2. *Farm Self-Employment Questionnaire—20 CFR 404.1082(c) & 404.1095—0960-0061.* SSA requires proof of the existence of a trade or business before determining if an individual or partnership may have net earnings from self-employment. When a claimant indicates self-employment as a farmer, SSA obtains the information we

need to determine the existence of an agricultural trade or business and subsequent covered earnings for Social Security entitlement purposes using Form SSA-7165, Farm Self-Employment Questionnaire. As part of the application process, we conduct a personal interview, either face-to-face or via telephone, and document the

interview using Form SSA-7165. The respondents are applicants for Social Security benefits, whose entitlement depends on worker's having covered earnings from self-employment as a farmer.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
SSA-7156	47,500	1	10	7,917

3. *Statement of Household Expenses and Contributions—20 CFR 416.1130-416.1148—0960-0456.* SSA bases eligibility for Supplemental Security Income (SSI) on the needs of the recipient. In part, we assess need by determining the amount of income a recipient receives. This income includes in-kind support and maintenance in the

form of food and shelter provided by other persons. SSA uses Form SSA-8011-F3 to determine if the claimant or recipient receives in-kind support and maintenance. This is necessary to determine (1) the claimant or recipient's eligibility for SSI and (2) the SSI payment amount. SSA only uses this form in cases where SSA needs the

householder's (head of household) corroboration of in-kind support and maintenance. Respondents are householders of homes in which an SSI applicant or recipient resides.

SOCIAL SECURITY ADMINISTRATION

Agency Information Collection Activities: Proposed Request

The Social Security Administration (SSA) publishes a list of information collection packages requiring clearance by the Office of Management and Budget (OMB) in compliance with Public Law 104-13, the Paperwork Reduction Act of 1995, effective October 1, 1995. This notice includes revisions to OMB-approved information collections.

SSA is soliciting comments on the accuracy of the agency's burden estimate; the need for the information; its practical utility; ways to enhance its quality, utility, and clarity; and ways to minimize burden on respondents, including the use of automated collection techniques or other forms of information technology. Mail, email, or fax your comments and recommendations on the information collection(s) to the OMB Desk Officer and SSA Reports Clearance Officer at the following addresses or fax numbers.

(OMB)

Office of Management and Budget, Attn: Desk Officer for SSA, Fax: 202-395-6974, Email address: OIRA_Submission@omb.eop.gov.

(SSA)

Social Security Administration, DCRDP, Attn: Reports Clearance Director, 107 Altmeyer Building, 6401 Security Blvd., Baltimore, MD 21235, Fax: 410-966-2830, Email address: OR.Reports.Clearance@ssa.gov.

The information collections below are pending at SSA. SSA will submit them to OMB within 60 days from the date of this notice. To be sure we consider your comments, we must receive them no later than December 14, 2012.

Individuals can obtain copies of the collection instruments by writing to the above email address.

1. *Certificate of Support—20 CFR 404.370, 404.750, 404.408a—0960-0001.* A parent of a deceased, fully insured worker may be entitled to Social Security Old-Age, Survivors, and Disability Insurance (OASDI) benefits

based on the earnings record of the deceased worker under certain conditions. One of the conditions is the parent must have received at least one-half support from the deceased worker. The one-half support requirement also applies to a spousal applicant in

determining whether OASDI benefits are subject to Government Pension Offset (GPO). SSA uses the information from Form SSA-760-F4 to determine if the parent of a deceased worker or a spouse applicant meets the one-half support requirement. Respondents are

(1) parents of deceased workers and (2) spouses who may meet the GPO exception.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
SSA-760-F4	18,000	1	15	4,500

2. *Pre-1957 Military Service Federal Benefit Questionnaire—20 CFR 404.1301-404.1371—0960-0120.* SSA may grant gratuitous military wage credits for active military or naval service (under certain conditions) during the period September 16, 1940 through December 31, 1956, if no other Federal agency (other than the Veterans Administration) credited the service for

benefit eligibility or computation purposes. We use Form SSA-2512 to collect specific information about other Federal, military, or civilian benefits the wage earner may receive when the applicant indicates both pre-1957 military service and the receipt of a Federal benefit. SSA uses the data in the claims adjudication process to grant gratuitous military wage credits when

applicable, and to solicit sufficient information to determine eligibility. Respondents are applicants for Social Security benefits on a record where the wage earner claims pre-1957 military service.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
SSA-2512	5,000	1	10	833

3. *Authorization for the Social Security Administration to Obtain Account Records from a Financial Institution and Request for Records—20 CFR 416.200, 416.203—0960-0293.* SSA collects and verifies financial information from individuals applying for Supplemental Security Income (SSI)

to determine if the applicant meets the SSI resource eligibility requirements. If the SSI claimants provide records that are incomplete, unavailable, or seemingly altered, SSA contacts their financial institution to verify the existence, ownership, and value of accounts owned. Financial institutions

require individuals to sign Form SSA-4641-U2 to authorize them to disclose records to SSA. The respondents are financial institutions of SSI applicants, recipients, and their deemors.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
SSA-4641 (paper)	44,100	1	6	4,410
e4641 (electronic)	6,955,900	1	2	231,863
Totals	7,000,000	236,273

4. *Response to Notice of Revised Determination—20 CFR 404.913-404.914, 404.992(b), 416.1413-416.1414 and 416.1492(d)—0960-0347.* When SSA determines that (1) claimants for initial disability benefits do not actually have a disability or (2) current disability recipients' records show their disability

ceased, SSA notifies the disability claimants or recipients of this decision. In response to this notice, the affected claimants and disability recipients have the following recourse: (1) They may request a disability hearing to contest SSA's decision and (2) they may submit additional information or evidence for

SSA to consider. Disability claimants, recipients, and their representatives use Form SSA-765 to accomplish these two actions. The respondents are disability claimants, current disability recipients, or their representatives.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
SSA-765	1,925	1	30	963

5. *Notification of a Social Security Number (SSN) To An Employer for Wage Reporting—20 CFR 422.103(a)—0960–0778.* Individuals applying for employment must provide an SSN or indicate they have applied for one. However, when an individual applies for an initial SSN, there is a delay between the assignment of the number and the delivery of the SSN card. At an individual's request, SSA uses Form SSA–132 to send the individual's SSN

to an employer. Mailing this information to the employer (1) ensures the employer has the correct SSN for the individual; (2) allows SSA to receive correct earnings information for wage reporting purposes; and (3) reduces the delay in the initial SSN assignment and delivery of the SSN information directly to the employer. It also enables SSA to verify the employer as a safeguard for the applicant's personally identifiable information. The majority of individuals

who take advantage of this option are in the United States with exchange visitor and student visas; however, we allow any applicant for an SSN to use the SSA–132. The respondents are individuals applying for an initial SSN who ask SSA to mail confirmation of their application or the SSN to their employers.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
SSA–132	249,000	1	2	8,300

use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

Abstract of proposed collection:

The Intelligence Reform and Terrorism Prevention Act of 2004 (IRTPA) calls for the Secretary of Homeland Security, along with the Secretary of State, to develop and implement a plan that requires sufficient documentation of identity and citizenship to be shown when entering the United States. The requirement that requires sufficient documentation of identity and citizenship to be shown when entering the United States along with other socio-demographic variables has left the future demand for U.S. passport products as undefined. The ambiguity of passport demand has resulted in Passport Services (CA/PPT) having an urgent need to obtain regular statistical data on issues that focuses on and are related to passport applications and travel. In support of these efforts, CA/PPT will conduct monthly forecasts of passport demand. The data gathered from the Passport Demand Forecasting Study will be used to monitor, assess, and forecast passport demand on a continuous basis.

Methodology:

CA/PPT is conducting a Passport Demand Forecast Study that includes monthly surveys that will gather data from a national representative sample of U.S. citizens, U.S. nationals, and any other categories of individuals that are entitled to a U.S. passport product. Methodologies can include mail, web/internet, telephone, and mixed-mode
