Notice of Intent To Seek OMB Approval To Collect Information: Forms Pertaining to the Peer Review of ARS Research Projects

AGENCY: Agricultural Research Service (ARS), USDA.

ACTION: Notice and request for comments.

SUMMARY: The proposed information collection requirement described below will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act of 1995 and OMB implementing regulations. The Department is soliciting public comments on the subject proposal.

DATES: Written comments on this notice must be received by November 23, 2012.

ADDRESSES: Address all comments concerning this notice to: Michael S. Strauss, Peer Review Program Coordinator, Office of Scientific Quality Review; Agricultural Research Agency, USDA; 5601 Sunnyside Avenue, Beltsville, Maryland 20705; Phone: 301-504-3283; Fax: 301-504-1251.

FOR FURTHER INFORMATION CONTACT: Michael S. Strauss, 301-504-3283.

SUPPLEMENTARY INFORMATION: The Office of Scientific Quality Review will seek approval from OMB to update six existing forms that will allow the ARS to efficiently manage data associated with the peer review of agricultural research. All forms are transferred and received in an electronic storage format that does not include on-line access.

Abstract: The Office of Scientific Quality Review was established in September of 1999 as a result of the Agricultural Research, Extension, and Education Reform Act 1998 ("The Act") (Pub. L. 105-185). The Act included mandates to perform scientific peer reviews of all research activities conducted by the USDA. The Office manages the ARS peer review system by centrally planning peer panel reviews for ARS research projects on a five-year cycle.

Each set of reviews is assigned a chairperson to govern the review process. Peer reviewers are non-ARS scientists. Peer review panels are convened to provide in-depth discussion and review of the research project plans. Each panel reviewer receives information on between 1 and 20 ARS research projects.

On average, 220 research projects are reviewed annually by an estimated 200 reviewers; whereby approximately 200 are reviewed by panel and approximately 20 are reviewed through an ad hoc (written review) process. The organization and management of this peer review system, particularly panel reviews, is highly dependent on the use of forms.
