

addition, data covering employment are collected by state. The data are also used to update similar data for the universe of U.S. affiliates collected once every five years on the BE-12 benchmark survey.

The survey, as proposed, incorporates changes that were made to the 2012 BE-12, Benchmark Survey of Foreign Direct Investment in the United States. The exemption level for reporting on the proposed survey is unchanged from the previous (2011) survey.

II. Method of Collection

The BE-15 annual survey is sent to potential respondents in March of each year. A completed report covering a reporting company's fiscal year ending during the previous calendar year is due by May 31 (or by June 30 for respondents that file using BEA's eFile system). Reports must be filed by every U.S. business enterprise that is owned 10 percent or more by a foreign investor and that has total assets, sales or gross operating revenues, or net income (or loss) of over \$40 million.

As an alternative to filing paper forms, BEA offers its electronic filing option, the eFile system, for use in reporting on Form BE-15. For more information about eFile, go to www.bea.gov/efile.

Potential respondents are those U.S. business enterprises that reported in the 2012 benchmark survey of foreign direct investment in the United States, along with businesses that subsequently entered the direct investment universe. The BE-15 is a sample survey, as described; universe estimates are developed from the reported sample data.
