

the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This Notice also Lists the Following Information:
Title of Proposal: Public Housing Agency (PHA), Lease Requirements, Recordkeeping Requirements.
OMB Approval Number: 2577-0006.
Form Number: None.
Description of the Need for the Information and its Proposed Use: The Public Housing lease and grievance procedures are a recordkeeping requirement on the part of Public Housing agencies (PHAs) as they are required to enter into and maintain lease agreements for each individual or family that occupies a Public Housing

unit. Also, both PHAs and tenants are required to follow the protocols set forth in the grievance procedures for both an informal and formal grievance hearing. The current revision was needed to correct errors in the 2009 calculation. The earlier calculation had over the amount of time needed to complete the form. The previous submission incorrectly included the number of responding PHAs in the calculation and also incorrectly assumed that 100% of households would be reviewing or initiating a lease. The correction of the errors brought the number of burden hours down from 5,671,800 to 339,822.

	Number of respondents	Annual responses	×	Hours per response	=	Burden hours
Reporting Burden	3,144	1		108.08		339,822

Total Estimated Burden Hours: 339,822.
Status: Reinstatement with change of a previously approved collection.

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. 35, as amended

Dated: September 19, 2012.

Colette Pollard,

Department Reports Management Officer, Office of the Chief Information Officer.

BILLING CODE 4210-67-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-5603-N-68]

Submission of Proposed Information Collection to OMB; Screening and Eviction for Drug Abuse and Other Criminal Activity

AGENCY: Office of the Chief Information Officer, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described below has been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

The information and collection requirements consist of PHA screening requirements to obtain criminal conviction records from law enforcement agencies to prevent admission of criminals into the public housing and Section 8 programs and to assist in lease enforcement and eviction of those individuals in the public housing and Section 8 programs who

engage in criminal activity. The reason for the current revision is that the 2009 submission only included the burden hours for Public Housing participants. Because the screening is done for residents in the Public Housing and Section 8 program, the calculations were updated to reflect this reality. The current calculations use the existing formula for burden hours but include voucher residents.

DATES: *Comments Due Date:* October 26, 2012.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB approval Number (2577-0232) and should be sent to: HUD Desk Officer, Office of Management and Budget, New Executive Office Building, Washington, DC 20503; fax: 202-395-5806. Email: OIRA_Submission@omb.eop.gov fax: 202-395-5806.

FOR FURTHER INFORMATION CONTACT: Colette Pollard., Reports Management Officer, QDAM, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, DC 20410; email Colette Pollard at Colette.Pollard@hud.gov. or telephone (202) 402-3400. This is not a toll-free number. Copies of available documents submitted to OMB may be obtained from Ms. Pollard.

SUPPLEMENTARY INFORMATION: This notice informs the public that the Department of Housing and Urban Development has submitted to OMB a request for approval of the Information collection described below. This notice is soliciting comments from members of the public and affecting agencies concerning the proposed collection of information to: (1) Evaluate whether the

proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This notice also lists the following information:

BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR

Bureau of Safety and Environmental Enforcement

[Docket ID BSEE-2012-0015; OMB Control Number 1014-0019]

Information Collection Activities: Oil and Gas Production Requirements; Proposed Collection; Comment Request

ACTION: 60-day Notice.

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), BSEE is inviting comments on a collection of information that we will submit to the Office of Management and Budget (OMB) for review and approval. The information collection request (ICR) concerns a revision to the paperwork requirements in the regulations under Subpart K, *Oil and Gas Production Requirements*.

DATE: You must submit comments by November 26, 2012.

ADDRESSES: You may submit comments by either of the following methods listed below.

- *Electronically:* go to <http://www.regulations.gov>. In the entry titled *Enter Keyword or ID*, enter BSEE-2012-0015 then click search. Follow the instructions to submit public comments and view all related materials. We will post all comments.

- *Email* cheryl.blundon@bsee.gov. Mail or hand-carry comments to the Department of the Interior; Bureau of Safety and Environmental Enforcement; Regulations and Standards Branch; Attention: Cheryl Blundon; 381 Elden Street, HE3313; Herndon, Virginia 20170-4817. Please reference ICR 1014-0019 in your comment and include your name and return address.

FOR FURTHER INFORMATION CONTACT:

Cheryl Blundon, Regulations and Standards Branch at (703) 787-1607 to request additional information about this ICR.

SUPPLEMENTARY INFORMATION: *Title:* 30 CFR Part 250, Subpart K, Oil and Gas Production Requirements.

OMB Control Number: 1014-0019.

Form(s): BSEE-0126 and BSEE-0128.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior to prescribe rules and regulations to administer leasing of mineral resources on the OCS. Such rules and regulations will apply to all operations conducted under a lease, right-of-way, or a right-of-use and easement. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation’s energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition.

Section 5(a) of the OCS Lands Act requires the Secretary to prescribe rules and regulations “to provide for the prevention of waste, and conservation of the natural resources of the Outer Continental Shelf, and the protection of correlative rights therein” and to include provisions “for the prompt and efficient exploration and development of a lease area.”

Section 1334(g)(2) states “* * * the lessee shall produce such oil or gas, or both, at rates * * * to assure the maximum rate of production which may be sustained without loss of ultimate recovery of oil or gas, or both, under sound engineering and economic principles, and which is safe for the duration of the activity covered by the approved plan.”

The Independent Offices Appropriations Act (31 U.S.C. 9701), the Omnibus Appropriations Bill (Pub. L. 104-133, 110 Stat. 1321, April 26, 1996), and OMB Circular A-25, authorize Federal agencies to recover the full cost of services that confer special benefits. Under the Department of the Interior’s implementing policy,

the Bureau of Safety and Environmental Enforcement (BSEE) is required to charge the full cost for services that provide special benefits or privileges to an identifiable non-Federal recipient above and beyond those that accrue to the public at large. Several requests for approval required in Subpart K are subject to cost recovery, and BSEE regulations specify service fees for these requests.

This ICR addresses our current regulations governing oil and gas production at 30 CFR Part 250, Subpart K, associated forms, and related Notices to Lessees (NTLs) and Operators. The BSEE issued several NTLs to clarify and provide additional guidance on some aspects of the current Subpart K regulations. This collection of information will renew the approved information collection for the current Subpart K regulations (1014-0019).

Regulations at 30 CFR Part 250, Subpart K, implement these statutory requirements. We use the information in our efforts to conserve natural resources, prevent waste, and protect correlative rights, including the Government’s royalty interest. Specifically, BSEE uses the information to:

- Evaluate requests to burn liquid hydrocarbons and vent and flare gas to ensure that these requests are appropriate;
- Determine if a maximum production or efficient rate is required; and,
- Review applications for downhole commingling to ensure that action does not result in harm to ultimate recovery.

However, in this ICR, we have also clarified some sections of Form BSEE-0126. These clarifications pose minor edits and they are as follows:

In Block No. 88, TYPE OF REQUEST, we added the word “Reestablish”; in Block No. 108, we revised the block that read “API @ 60° F” to now read as “API @ 14.73 PSI & 60° F” and in Block No. 109, we revised the block from “SP GR GAS” to now read as “SP GR GAS @ 14.73 PSI & 60° F”.

We use the information in Form BSEE-0126, Well Potential Test Report, for reservoir, reserves, and conservation analyses, including the determination of maximum production rates (MPRs) when necessary for certain oil and gas completions. The information obtained from the well potential test is essential to determine if an MPR is necessary for a well and to establish the appropriate
