Title of Collection: 2012/14 Beginning Postsecondary Students Longitudinal Study: (BPS:12/14) Field Test.

OMB Control Number: 1850-0631.

Type of Review: Revision.

Total Estimated Number of Annual Responses: 13,975.

Total Estimated Number of Annual Burden Hours: 2,294.

Abstract: Data from BPS are used to help researchers and policymakers better understand how financial aid influences persistence and completion, what percentages of students complete various degree programs, what early employment and wage outcomes are for certificate and degree attainees, and why students leave school. This request is to conduct the BPS:12/14 first follow-up field test, including panel maintenance, student interviews and reinterviews, and administrative record matching. Following the field test study in 2013, NCES will submit a request for clearance of the BPS:12/14 full scale data collection to be conducted in spring 2014. Because only minimal changes are expected after the field test, NCES is requesting a waiver of the 60-day **Federal Register** Notice for the full-scale collection clearance submission.
