

LEAP/LEC will review the Council's Action Schedule and the status of regulatory actions that have been submitted to NMFS for implementation. The LEAP/LEC will also consider changes to recommendations for the timing of Federal Fishery Closures, and potential impacts of Exempted Fishing Permits being issued during closed seasons, such as for fishing tournaments. Finally, the LEAP/LEC will also consider approval of recently completed Strategic and Operations Plans, and review the state's Joint Enforcement Agreements.

The Law Enforcement Advisory Panel consists of principal law enforcement officers in each of the Gulf States, as well as the National Oceanic and Atmospheric Administration (NOAA) Law Enforcement, U.S. Fish and Wildlife Service (FWS), the U.S. Coast Guard, and the NOAA General Counsel for Law Enforcement. A copy of the agenda and related materials can be obtained by calling the Council office at (813) 348-1630.

Although other non-emergency issues not on the agendas may come before the Law Enforcement Advisory Panel for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), those issues may not be the subject of formal action during this meeting. Actions of the Law Enforcement Advisory Panel will be restricted to those issues specifically identified in the agendas and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Kathy Pereira at the Council office (see **ADDRESSES**) 5 working days prior to the meeting.

Dated: September 25, 2012.

Takes of Marine Mammals Incidental to Specified Activities; Pile Driving for Honolulu Seawater Air Conditioning Project

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of an incidental harassment authorization.

SUMMARY: In accordance with the Marine Mammal Protection Act (MMPA) implementing regulations, notification is hereby given that NMFS has issued an Incidental Harassment

Authorization (IHA) to Honolulu Seawater Air Conditioning, LLC (HSWAC), allowing the take of small numbers of marine mammals, by Level B harassment, incidental to pile driving during construction of a sea water air conditioning project.

DATES: Effective October 1, 2012, through September 30, 2013.

ADDRESSES: A copy of the IHA, application, and Environmental Assessment are available by visiting the Internet at: <http://www.nmfs.noaa.gov/pr/permits/incidental.htm>. Documents cited in this notice may also be viewed, by appointment, during regular business hours, at the aforementioned address.

FOR FURTHER INFORMATION CONTACT: Michelle Magliocca, Office of Protected Resources, NMFS, (301) 427-8401.

SUPPLEMENTARY INFORMATION:

Background

Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specific geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, a notice of a proposed authorization is provided to the public for review.

Authorization for incidental takings shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s), will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant), and if the permissible methods of taking and requirements pertaining to the mitigation, monitoring and reporting of such takings are set forth. NMFS has defined "negligible impact" as " * * * an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival."

Section 101(a)(5)(D) of the MMPA established an expedited process by which citizens of the United States can apply for an authorization to incidentally take small numbers of marine mammals by harassment. Section 101(a)(5)(D) further established

a 45-day time limit for NMFS' review of an application, followed by a 30-day public notice and comment period on any proposed authorizations for the incidental harassment of marine mammals. Within 45 days of the close of the comment period, NMFS must either issue or deny the authorization.

Except with respect to certain activities not pertinent here, the MMPA defines "harassment" as: Any act of pursuit, torment, or annoyance which (i) has the potential to injure a marine mammal or marine mammal stock in the wild [Level A harassment]; or (ii) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering [Level B harassment].

Summary of Request

On April 16, 2012, NMFS received an application from HSWAC requesting an IHA for the take, by Level B harassment, of small numbers of 19 marine mammal species incidental to pile driving activities offshore Honolulu, Hawaii. In accordance with the MMPA and implementing regulations, NMFS issued a notice in the **Federal Register** on July 24, 2012 (77 FR 43259), requesting comments from the public on a proposed IHA.

Description of the Specified Activity

A complete description of the specified activity may be found in NMFS' proposed IHA notice in the **Federal Register** (77 FR 43259, July 24, 2012) and a summary is provided here. HSWAC will construct a district cooling system for commercial and residential properties in Honolulu, consisting of an offshore seawater intake pipe, an offshore seawater discharge pipe, a land-based pump station, and a land-based chilled water distribution system. HSWAC will drive steel sheet piles and cylindrical steel piles as part of construction. Only pile driving activities are expected to result in incidental harassment of marine mammals. A summary of the pile driving activities are provided in Table 1 below. Further details regarding installation of the pipelines are provided in HSWAC's IHA application here: <http://www.nmfs.noaa.gov/pr/permits/incidental.htm>.
