SUPPLEMENTARY INFORMATION:

I. Background

As part of its license renewal, the
licensee has requested an exemption
from the requirement in 10 CFR 30.32(g)
to list sealed sources by their
manufacturer and model number as
registered under the provisions of
section 10 CFR 32.210 of Title 10, Code
of Federal Regulations (10 CFR). The
licensee requested this exemption in a
letter dated October 19, 2011. The NRC
has prepared an Environmental
Assessment (EA) in support of this
proposed action in accordance with the
requirements in 10 CFR part 51. Based
on the EA, the NRC has concluded that
a Finding of No Significant Impact
(FONSI) is appropriate with respect to
the proposed action. The license
renewal and amendment, addressing the
approval of the exemption request, will
be issued to the licensee following the
publication of this FONSI and EA in the
Federal Register.

II. Environmental Assessment

Identification of Proposed Action

The proposed action would renew
License No. 45-25134-01 and grant a
license amendment, approving of the
licensee's request for exemption dated,
October 19, 2011. License No. 45-
25134-01 was issued on February 25,
1991, pursuant to 10 CFR Parts 30, 40,
and 70, and has been amended
periodically since that time. This
license authorizes the licensee to
receive, store, use and transfer specified
radioactive materials incident to
research and development as defined in
10 CFR 30.4. On June 20, 2011, the
licensee submitted its renewal
application for License No. 45-25134-
01. In a letter dated October 19, 2011,
submitted in response to an inquiry
from the NRC, the licensee requested an
exemption from the requirement in 10
CFR 30.32(g) to list sealed sources by
their manufacturer and model number
as registered under the provisions of 10
CFR 32.210. In requesting this
exemption, the licensee states that the
purpose of possessing the sealed sources
is to “remove and store devices of
foreign manufacture for further testing
and evaluation.” The licensee receives
material in the form of painted disks,
sealed tubes, sealed calibration sources,
plated foils, and other previously
manufactured military and civilian
