The teleconference will be held at 7 p.m. (EDT) on September 19, 2012 and will provide an opportunity to be heard for those who were not able to attend one of the 13 public hearings that the IJC conducted in upper Great Lakes communities during July 2012. The Commission is considering proposed changes to its Orders of Approval for the outflows of Lake Superior at the St. Marys River that have been recommended by the Study. The Study report also examines the potential future impacts of climate change, a management strategy to better anticipate and respond to future extreme water levels, the feasibility and implications of restoring water levels in lakes Michigan-Huron and multi-lake regulation and its impacts throughout the Great Lakes-St. Lawrence system. The study report and a presentation on the study findings, as well as the *supporting documents* and *peer review* are available online at the following Web site: <http://www.iugls.org>.
