

Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify controlled airspace at Astoria Regional Airport, Astoria, OR.

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

#### List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

#### The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

#### PART 71—DESIGNATION OF CLASS A, B, C, D AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

**Authority:** 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

##### § 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9W, Airspace Designations and Reporting Points, dated August 8, 2012, and effective September 15, 2012 is amended as follows:

*Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.*

\* \* \* \* \*

##### ANM OR E5 Astoria, OR [Modified]

Astoria Regional Airport, Astoria, OR  
(Lat. 46°09'29" N., long. 123°52'43" W.)  
Seaside Municipal Airport  
(Lat. 46°00'54" N., long. 123°54'28" W.)

That airspace extending from 700 feet above the surface within a 7-mile radius of Astoria Regional Airport; and within 6 miles north and 8.3 miles south of the Astoria Regional Airport 268° bearing extending from the 7-mile radius to 17.5 miles west of Astoria Regional Airport, excluding the portion within a 1.8-mile radius of Seaside Municipal Airport; and within 4 miles northeast and 8.3 miles southwest of the Astoria Regional Airport 326° bearing extending from the 7-mile radius to 21.4 miles northwest of Astoria Regional Airport; and within 4 miles each side of the Astoria Regional Airport 096° bearing extending from the 7-mile radius to 12 miles east of Astoria

Regional Airport; and within 8.3 miles north and 4 miles south of the Astoria Regional Airport 096° bearing from 12 miles east, to 28.3 miles east of Astoria Regional Airport; and within a 15.9-mile radius of Astoria Regional Airport extending clockwise from the 326° bearing to the 347° bearing of the airport; and within a 23.1-mile radius of Astoria Regional Airport extending clockwise from the 347° bearing to the 039° bearing of the airport extending from the 15.9-mile radius to a 23.1-mile radius of Astoria Regional Airport extending clockwise from the airport 039° bearing to the airport 185° bearing.

Issued in Seattle, Washington, on September 25, 2012.

#### POSTAL REGULATORY COMMISSION

##### 39 CFR Part 3001

[Docket No. RM2012–8; Order No. 1488]

##### New Postal Product

**AGENCY:** Postal Regulatory Commission.

**ACTION:** Notice.

**SUMMARY:** The Commission is noticing a recently-filed Postal Service petition to initiate an informal rulemaking proceeding to consider changes in analytical principles (Proposals Eight and Nine) used in periodic reporting. This notice provides an opportunity for the public to comment on the potential changes.

**DATES:** *Comments are due:* October 29, 2012. *Reply Comments are due:* November 8, 2012.

**ADDRESSES:** Submit comments electronically via the Commission's Filing Online system at <http://ww.prc.gov>. Commenters who cannot submit their views electronically should contact the person identified in the **FOR FURTHER INFORMATION CONTACT** portion of the preamble for advice on alternatives to electronic filings.

**FOR FURTHER INFORMATION CONTACT:** Stephen L. Sharfman, General Counsel, at 202–789–6824.

**SUPPLEMENTARY INFORMATION:** On September 28, 2012, the Postal Service filed a petition pursuant to 39 CFR 3050.11 requesting that the Commission initiate an informal rulemaking proceeding to consider changes in the analytical methods approved for use in periodic reporting.<sup>1</sup> The Postal Service

<sup>1</sup> Petition of the United States Postal Service for the Initiation of a Proceeding to Consider Proposed

also requests that the Commission complete action on the petition by December 1, 2012, so that the proposed changes can be incorporated into the Annual Compliance Report (ACR) for FY 2012. Petition at 1.

*Proposal Eight: Transfer Mail Processing Cost Model for Machinable and Irregular Standard Mail Parcels to the Mail Processing Cost Model for Parcel Select/Parcel Return Service.* The Postal Service proposes to move the machinable and irregular cost worksheets contained in the Standard Mail parcel mail processing cost model to the Parcel Select/Parcel Return Service mail processing cost model and to relabel the worksheets as "Lightweight Parcel Select." *Id.* at 3. The Commission, in Docket No. MC2010–36, conditionally approved the transfer of the commercial Standard machinable and irregular parcel price categories from the market dominant product list to the competitive product list as "Lightweight Parcel Select," a subcategory of Parcel Select.<sup>2</sup> The transfer became effective with the implementation of new prices in January 2012.<sup>3</sup> The Postal Service states that costs reported for FY 2012 should reflect the incorporation of Lightweight Parcel Select into Parcel Select. Petition at 4.

The Postal Service states that the proposed changes are solely mechanical in nature because the number of machinable and irregular price categories, as well as the presort level and destination entry point for each price category, have not changed as a result of the commercial Standard Mail parcel price categories being moved to the competitive products list. *Id.* at 3. The Postal Service also proposes that the Parcel Select and Lightweight Parcel Select model cost estimates be used to

Changes in Analytical Principles (Proposals Eight and Nine), September 28, 2012 (Petition).

<sup>2</sup> Docket No. MC2010–36, Order Conditionally Granting Request to Transfer Commercial Standard Mail Parcels to the Competitive Product List, March 2, 2011 (Order No. 689). The Commission imposed "the following conditions: (1) The Postal Service files a notice of competitive price adjustment for Parcel Select rates, including Lightweight Parcel Select parcels, that demonstrates such rates satisfy 39 U.S.C. 3633(a) and 39 CFR part 3015; (2) the Commission issues an order finding that the Parcel Select rates in (1) above satisfy 39 U.S.C. 3633(a) and 39 CFR part 3015; and (3) the Standard Mail Parcels transfer authorized by this Order is not effective until the effective date of prices authorized in (b), above." *Id.* at 19.

<sup>3</sup> In Docket No. CP2012–2, the Commission approved an 8.9 percent rate increase for Lightweight Parcel Select and found that the Postal Service had met the conditions set out in Order No. 689. Docket No. CP2012–2, Order No. 1062, Order Approving Changes in Rates of General Applicability for Competitive Products, at 4, 10–13, December 21, 2011.

de-average the mail processing cost by shape estimate for all Parcel Select in the FY 2012 ACR. *Id.*

*Proposal Nine: Modify First-Class Mail, Standard Mail, and Periodicals Flats Cost Models.* The Postal Service proposes to make eight modifications to the Periodicals Flats model. The Postal Service also proposes to apply four of the modifications to the First-Class Mail and Standard Mail Flats models. *Id.* at 5. The Postal Service states that the model for each class is contained in library reference USPS-LR-RM2012-8/1, with the proposed modifications incorporated (via toggle switches).<sup>4</sup> Some of the modifications are straightforward. Others, however, involve significant changes, particularly for Periodicals.

The first proposed modification removes the ability to isolate (via toggle switches) the effect of individual changes proposed in Docket No. RM2012-2. *Id.* Those changes were approved by the Commission. The Postal Service considers the switches to be superfluous. *Id.* This modification affects the models for all three classes.

The second modification corrects what the Postal Service describes as “cell referencing errors” in the Periodicals model. *Id.*

The third modification accounts for more sources of rejects and adjusts some reject rates to make them consistent with Management Operating Data System (MODS) estimates. *Id.* at 6-8. This modification affects the models for all three classes.

The fourth modification accounts for changes in allied operations resulting from the introduction of the AFSM 100 and FSS. The modifications only apply to the Periodicals model. *Id.* at 9-10.

The fifth modification creates class-specific FSS coverage factors. Each coverage factor is the ratio of MODS FSS total pieces fed (by class) to volume as reported in the Revenue, Pieces, and Weight report. *Id.* at 10-11. This modification affects the models for all three classes.

The sixth modification removes the costs of sorting mail to post office boxes from all three flats models and designates these costs as “non-modeled.” *Id.* at 11.

The seventh modification updates the estimates of the average number of cross-dock movements by container type by entry facility for Periodicals.

<sup>4</sup> *Id.* According to the Postal Service, the impact of individual modifications can be estimated by manipulating the toggle switches. The Postal Service has not provided explicit estimates of the impact of individual modifications in Proposal Nine, nor has it provided an estimate of aggregate impact.

The update relies on Mail.dat files by publication and a Postal Service database of individual transportation routes. The Postal Service states that the new estimates are generally similar to those provided in Docket No. R2006-1. *Id.* at 11-15.

The eighth modification uses the results of the seventh modification to simplify the development of costs by container type by entry facility for Periodicals. According to the Postal Service, simply having the number of facilities that a container passes through before it reaches the destination facility is sufficient to calculate the number of times the average container incurs each process. *Id.* at 15-18.

*It is ordered:*

1. The Petition of the United States Postal Service Requesting Initiation of a Proceeding to Consider Proposed Changes in Analytical Principles (Proposals Eight and Nine), filed September 28, 2012, is granted.

2. The Commission establishes Docket No. RM2012-8 to consider the matters raised by the Postal Service's Petition.

3. Interested persons may submit comments on Proposals Eight and Nine no later than October 29, 2012.

4. Reply comments are due no later than November 8, 2012.

5. Lawrence Fenster is appointed to serve as the Public Representative to represent the interests of the general public in this proceeding.

6. The Secretary shall arrange for publication of this notice in the **Federal Register**.

By the Commission.

**Shoshana M. Grove,**

*Secretary.*

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 55

[OAR-2004-0091; FRL-9737-7]

### Outer Continental Shelf Air Regulations; Consistency Update for California

**AGENCY:** Environmental Protection Agency (“EPA”).

**ACTION:** Proposed rule—Consistency Update.

**SUMMARY:** EPA is proposing to update a portion of the Outer Continental Shelf (“OCS”) Air Regulations. Requirements applying to OCS sources located within 25 miles of States’ seaward boundaries must be updated periodically to remain

consistent with the requirements of the corresponding onshore area (“COA”), as mandated by section 328(a)(1) of the Clean Air Act, as amended in 1990 (“the Act”). The portions of the OCS air regulations that are being updated pertain to the requirements for OCS sources by the Ventura County Air Pollution Control District (Ventura County APCD). The intended effect of approving the OCS requirements for the Ventura County APCD is to regulate emissions from OCS sources in accordance with the requirements onshore. The change to the existing requirements discussed below is proposed to be incorporated by reference into the Code of Federal Regulations and is listed in the appendix to the OCS air regulations.

**DATES:** Comments must be received on or before November 8, 2012.

**ADDRESSES:** Submit comments, identified by docket number OAR-2004-0091, by one of the following methods:

1. *Federal eRulemaking Portal:* [www.regulations.gov](http://www.regulations.gov). Follow the on-line instructions.

2. *Email:* [steckel.andrew@epa.gov](mailto:steckel.andrew@epa.gov).

3. *Mail or deliver:* Andrew Steckel (Air-4), U.S. Environmental Protection Agency Region IX, 75 Hawthorne Street, San Francisco, CA 94105-3901.

*Instructions:* All comments will be included in the public docket without change and may be made available online at [www.regulations.gov](http://www.regulations.gov), including any personal information provided, unless the comment includes Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Information that you consider CBI or otherwise protected should be clearly identified as such and should not be submitted through [www.regulations.gov](http://www.regulations.gov) or email. [www.regulations.gov](http://www.regulations.gov) is an “anonymous access” system, and EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send email directly to EPA, your email address will be automatically captured and included as part of the public comment. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

*Docket:* The index to the docket for this action is available electronically at [www.regulations.gov](http://www.regulations.gov) and in hard copy at EPA Region IX, 75 Hawthorne Street, San Francisco, California. While all
