

The Draft EIS finds that emissions of air pollutants from the proposed University Expansion alternatives during construction and operations would not exceed de minimis levels or ambient standards established by the USEPA for protection of the airshed and thus air quality impacts would not be significant. The Draft EIS finds that there would be no significant increase in greenhouse gases.

The Draft EIS finds that under University Expansion Alternative 2, short-term increases in noise levels would occur during construction and noise mitigation measures could be required.

The Draft EIS finds that there is sufficient capacity for telecommunication to support either of the University Expansion alternatives. There is sufficient power to support the expansion via an independent electrical feeder; however the DoN will coordinate with the utility service provider to confirm the capacity once the exact requirements are known. For the increase in demand for potable water and natural gas, the initial utility coordination is based on the building footprint and the DoN will confirm the capacity once the design work is completed and exact requirements are known. The DoN is also coordinating with the utilities service providers to ensure that the proposed changes would not affect service delivery to the larger community. University Alternative 1 would require steam/chilled water lines to travel a longer distance to connect to existing systems compared to Alternative 2.

The Draft EIS finds that either of the proposed University Expansion alternatives would generate new staff trips from the consolidated staff (220) and would also either shift patient or staff trips within the installation roadway network. However, because the staff is current USU personnel that already travel within the area, no significant impacts on external traffic would occur as a result of either of the University Expansion alternatives.

The Draft EIS finds that there would be no impacts to historic properties University Expansion Alternative 1. University Expansion Alternative 2 would not have any adverse effects on the integrity of the National Register of Historic Places eligible AFRRI.

The Draft EIS finds that the proposed University Expansion is compatible with existing land use plans and land use planning underway within NSA Bethesda. The Draft EIS finds that University Expansion Alternative 1 would impact forested areas and would alter the visual characteristics of the

area; the DoN would ensure that the design of the building would minimize the removal of trees to the extent possible. University Expansion Alternative 2 would offer the potential for fostering a continuous campus feel between AFRRI and USU; visual character of the area would not change noticeably.

The Draft EIS finds that either of University Expansion alternatives would have beneficial economic impacts to the surrounding economy, resulting from the investment in construction and renovation of facilities but would not have a significant impact on the local economy. There would be no disproportionately high or adverse impacts on minority, low-income populations, or children. Adherence to applicable regulations and guidance will avoid impacts to human health and safety.

The decision to be made by the DoN is to determine which of the MFD and University Expansion alternatives to implement based upon operational needs and the reasonably foreseeable environmental impacts identified in the EIS.

The Draft EIS was distributed or made available to Federal, state, and local agencies, elected officials, and other interested individuals and organizations. The public comment period will end on October 29, 2012. The Draft EIS is also available for public review at the following local libraries and public facilities:

1. Bethesda Library, 7400 Arlington Road, Bethesda, MD 20814;
2. Chevy Chase Library, 8005 Connecticut Avenue, Chevy Chase, MD 20815;

The Draft EIS is also available for public viewing at the following Web site: <http://www.wrnmcc.capmed.mil/PatientVisitors/SitePages/EIS.aspx>. The executive summary or a single compact disc of the Draft EIS will be made available upon written request by contacting: NSA Bethesda Public Affairs Office, Attn: Joseph Macri, 8901 Wisconsin Avenue, Bethesda, MD 20889.

Federal, state, and local agencies, elected officials, and interested individuals and organizations are invited to be present or represented at

the public hearings. Written comments can also be submitted during the open house sessions preceding the public hearings. Oral statements will be heard and transcribed by a court reporter; however, to ensure the accuracy of the record it is encouraged that all statements also be submitted in writing. All statements, both oral and written, will become part of the public record on the Draft EIS and will be responded to in the Final EIS. Equal weight will be given to both oral and written statements. In the interest of available time, and to ensure all who wish to give an oral statement have the opportunity to do so, each speaker's comments will be initially limited to three (3) minutes. If a long statement is to be presented, it should be summarized at the public hearing with the full text submitted either in writing at the hearing, or via mail, email, or online to: NSA Bethesda Public Affairs Office, Attn: Joseph Macri, 8901 Wisconsin Avenue, Bethesda, MD 20889, Email: NNMC.NSABETHES, DAEIS@med.navy.mil, Web site: <http://www.wrnmcc.capmed.mil/PatientVisitors/SitePages/EIS> during the comment period. All written comments must be postmarked or received by October 29, 2012 to ensure they become part of the official record. All comments will be addressed in the Final EIS.

Dated: September 7, 2012.
