

estimated that each broker-dealer who responds electronically will take 8 minutes, and each broker-dealer who responds manually will take 1½ hours to prepare and submit the securities trading data requested by the Commission. The annual aggregate hour burden for electronic and manual response firms is estimated to be 11,785 (87,454 × 8 ÷ 60 = 11,600 hours) + (80 × 1.5 = 120 hours), respectively.² In addition, the Commission estimates that it will request 500 broker-dealers to supply the contact information identified in Rule 17a-25(c) and estimates the total aggregate burden hours to be 125. Thus, the annual aggregate burden for all respondents to the collection of information requirements of Rule 17a-25 is estimated at 11,785 hours (11,660 + 125).

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

Clearing brokers respond for themselves and other firms they clear for.

² Few of respondents submit manual EBS responses. The small percentage of respondents that submit manual responses do so by hand, via email, spreadsheet, disk, or other electronic media. Thus, the number of manual submissions (80) has minimal effect on the total annual burden hours.
