

comments will advise BLS as to whether the academic community will regard the work as being technically sound and reflecting best practices in the relevant fields.

b. Conduct research on issues identified by BLS on which an objective technical opinion or recommendation from outside of BLS would be valuable.

c. Recommend BLS conduct internal research projects to address technical problems with BLS statistics that have been identified in the academic literature.

d. Participate in discussions of areas where the types or coverage of economic statistics could be expanded or improved and areas where statistics are no longer relevant.

e. Establish working relationships with professional associations with an interest in BLS statistics, such as the American Statistical Association and the American Economic Association.

The Committee will report to the Commissioner of Labor Statistics.

The Committee consists of approximately sixteen members who serve as Special Government Employees. Members are appointed by the BLS and are approved by the Secretary of Labor. Committee members are economists, statisticians, and behavioral scientists and will be chosen to achieve a balanced membership across those disciplines. They are prominent experts in their fields and recognized for their professional achievements and objectivity.

The Committee will function solely as an advisory body, in compliance with the provisions of the Federal Advisory Committee Act. The Charter will be filed under the Federal Advisory Committee Act.

## NATIONAL SCIENCE FOUNDATION

### Agency Information Collection Activities: Comment Request

**AGENCY:** National Science Foundation.

**ACTION:** Submission for OMB review;  
comment request.

---

**SUMMARY:** The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. This is the second notice for public comment; the first was published in the **Federal Register** at 77 FR 49832. NSF is forwarding the proposed renewal submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice. The full submission may be found at: <http://www.reginfo.gov/public/do/PRAMain>.

**Comments:** Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; or (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725-17th Street NW., Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230 or send email to [splimpto@nsf.gov](mailto:splimpto@nsf.gov). Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling 703-292-7556.

**FOR FURTHER INFORMATION CONTACT:** Suzanne H. Plimpton at (703) 292-7556 or send email to [splimpto@nsf.gov](mailto:splimpto@nsf.gov). Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

**SUPPLEMENTARY INFORMATION:**

*Title of Collection:* Grantee Reporting Requirements for the Research Experiences for Undergraduates (REU) Program.

*OMB Number:* 3145-NEW.

*Type of Request:* Intent to seek approval to establish an information collection.

**Abstract**

*Proposed Project*

The Research Experiences for Undergraduates (REU) Reporting Module is a component of the NSF Project Reports System that is designed to gather information about students participating in Research Experiences for Undergraduates (REU) Sites and Supplements projects. All NSF projects are required to use the FastLane Project Reports System for developing and submitting annual and final project reports. If NSF cannot collect information about undergraduate participants in undergraduate research experiences, NSF will have no other means to consistently document the number and diversity of participants, types of participant involvement in the research, and types of institutions represented by the participants.

NSF is committed to providing program stakeholders with information regarding the expenditure of taxpayer funds on these types of experiences, which provide training for postsecondary students in basic and applied research in STEM.

*Background*

All NSF grantees are required to use the FastLane Project Reports System for reporting progress, accomplishments, participants, and activities annually and at the conclusion of their project. Information from annual and final reports provides yearly updates on project inputs, activities, and outcomes for agency reporting purposes. If project participants include undergraduate students supported by the Research Experiences for Undergraduates (REU) Sites Program or by an REU Supplement, then the grantees and their students are required to complete the REU Reporting Module.

*Respondents:* Individuals (Principal Investigators and REU undergraduate student participants).

*Number of Principal Investigator*

*Respondents:* 2,000.

*Burden on the Public:* 650 total hours.

*Number of REU Student Participant Respondents:* 7,250.

*Burden on the Public:* 1,810 total hours.

Dated: October 15, 2012.

**Suzanne H. Plimpton,**

*Reports Clearance Officer, National Science Foundation.*

### Notice of Permits Issued Under the Antarctic Conservation Act of 1978

**AGENCY:** National Science Foundation.

**ACTION:** Notice of a permit modification issued under the Antarctic Conservation Act of 1978, Public Law 95-541.

**SUMMARY:** The National Science Foundation (NSF) is required to publish notice of permit modifications issued under the Antarctic Conservation Act of 1978. This is the required notice.

**FOR FURTHER INFORMATION CONTACT:**

Nadene G. Kennedy, Permit Office, Office of Polar Programs, Rm. 755, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230.

**SUPPLEMENTARY INFORMATION:** On August 22, 2012, the National Science Foundation published a notice in the **Federal Register** of a permit modification request received. The permit modification was issued on October 17, 2012 to:

David Ainley Permit No. 2011-002 Mod. #3

**Nadene G. Kennedy,**

*Permit Officer.*

### Advisory Committee for Mathematical and Physical Sciences; Notice of Meeting

In accordance with Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

*Name:* Mathematical and Physical Sciences Advisory Committee (66).

*Date/Time:* November 8, 2012 1:00 p.m.–5:00 p.m.; November 9, 2012 10:30 a.m.–2:30 p.m.

*Place:* National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230 Room 1235

*Type of Meeting:* Open.

*Contact Person:* Dr. Mark A. Suskin, Acting Deputy Assistant Director, Directorate for Mathematical and Physical Sciences, Room 1005, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230. (703) 292-8807.

*Purpose of Meeting:* To provide advice and recommendations concerning NSF science and education activities within the Directorate for Mathematical and Physical Sciences.

*Agenda:* Update on current status of Directorate Report of MPS Advisory Working Group on Expeditions in Education Meeting of MPSAC with Divisions within MPS Directorate Discussion of MPS Long-term Planning Activities.

*Summary Minutes:* May be obtained from the contact person listed above.

Dated: October 18, 2012.

**Susanne E. Bolton,**

*Committee Management Officer.*

## NUCLEAR REGULATORY COMMISSION

[Docket No. 40-3392; License No. SUB-526; EA-12-157; NRC-2012-0244]

### Confirmatory Order; In the Matter of Honeywell International Inc.; Metropolis, Illinois

#### I.

Honeywell International Inc. (Honeywell or Licensee) is the holder of Materials License No. SUB-526, issued by the U.S. Nuclear Regulatory Commission (NRC or the Commission) pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) part 40. Originally issued on December 17, 1958, the license has been renewed many times, most recently on May 11, 2007. The license authorizes the operation of Honeywell's Metropolis Works facility in accordance with the conditions specified therein. The facility is located in Metropolis, Illinois.

#### II.

From May 21 through 24, 2012, an NRC inspection was conducted at the Metropolis Works facility pursuant to NRC Temporary Instruction (TI) 2600/015, "Evaluation of Licensee Strategies for the Prevention and/or Mitigation of Emergencies at Fuel Facilities." The objective of the TI inspection was to independently verify that Honeywell is adequately prepared to prevent and/or mitigate the consequences of selected safety/licensing basis events and to evaluate the adequacy of those emergency prevention and/or mitigation strategies for dealing with the consequences of selected beyond-safety/licensing basis events. At the time of the inspection, the Metropolis Works facility had been shut down since May 9, 2012, for a planned maintenance outage.

The inspection identified significant concerns related to Honeywell's Uranium Hexafluoride (UF<sub>6</sub>) and Hydrogen Fluoride (HF) source terms, used as a basis for the Honeywell Emergency Response Plan (ERP). Specifically, the inspection identified that the design of the process equipment in the Feed Materials Building at the Metropolis Works facility lacks seismic restraints, supports, and bracing that would assure process equipment integrity during a credible seismic event or tornado. Because the Metropolis Works facility was shut down for a planned maintenance outage, no immediate safety concern existed. The NRC concluded, however, that the potential consequences of the inspection findings were significant.
