

wildlife product must complete and submit to the Service an FWS Form 3-177 (Declaration for Importation or Exportation of Fish or Wildlife). This form as well as FWS Form 3-177a (Continuation Sheet) and instructions for completion are available for electronic submission at <https://edecs.fws.gov>. These forms are also available in fillable format at <http://www.fws.gov/forms/>.

The information that we collect is unique to each wildlife shipment and enables us to:

- Accurately inspect the contents of the shipment;
- Enforce any regulations that pertain to the fish, wildlife, or wildlife products contained in the shipment; and
- Maintain records of the importation and exportation of these commodities.

Businesses or individuals must file FWS Forms 3-177 and 3-177a with us at the time and port where they request clearance of the import or export of

wildlife or wildlife products. Our regulations allow for certain species of wildlife to be imported or exported between the United States and Canada or Mexico at U.S. Customs and Border Protection ports, even though our wildlife inspectors may not be present. In these instances, importers and exporters may file the forms with U.S. Customs and Border Protection. We collect the following information:

- (1) Name of the importer or exporter and broker.
- (2) Scientific and common name of the fish or wildlife.
- (3) Permit numbers (if permits are required).
- (4) Description, quantity, and value of the fish or wildlife.
- (5) Natural country of origin of the fish or wildlife.

In addition, certain information, such as the airway bill or bill of lading number, the location of the fish or wildlife for inspection, and the number

of cartons containing fish or wildlife, assists our wildlife inspectors if a physical examination of the shipment is necessary

II. Data

- OMB Control Number:* 1018-0012.
- Title:* Declaration for Importation or Exportation of Fish or Wildlife, 50 CFR 14.61-14.64.
- Service Form Numbers:* 3-177 and 3-177a.
- Type of Request:* Extension of a currently approved collection.
- Description of Respondents:* Businesses or individuals that import or export fish, wildlife, or wildlife products; scientific institutions that import or export fish or wildlife scientific specimens; and government agencies that import or export fish or wildlife specimens for various purposes.
- Respondent's Obligation:* Required to obtain or retain a benefit.
- Frequency of Collection:* On occasion.

Activity	Number of respondents	Number of responses	Completion time per response (minutes)	Total annual burden hours
3-177 hard copy submission	4,200	28,332	15	7,083
3-177 electronic submission	16,500	154,971	10	25,829
Totals	20,700	183,303	32,912

III. Comments

We invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this IC. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we

cannot guarantee that we will be able to do so.

Dated: September 26, 2012.
Tina A. Campbell,
Chief, Division of Policy and Directives Management, U.S. Fish and Wildlife Service.

Information Collection Request Sent to the Office of Management and Budget (OMB) for Approval; Control and Management of Resident Canada Geese

AGENCY: Fish and Wildlife Service, Interior.
ACTION: Notice; request for comments.

SUMMARY: We (U.S. Fish and Wildlife Service) have sent an Information Collection Request (ICR) to OMB for review and approval. We summarize the ICR below and describe the nature of the collection and the estimated burden and

cost. This information collection is scheduled to expire on November 30, 2012. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. However, under OMB regulations, we may continue to conduct or sponsor this information collection while it is pending at OMB.
DATES: You must submit comments on or before November 2, 2012.
ADDRESSES: Send your comments and suggestions on this information collection to the Desk Officer for the Department of the Interior at OMB-OIRA at (202) 395-5806 (fax) or OIRA_DOCKET@OMB.eop.gov (email). Please provide a copy of your comments to the Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS 2042-PDM, 4401 North Fairfax Drive, Arlington, VA 22203 (mail), or INFOCOL@fws.gov (email). Please include "1018-0133" in the subject line of your comments.
FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Hope Grey at INFOCOL@fws.gov (email) or 703-358-2482 (telephone). You may review the ICR online at <http://www.reginfo.gov>.

Follow the instructions to review Department of the Interior collections under review by OMB.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 1018-0133.

Title: Control and Management of Resident Canada Geese, 50 CFR 20.21, 21.49, 21.50, 21.51, 21.52, and 21.61.

Service Form Number: None.

Type of Request: Extension of a currently approved collection.

Description of Respondents: State fish and wildlife agencies, tribes, and local governments; airports; landowners; and farms.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: Annually.

Activity	Number of respondents	Number of responses	Completion time per response	Total annual burden hours *
21.49—Airport Control Order—Annual Report	50	50	1.5 hours	76
21.50—Nest and Egg Depredation Order—Initial Registration ...	1,000	1,000	30 minutes	500
21.50—Nest and Egg Depredation Order—Renew Registration	3,000	3,000	15 minutes	751
21.50—Nest and Egg Depredation Order—Annual Report	4,000	4,000	15 minutes	1,000
21.51—Agricultural Depredation Order—Recordkeeping	600	600	30 minutes	300
21.51—Agricultural Depredation Order—Annual Report	20	20	8 hours	160
21.52—Public Health Control Order—Annual Report	20	20	1 hour	20
21.49, 21.50, 21.51, and 21.52—Report Take of Endangered Species.	2	2	15 minutes	1

21.61—Population Control Approval Request—Population Estimates.	8	8	160 hours	1,280
Totals	8,708	8,708	4,280

* rounded.

Abstract: The Migratory Bird Treaty Act prohibits the take, possession, import, export, transport, sale, purchase, or bartering of migratory birds or their parts except as permitted under the terms of a valid permit or as permitted by regulations. In 2006, we issued regulations establishing two depredation orders and three control orders that allow State and tribal wildlife agencies, private landowners, and airports to conduct resident Canada goose population management, including the take of birds. We monitor the data collected for activities under these orders and may rescind an order if monitoring indicates that activities are inconsistent with conservation of Canada geese.

Control order for airports. 50 CFR 21.49 allows managers at commercial, public, and private airports and military airfields and their employees or agents to implement management of resident Canada geese to resolve or prevent threats to public safety. An airport must be part of the National Plan of Integrated Airport Systems and have received Federal grant-in-aid assistance or be a military airfield under the jurisdiction, custody, or control of the Secretary of a military department. Each facility exercising the privileges of the order must submit an annual report with the date, numbers, and locations of birds, nests, and eggs taken.

Depredation order for nests and eggs. 50 CFR 21.50 allows private landowners and managers of public lands to destroy resident Canada goose nests and eggs on property under their jurisdiction

provided they register annually on our Web site at <https://epermits.fws.gov/eRCGR>. Registrants must provide basic information, such as name, address, phone number and email, and identify where the control work will occur and who will conduct it. Registrants must return to the Web site to report the number of nests with eggs they destroyed.

Depredation order for agricultural facilities. 50 CFR 21.51 allows States and tribes, via their wildlife agency, to implement a program to allow landowners, operators, and tenants actively engaged in commercial agriculture to conduct damage management control when geese are committing depredations or to resolve or prevent other injury to agricultural interests. State and tribal wildlife agencies in the Atlantic, Central, and Mississippi Flyway portions of 41 States can implement the provisions of the order. Agricultural producers must maintain a log of the date and number of birds taken under this authorization. States and tribes exercising the privileges of the order must submit an annual report of the numbers of birds, nests, and eggs taken and the county where take occurred.

Public health control order. 50 CFR 21.52 authorizes States and tribes of the lower 48 States to conduct (via the State or tribal wildlife agency) resident Canada goose control and management activities when the geese pose a direct threat to human health. States and tribes operating under this order must submit an annual report summarizing activities,

including the numbers of birds taken and the county where take occurred.

Population control. 50 CFR 21.61 establishes a managed take program to reduce and stabilize resident Canada goose populations when traditional and otherwise authorized management measures are not successful or feasible. A State or tribal wildlife agency in the Atlantic, Mississippi, or Central Flyway may request approval for this population control program. If approved, the State or tribe may use hunters to harvest resident Canada geese during the month of August. Requests for approval must include a discussion of the State's or tribe's efforts to address its injurious situations using other methods or a discussion of the reasons why the methods are not feasible. If the Service Director approves a request, the State or tribe must (1) keep annual records of activities carried out under the authority of the program, and (2) provide an annual summary, including number of individuals participating in the program and the number of resident Canada geese shot. Additionally, participating States and tribes must monitor the spring breeding population by providing an annual estimate of the breeding population and distribution of resident Canada geese in their State.

Regulations at 50 CFR 21.49, 21.50, 21.51, and 21.52 require that persons or entities operating under the depredation and control orders must immediately report the take of any species protected under the Endangered Species Act (ESA) (21.49(d)(1)). This information ensures that the incidental take limits

authorized under Section 7 of the ESA are not exceeded.

Comments: On May 2, 2012, we published in the **Federal Register** (77 FR 26032) a notice of our intent to request that OMB renew approval for this information collection. In that notice, we solicited comments for 60 days, ending on July 2, 2012. We received one comment from the Wyoming Game and Fish Department (Wyoming) in response to that notice.

Wyoming generally supported the information collection to document and monitor control and management activities for resident Canada geese. However, it did not support the level of detail that we request in the annual reports, stating that it puts an unnecessary burden on respondents and has no practical utility. Although Wyoming does not indicate which of the depredation orders it is referring to, only the control order for resident Canada geese at agricultural facilities (21.51), the public health control order (21.52), and the population control approval request (21.61) involve State agencies. To date, the State of Wyoming has not operated under any of these orders.

The control order for agricultural facilities allows State wildlife agencies and tribes to authorize landowners, operators, and tenants actively engaged in commercial agriculture to conduct direct damage management actions. These entities must maintain records of the date and number of geese and eggs taken and provide it to their agency upon request. The State or tribal agency must provide us with an annual summary of the number of geese, nests, and eggs destroyed broken down by month so we can monitor the overall take of resident Canada geese and the continued use and effectiveness of the regulation.

The public health control order may be implemented by State and tribal wildlife agencies. The State or tribal agency must provide us with an annual summary of the number of geese, nests, and eggs destroyed broken down by county. Very few geese are taken under this order.

The population control order allows States and tribes to designate participants to act as their agents under this order. The State or tribe must keep records of the following information and provide an annual summary to us: (1) The number of individuals participating in the program; (2) the number of days individuals participated in the program; (3) the total number of resident Canada geese shot and retrieved; and (4) the number shot but not retrieved.

Overall, we agree that the most important information the Service and States need to monitor these populations is the number of geese, nests, and eggs destroyed and the population status. However, the general time and location of any geese taken under the various depredation and control orders provides valuable insight and ongoing review of the regulations' continued effectiveness, or lack thereof. For example, we would expect that over time the numbers of geese taken with the various orders should trend downward, especially in locations where they are continually implemented. Further, the information helps us determine whether the existing regulations should be revised or expanded due to changing conditions, population status, or new conflicts. We would readily consider any potential changes in the existing regulations if information warranted such changes and have made minor revisions and clarifications to the regulations since their promulgation.

Lastly, Wyoming commented that our 60-day **Federal Register** notice should have stated that State agencies may require State permits in order for (1) airports to operate under the control order for resident Canada geese at airports and military airfields (21.49), and (2) landowners to take nests and eggs under the nest and egg depredation order (21.50). Although we do not state this in the **Federal Register** notice for this information collection, that point is made clear in the regulations for these orders.

We did not make any changes to our information collection requirements based on the above comments.

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While

you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.

Dated: September 26, 2012.

Draft Midwest Wind Energy Multi-Species Habitat Conservation Plan Within Eight-State Planning Area; Reopening of Comment Period

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Reopening of public comment period.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), advise the public that we, in coordination with our planning partners, are reopening the public comment period for receipt of comments pertaining to the development of the Midwest Wind Energy Multi-Species Habitat Conservation Plan.

DATES: To ensure consideration, we request written comments on or before December 3, 2012.

ADDRESSES: Send your comments or request information by any one of the following methods:

U.S. mail: Regional Director, Attn: Rick Amidon, U.S. Fish and Wildlife Service, Ecological Services, 5600 American Blvd. West, Suite 990, Bloomington, MN 55437-1458;

Facsimile: 612-713-5292 (Attn: Rick Amidon); or

Email: midwestwindhcp@fws.gov.

FOR FURTHER INFORMATION CONTACT: Rick Amidon, (612) 713-5164.

SUPPLEMENTARY INFORMATION: On August 30, 2012 (77 FR 52754), we, the U.S. Fish and Wildlife Service (Service), published a **Federal Register** notice to advise the public that we, in coordination with our planning partners, intend to prepare the Midwest Wind Energy Multi-Species Habitat Conservation Plan (MSHCP) under the Endangered Species Act of 1973, as amended (ESA). The notice also opened a 30-day public comment period, which ended October 1, 2012. With this notice, we are reopening the public comment period an additional 60 days. More
