NRC licensee as a “small entity” under the Regulatory Flexibility Act of 1980, as amended. The NRC is increasing its receipts-based, small business size standard from \$6.5 million to \$7 million to conform to the standard set by the SBA. This document confirms the effective date. In the direct final rule, the NRC stated that if any significant adverse comments were received, a notice of timely withdrawal of the direct final rule would be published in the **Federal Register**. A significant adverse comment is one where a commenter explains why the rule would be inappropriate, including challenges to its underlying premise or approach, or would be ineffective, or unacceptable without a change. The NRC did not receive any comments that warranted withdrawal of the direct final rule. Therefore, this rule was effective as scheduled.

Dated at Rockville, Maryland, this 28th day of August, 2012.

For the Nuclear Regulatory Commission.

Cindy K. Bladley,

Chief, Rules, Announcements, and Directives Branch, Division of Administrative Services, Office of Administration.
