

information or require applicants/sponsors of the federal action to provide the information.

Respondents/affected entities: Entities potentially affected by this action are state, local, and tribal air quality agencies, regional planning organizations and facilities potentially regulated under the regional haze rule.

Respondents/affected entities: States and Federal Land Managers.

Respondent's obligation to respond: Mandatory.

Estimated number of respondents: 53.

Frequency of response: Annual.

Total estimated burden: 6,048 hours.

Total estimated cost: \$293,631. This includes an estimated labor cost of \$293,631 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

Changes in the Estimates: There is a decrease of 25,793 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. The last collection request anticipated the program progressing from the planning stages to implementation. The change in burden reflects changes in labor rates, changes in the activities conducted due to the normal progression of the program, and the fact that the aggregate initial regional haze SIPs and best available retrofit technology (BART) determinations will be acted on by the EPA by November 2012 and the states will be evaluating reasonable progress and implementation stages for the goals in those SIPs.

FOR FURTHER INFORMATION CONTACT: Julie Fitzpatrick, Office of the Science Advisor, Mail Code 8105-R, U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460; telephone number: (202) 564-4212; fax number: (202) 564-2070, email: fitzpatrick.julie@epa.gov.

SUPPLEMENTARY INFORMATION: The EPA has an established history of conducting human health risk assessments. The final *Framework* is intended to foster increased implementation of existing agency guidance for conducting human health risk assessments and improve the utility of risk assessment in the decision-making process.

In developing the draft *Framework*, the relevant recommendations presented in the National Research Council's report *Science and Decisions: Advancing Risk Assessment* have been

taken into consideration. Specifically, the recommendations that the EPA formalize and implement planning, scoping and problem formulation early in the risk assessment process and that the agency adopt a framework for risk-based decision-making are included in this *Framework*.

The draft *Framework* highlights the important roles of planning and scoping as well as problem formulation in designing a human health risk assessment process. In accord with long-standing agency policy, it also emphasizes the importance of both scientific review and public involvement. The *Framework* presents the concept of "fit for purpose" to address the development of risk assessments and associated products that are for informing risk management decisions. The final *Framework* will also highlight the agency's emphasis on the importance of transparency in human health risk assessment and decision-making processes.

This document is not intended to supersede existing agency guidance; instead, by citing and discussing existing guidance in the context of the proposed framework, it is intended to foster more effective implementation of that guidance.

The EPA previously announced the release of the draft *Framework* for a 60 day comment period (77 FR 44613), which ends on September 28, 2012. Public comments submitted during the public comment period may be viewed at <http://www.regulations.gov> under Docket ID No. EPA-HQ-ORD-2012-0579. The EPA will forward all public comments to Versar, Inc., for distribution to the members of the review panel. The external review draft does not represent agency policy. As it finalizes the draft document, the EPA intends to consider the comments from the external peer review meeting, along with public comments received by September 28, 2012, in accordance with 77 FR 44613.

Dated: September 6, 2012.

Accordingly, the Agency hereby orders that the product registrations identified in Tables 1 and 2 of Unit II. are cancelled. The effective date of the cancellations that are the subject of this notice is September 12, 2012. Any

distribution, sale, or use of existing stocks of the products identified in Table 1 and 2 of Unit II. in a manner inconsistent with any of the provisions for disposition of existing stocks set forth in Unit VI. will be a violation of FIFRA.

V. What is the agency's authority for taking this action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be cancelled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the EPA Administrator may approve such a request. The notice of receipt for this action was published for comment in the **Federal Register** issue of June 13, 2012 (77 FR 35379) (FRL–9351–7). The comment period closed on July 13, 2012.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The existing stocks provisions for the products subject to this order are as follows:

A. Registrations Listed in Table 1 of Unit II

The registrants may continue to sell and distribute existing stocks of products listed in Table 1 of Unit II. until September 12, 2013, which is 1 year after the publication of the Cancellation Order in the **Federal Register**. Thereafter, the registrants are prohibited from selling or distributing products listed in Table 1, except for export in accordance with FIFRA section 17, or proper disposal. Persons other than the registrants may sell, distribute, or use existing stocks of products listed in Table 1 of Unit II. until existing stocks are exhausted,

provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the cancelled products.

B. Registrations Listed in Table 2 of Unit II

Registrants are allowed to sell and distribute existing stocks of these products until January 13, 2013, 1 year after the date on which the maintenance fee was due. Thereafter, registrants will be prohibited from selling or distributing the pesticides identified in Table 2 of Unit II., except for export consistent with FIFRA section 17 or for proper disposal. Persons other than registrants are allowed to sell, distribute, or use existing stocks until such stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the cancelled products.

EXPORT-IMPORT BANK OF THE U.S.

[Public Notice 459]

**Agency Information Collection
Activities: Final Collection; Comment
Request**

AGENCY: Export-Import Bank of the U.S.

ACTION: Submission for OMB Review and Comments Request.

Form Title: Application for Long Term Loan or Guarantee (EIB 95-10).

SUMMARY: Export-Import (Ex-Im) Bank is requesting an emergency approval for form EIB 95-10 Application for Long Term Loan or Guarantee, OMB 3048-0013, because the Export Import Bank Reauthorization Act of 2012 has placed additional reporting requirements on the Bank.

The changes to this form are as follows:

1. Addition of a new participant role, Controlling Sponsor, to section 2 of the application. Section 18 of the Export-Import Bank Reauthorization Act of 2012 prohibits Ex-Im Bank's Board of Directors from approving "any transaction in which a person that is a borrower or controlling sponsor, or a person that is owned or controlled by

such borrower or controlling sponsor, is subject to sanctions under section 5(a) of the Iran Sanctions Act." In order for Ex-Im Bank to ensure that the Board of Directors is in compliance with the prohibition, Ex-Im Bank needs to be able to identify the controlling sponsor for a transaction (Ex-Im Bank already asks on the application form who is the borrower for the transaction). Adding this question to the application form will allow Ex-Im Bank to identify the controlling sponsor.

2. Replace Section 6 of the application with new language and questions. Section 10 of the Export-Import Bank Reauthorization Act of 2012 adds a new paragraph (h) to Section 8 of Ex-Im Bank's Charter (12 USC 635g). The new section 8(h) of the Charter requires the Bank to categorize the purpose of each loan and long-term guarantee in the Bank's Annual report. The Reauthorization Act defines the appropriate/acceptable purposes. In order to provide this information to Congress, Ex-Im Bank needs to change the questions it was asking on the application form to align them with the specific purposes identified in the Act. Without this change, Ex-Im Bank will be unable to further break down unavailability of private sector financing into risk constraints vs. maturity limitations.

3. Change the percents in Section 5; sub-section C and sub-section H of the application form to indicate that Ex-Im Bank may have the ability to finance local costs up to 30% of the net contract price. There is an international agreement that was reached between Ex-Im Bank and its foreign competitors that allows Ex-Im Bank (and its competitors) to provide additional local cost financing. This increased availability and flexibility is important to U.S. exporters and helps enhance their competitiveness. Ex-Im Bank would like to make this change to the guidance in the application form to ensure customers are aware of this enhanced support.

The application can be viewed at www.exim.gov/pub/pending/eib95-10.pdf.
